## **REASONS FOR AND BENEFITS OF THE SUBSCRIPTION OF THE WEALTH MANAGEMENT PRODUCT**

The Directors are of the view that (i) the subscription of the Wealth Management Product provides the Group with better return than fixed deposits generally offered by commercial banks in the PRC; (ii) the subscription of the Wealth Management Product was funded by the Group's surplus cash reserves, and thus would not affect the Group's working capital position or operation; and (iii) appropriate wealth management with low risk exposure is conducive to enhancing the utilization of capital and increasing income from idle funds. Accordingly, the Directors consider that the subscription of the Wealth Management Product is on normal commercial terms which are fair and reasonable and in the interests of the Company and the Shareholders as a whole.

Prior to making an investment, the Group would ensure that there remains sufficient working capital for the Group's business needs, operating activities and capital expenditures. Taking into consideration the nature of the Wealth Management Product and the relatively high credit rating of their underlying assets, the Company considers that the risk level of the subscription of the Wealth Management Product is in line with the internal investment policies of the Group. The Company will monitor and manage the subscription closely and effectively. In accordance with the relevant accounting standards, the Wealth Management Product is accounted for as financial assets at fair value through profit and loss.

## **IMPLICATION UNDER THE LISTING RULES**
