*Independence*

We are independent of the Sub-Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

**Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

**Other Information**

The manager and the trustee (the “Management”) of the Sub-Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor’s report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

TO THE UNITHOLDERS OF CSOP YINHUA CSI 5G COMMUNICATIONS THEME ETF (CONTINUED)  
(A SUB-FUND OF CSOP ETF SERIES, AN UMBRELLA UNIT TRUST ESTABLISHED IN HONG KONG)**

**Responsibilities of Management for the Financial Statements**

The Management of the Sub-Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Sub-Fund is responsible for assessing the Sub-Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Sub-Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Sub-Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 25 July 2012, as amended, ("Trust Deed") and the Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

**Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Sub-Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and the Appendix E of the SFC Code.

As part of an audit in accordance with HKSAAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Sub-Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Sub-Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Sub-Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

TO THE UNITHOLDERS OF CSOP YINHUA CSI 5G COMMUNICATIONS THEME ETF (CONTINUED)  
(A SUB-FUND OF CSOP ETF SERIES, AN UMBRELLA UNIT TRUST ESTABLISHED IN HONG KONG)**

**Auditor's Responsibilities for the Audit of the Financial Statements (Continued)**

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Management with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Management, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**Report on Matters under the Relevant Disclosure Provisions of the Trust Deed and the Appendix E of the SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and the Appendix E of the SFC Code.

The engagement partner on the audit resulting in this independent auditor's report is Josephine W.T. Kwan.

### **NOTES TO THE FINANCIAL STATEMENTS**

#### **1. GENERAL INFORMATION**

CSOP ETF Series (the “Trust”) is an umbrella unit trust governed by its trust deed dated 25 July 2012, as amended, (the “Trust Deed”) and authorised by the Securities and Futures Commission of Hong Kong (the “SFC”) pursuant to Section 104(1) of the Securities and Futures Ordinance. The terms of the Trust Deed are governed by the laws of Hong Kong. As at 31 December 2021, the Trust has nine sub-funds which are CSOP Yinhua CSI 5G Communications Theme ETF (the “Sub-Fund”), CSOP FTSE China A50 ETF, CSOP SZSE ChiNext ETF, CSOP MSCI China A Inclusion Index ETF, ICBC CSOP S&P New China Sectors ETF, CSOP Hong Kong Dollar Money Market ETF, CSOP US Dollar Money Market ETF, CSOP CSI 500 ETF and CSOP Hang Seng TECH Index ETF. The date of inception of the Sub-Fund was 21 October 2020. The Sub-Fund is listed on The Stock Exchange of Hong Kong Limited.

The manager and the trustee of the Sub-Fund are CSOP Asset Management Limited (the “Manager”) and HSBC Institutional Trust Services (Asia) Limited (the “Trustee”) respectively.

The investment objective of the Sub-Fund is to provide investment results that, before deduction of fees and expenses, closely correspond to the performance of the Underlying Index, namely, the CSI 5G Communication Index (the “Underlying Index”). The Sub-Fund is a feeder fund which in seeking to achieve its investment objective, the Manager will invest at least 90% of its Net Asset Value in the Yinhua CSI 5G Communication ETF (the “Master ETF”) via the QFI status granted to the Manager.

Investment in units of the Master ETF by the Sub-Fund will be made via the secondary market (i.e. through the Shenzhen Stock Exchange (“SZSE”). The Master ETF is an exchange traded fund listed on the Shenzhen Stock Exchange that tracks the performance of the Underlying Index. The Master ETF is authorised by the Commission for the sole purpose of being master fund of the Sub-Fund and will not be directly offered to the public in Hong Kong.

The Sub-Fund has been using CSI 5G Communication Index as its underlying index.

The Sub-Fund being a feeder fund, invests directly in the Master ETF through the QFI status of the Manager. The Manager has obtained QFI status in the PRC mainland. Under current regulations in the PRC mainland, generally foreign investors can invest in the domestic securities and/or futures market through (i) certain foreign institutional investors that have obtained status as a QFI from the CSRC to remit foreign freely convertible currencies and RMB into the PRC mainland for the purpose of investing in the PRC mainland’s domestic securities and/or futures markets, or (ii) the Stock Connect Program.

These financial statements are prepared for the Sub-Fund only. The financial statements for CSOP FTSE China A50 ETF, CSOP SZSE ChiNext ETF, CSOP MSCI China A Inclusion Index ETF, ICBC CSOP S&P New China Sectors ETF, CSOP Hong Kong Dollar Money Market ETF, CSOP US Dollar Money Market ETF, CSOP CSI 500 ETF and CSOP Hang Seng TECH Index ETF have been prepared separately.

**NOTES TO THE FINANCIAL STATEMENTS**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to the period presented, unless otherwise stated.

**(a) Basis of preparation**

The financial statements of the Sub-Fund have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRS”) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of investments and derivative financial instruments at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRS requires the use of certain critical accounting estimates. It also requires the Trustee and the Manager (together the “Management”) to exercise their judgment in the process of applying the Sub-Fund’s accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 3.

New standards, amendments and interpretations effective after 21 October 2020 (date of inception) that are relevant to the Sub-Fund and have not been early adopted by the Sub-Fund

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 21 October 2020 (date of inception) and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Sub-Fund.

**(b) Investments**

**(i) Classification**

The Sub-Fund classifies its investments based on both the Sub-Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Sub-Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. The Sub-Fund has not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income. Consequently, all investments are measured at fair value through profit or loss.

**(ii) Recognition/derecognition**

Purchases and sales of investments are accounted for on the trade date basis - the date on which the Sub-Fund commits to purchase or sell the investments. Investments are derecognised when the rights to receive cash flows from the investments have expired or the Sub-Fund has transferred substantially all risks and rewards of ownership.

**(iii) Measurement**

Investments are initially recognised at fair value. Transaction costs are expensed as incurred in the statement of comprehensive income.

Subsequent to initial recognition, all investments are measured at fair value. Realised and unrealised gains and losses on investments are recognised in the statement of comprehensive income in the year in which they arise.

**CSOP YINHUA CSI 5G COMMUNICATIONS THEME ETF  
(A SUB-FUND OF CSOP ETF SERIES)**

**NOTES TO THE FINANCIAL STATEMENTS**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**(b) Investments (Continued)**

(iv) Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets (such as publicly traded derivatives and trading securities) are based on quoted market prices at the close of trading on the reporting date. The Sub-Fund utilises the last traded market price for both listed financial assets and liabilities where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Management will determine the point within the bid-ask spread that is most representative of fair value.

The fair value of financial assets that are not traded in an active market (for example, over-the-counter derivatives) is determined by using broker quotes or valuation techniques.

(v) Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

(vi) Derivatives

A financial asset or financial liability is classified as held for trading if it is acquired or incurred principally for the purpose of selling or repurchasing in the near term or is part of a portfolio of identifiable financial investments that are managed together and for which there is evidence of a recent actual pattern of short-term profit taking. Derivatives are also categorised as held for trading unless they are designated as hedges. The Sub-Fund does not classify any derivatives as hedges in a hedging relationship.

Financial assets and financial liabilities designated at fair value through profit or loss at inception are financial instruments that are not classified as held for trading but are managed, and their performance is evaluated on a fair value basis in accordance with the Sub-Fund's documented investment strategy.

The Sub-Fund's policy requires the Manager to evaluate the information about these financial assets and liabilities on a fair value basis together with other related financial information.

(vii) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counterparty.

**NOTES TO THE FINANCIAL STATEMENTS**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**(c) Amounts due from participating dealers/brokers**

Amounts due from participating dealers represent the subscription receivable from the participating dealers at the end of the reporting period. The amounts are non-interest bearing and repayable on demand.

Amounts due from brokers represent receivables for securities sold that have been contracted for but not yet settled on the statement of financial position date.

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Sub-Fund shall measure the loss allowance on amounts due from participating dealers/brokers at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Sub-Fund shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the participating dealers/brokers, probability that the participating dealers/brokers will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required. If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the gross carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by Management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered credit impaired.

**(d) Amounts due to participating dealers/brokers**

Amounts due to participating dealers represent the redemption payable to the participating dealers at the end of the reporting period. The amounts are non-interest bearing and repayable on demand.

Amounts due to brokers represent payables for securities purchased that have been contracted for but not yet delivered on the statement of financial position date.

These amounts are recognised initially at fair value and subsequently measured at amortised cost.

**(e) Dividend income and interest income**

Dividend income is recorded on the ex-dividend date with the corresponding foreign withholding taxes recorded as an expense.

Interest income is recognised on a time-proportionate basis using the effective interest method.

**(f) Distributions to unitholders**

Distributions to unitholders are recognised in the statement of changes in net assets attributable to unitholders when they are approved by the Manager. Distributions to unitholders are recognised as distributions in the statement of changes in net assets attributable to unitholders.

**(g) Other income/expense**

Other income/expense mainly represents the difference between the proceeds received from/paid to participating dealers and cost of investment purchased/sold.

**NOTES TO THE FINANCIAL STATEMENTS**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**(h) Transaction costs on investments**

Transactions costs are costs incurred to acquire/dispose financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transactions costs, when incurred, are immediately recognised in the statement of comprehensive income as an expense.

**(i) Expenses**

Expenses are accounted for on an accrual basis.

**(j) Cash and cash equivalents**

Cash and cash equivalents include cash in hand, cash at bank, demand deposits, other short-term highly liquid investments with original maturities of three months or less and bank overdrafts.

**(k) Foreign currencies translation**

Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Sub-Fund operates (the "functional currency"). The Sub-Fund invests in A Shares in the PRC and the performance of the Sub-Fund is measured and reported to the unitholders in RMB. The Manager considers Renminbi as the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions. The financial statements are presented in RMB, which is the Sub-Fund's functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign currency assets and liabilities are translated into the functional currency using the exchange rate prevailing at the reporting date.

Foreign exchange gains and losses arising from translation are included in the statement of comprehensive income.

Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the statement of comprehensive income within "net loss on investments".

**NOTES TO THE FINANCIAL STATEMENTS**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**(l) Redeemable units**

The Sub-Fund issues redeemable units, which are redeemable at the holder's option. These units represent puttable financial instruments of the Sub-Fund. The Sub-Fund classifies its puttable financial instruments as equity in accordance with HKAS 32 (Amendment), "Financial instruments: Presentation" as those puttable financial instruments meet all the following criteria:

- the puttable financial instruments entitle the holder to a pro-rata share of net asset value;
- the puttable financial instruments are the most subordinated units in issue and unit features are identical;
- there are no contractual obligations to deliver cash or another financial asset; and
- the total expected cash flows from the puttable financial instrument over its life are based substantially on the profit or loss of the Sub-Fund.

Units are issued and redeemed at the holder's option at prices based on the Sub-Fund's net asset value per unit at the time of issue or redemption. The Sub-Fund's net asset value per unit is calculated by dividing the net assets attributable to unitholders with the total number of outstanding units.

In accordance with the Prospectus of the Sub-Fund, investment positions are valued based on the last traded market price for the purpose of determining the net asset value per unit for subscriptions and redemptions of the Sub-Fund.

**(m) Taxation**

The Sub-Fund currently incurs withholding taxes imposed by PRC on investment income. Such income is recorded gross of withholding taxes in the statement of comprehensive income. Withholding taxes are included as taxation in the statement of comprehensive income.

Deferred income tax is provided, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the statement of financial position date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income taxes assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

**(n) Establishment costs**

Establishment costs are recognised as an expense in the year in which they are incurred.

**8. FINANCIAL RISK MANAGEMENT**

The investment objective of the Sub-Fund is to provide investment results that, before deduction of fees and expenses, closely correspond to the performance of the CSI 5G Communication Index. The Sub-Fund's activities may expose it to a variety of risks including but not limited to: market risk (including market price risk, interest rate risk and currency risk), credit and counterparty risk and liquidity risk which are associated with the markets in which the Sub-Fund invests.

The following is a summary of the main risks and risk management policies.

**(a) Market risk**

**(i) Market price risk**

Market price risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual instrument or factors affecting all instruments in the market.

The Sub-Fund is designated to track the performance of the CSI 5G Communication Index by investing into the Master ETF, therefore the exposures to market risk in the Sub-Fund will be substantially the same as the tracked index.

**(a) Market risk (Continued)**

**(i) Market price risk (Continued)**

As at 31 December 2021, the fair value of investments of the Master ETF by industrial sector and their estimated market sensitivity based on the Master ETF's audited financial records were as follows:

	31 December 2021	
	Fair value <i>RMB</i>	% of net asset value
Listed securities in PRC – by industry		
Construction	11,520	-
Culture, sports and entertainment	58,040,425	2.39

Water conservancy, environment and Public facilities management	9,360	-
Wholesale and retail	26,546	-
	<u>2,392,856,298</u>	<u>98.52</u>

The Sub-Fund is a feeder fund which invests directly in the Master ETF. The Master ETF held 50 out of 50 constituent securities comprising the CSI 5G Communication Index. The Sub-Fund is therefore exposed to substantially the same market price risk as the CSI 5G Communication Index.

Sensitivity analysis in the event of a possible change in the index by 10% as estimated by the Manager

As at 31 December 2021, if the CSI 5G Communication Index were to increase by 10% with all other variables held constant, this would increase the operating profit for the period by approximately RMB1,211,568. Conversely, if the CSI 5G Communication Index were to decrease by 10%, this would decrease the operating profit for the period by an equal amount.

**CSOP YINHUA CSI 5G COMMUNICATIONS THEME ETF  
(A SUB-FUND OF CSOP ETF SERIES)**

**NOTES TO THE FINANCIAL STATEMENTS**

**8. FINANCIAL RISK MANAGEMENT (Continued)**

**(a) Market risk (Continued)**

**(ii) Interest rate risk**

Interest rate risk arises from the effects of fluctuations in the prevailing levels of market interest rates on the fair value of financial assets and liabilities and future cash flow.

The Sub-Fund

As at 31 December 2021, interest rate risk arises only from bank balances. As the bank balances held by the Sub-Fund is short term in nature and the interest arising from these interest bearing assets are immaterial, the Manager considers that changes in their fair value and future cash flows in the event of a change in market interest rates will not be material. As a result, the Manager considers sensitivity analysis of interest rate risk is not necessary to be presented.

**(iii) Currency risk**

Currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates. The Sub-Fund is not exposed to currency risk arising from balances and transactions in foreign currencies as the majority of its assets and liabilities are denominated in RMB, the Sub-Fund's functional and presentation currency. As a result, Manager considers sensitivity analysis of currency risk is not necessary to be presented.

**(b) Credit and counterparty risk**

Credit and counterparty risk is the risk that an issuer or counterparty will be unable or unwilling to meet a commitment that it has entered into with the Sub-Fund.

The Sub-Fund limits its exposure to credit and counterparty risk by carrying out the majority of its investment transactions and contractual commitment activities with well-established broker-dealers, banks and regulated exchanges with high credit ratings.

All transactions in listed securities are settled or paid for upon delivery using approved and reputable brokers. In addition, the Sub-Fund places bank balances with reputable financial institutions. As such, the Manager does not consider the Sub-Fund to be exposed to significant credit and counterparty risk.

As at 31 December 2021, the Sub-Fund placed bank balances of RMB10,793 with The Hong Kong and Shanghai Banking Corporation Limited ("HSBC"), which is the custodian of the Sub-Fund. The S&P credit rating of HSBC is A-.

As at 31 December 2021, the Sub-Fund placed bank balances of RMB286,302, deposit reserve of RMB8,763 and investments of RMB12,431,239 with HSBC Bank (China) Company Limited ("HSBC China"), which is the PRC custodian of the Sub-Fund. The Moody's credit rating of HSBC China is A1.

The Sub-Fund measures credit risk and expected credit losses using probability of default, exposure at default and loss given default. Management consider both historical analysis and forward looking information in determining any expected credit loss. At 31 December 2021, deposit reserve, bank interest receivable and bank balances are held with counterparties with high credit ratings and are due to be settled within 1 month. Management consider the probability of default to be close to zero as the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Sub-Fund.

The maximum exposure to credit risk as at 31 December 2021 is the carrying amount of the financial assets as shown on the statement of financial position.

(A SUB-FUND OF CSOP ETF SERIES)**

**NOTES TO THE FINANCIAL STATEMENTS**

**8. FINANCIAL RISK MANAGEMENT (Continued)**

**(c) Liquidity risk**

Liquidity risk is the risk that the Sub-Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Sub-Fund is exposed to daily redemptions of units in the Sub-Fund. The Sub-Fund invests the majority of its assets in securities that are traded in an active market which can be readily disposed of.

The table below analyses the Sub-Fund's financial liabilities into relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

	Less than 1 month <i>RMB</i>	1 month to less than 3 months <i>RMB</i>	Over 3 months <i>RMB</i>	Total <i>RMB</i>
<b>As at 31 December 2021</b>				
Amounts due to brokers	270,481	-	-	270,481

License fee payable	-	67,966	-	67,966
Other accounts payable	170	704	93,256	94,130
<b>Contractual cash outflow</b>	<u>281,366</u>	<u>68,670</u>	<u>93,256</u>	<u>443,292</u>

Units are redeemed on demand at the unitholder's option. As at 31 December 2021, there were two unitholders holding more than 10% of the Sub-Fund's units.

The Sub-Fund manages its liquidity risk by investing in securities that it expects to be able to liquidate within 7 days or less. The following table illustrates the expected liquidity of assets held:

	Less than 1 month <i>RMB</i>	1 to 12 months <i>RMB</i>	No stated maturity <i>RMB</i>	Total <i>RMB</i>
<b>As at 31 December 2021</b>				
Total assets	<u>12,728,334</u>	<u>5,132</u>	<u>8,763</u>	<u>12,742,229</u>

**(d) Fair value estimation**

The Sub-Fund classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Sub-Fund can access at the measurement date (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

**CSOP YINHUA CSI 5G COMMUNICATIONS THEME ETF  
(A SUB-FUND OF CSOP ETF SERIES)**

**NOTES TO THE FINANCIAL STATEMENTS**

**8. FINANCIAL RISK MANAGEMENT (Continued)**

**(d) Fair value estimation (Continued)**

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset or liability.

The determination of what constitutes “observable” requires significant judgment by the Sub-Fund. The Sub-Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following table analyses within the fair value hierarchy the Sub-Fund’s financial assets (by class) measured at fair value at 31 December 2021:

	Level 1 <i>RMB</i>	Level 2 <i>RMB</i>	Level 3 <i>RMB</i>	Total <i>RMB</i>
<b>As at 31 December 2021</b>				
<b>Assets</b>				
Investment				
- Listed investment funds	12,431,239	-	-	12,431,239
<b>Total assets</b>	<u>12,431,239</u>	<u>-</u>	<u>-</u>	<u>12,431,239</u>

Investments whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed investment fund. The Sub-Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently or do not trade. As at 31 December 2021, the Sub-Fund did not hold any investments classified in level 3.

As at 31 December 2021, there was no investment held by the Sub-Fund which has been suspended for trading.

Transfer between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

The assets and liabilities included in the statement of financial position, other than investments, are carried at amortised cost. The carrying value of these financial assets and liabilities are considered by the Manager to approximate their fair value as they are short term in nature and the effect of discounting is immaterial. There are no other assets and liabilities not carried at fair value but for which fair value is disclosed.

**(e) Capital risk management**

The Sub-Fund's capital is represented by the redeemable units outstanding. The Sub-Fund's objective is to provide investment results that correspond generally to the performance of the respective index. The Manager may:

- Redeem and issue new units on a daily basis in accordance with the constitutive documents of the Sub-Fund;

The maximum limit for each of the Sub-Funds has been disclosed in their respective prospectus.

The SFC Code allows the Sub-Fund to invest in constituent securities issued by a single issuer for more than 10% of the Sub-Fund's net asset value provided that the investment is limited to any constituent securities that each accounts for more than 10% of the weighting of the Index and the Sub-Fund's holding of any such constituent securities may not exceed their respective weightings in the Index (except as a result of changes in the composition of the Index and the excess is transitional and temporary in nature).

No more than 10% of the Net Asset Value of the Sub-Fund may be invested in collective investment scheme(s) other than the Master ETF which may be eligible schemes (as defined by the SFC) or authorised by the SFC, or non-eligible schemes and not authorised by the SFC (including exchange traded funds listed on stock exchanges in Mainland China) in accordance with all the applicable requirements of the Code.
