## **TRANSPONDER LEASE SERVICES**

In 2022 satellite transponder market conditions in the global and Asia Pacific region continued to be on the downturn. The demand growth for satellite broadcasting and satellite telecommunication business had been sluggish while the situation of oversupply has not been improved and satellite transponder bandwidth lease price still in a relatively significant decline trend. Changes in the market environment, COVID-19 pandemic still exist although the situation has improved, and the global chip shortage have led to the impact of terminal supply delays resulted in some business needs being postponed, delayed and cancelled, which had a greater impact on the transponder leasing business.

To cope with the difficult market conditions, the Group strives to overcome the difficulties brought about by the said issues and has been actively exploring new markets and businesses, and continued to enrich its service contents and varieties and intensified its market development efforts while providing high quality services to the customers. It has made remarkable progress in the Mainland China market and the Southeast Asia market, and fulfilled the positive growth in business volume.

With the Non-domestic Television Programme Service Licence, the Unified Carrier Licence, the satellite earth station facilities, data centre facilities and gateway stations facilities, the Group will continue to expand the scope of services and provide customers with services such as satellite TV broadcasting and transmission services, satellite telecommunication services, data centre services and gateway stations services.

## **BUSINESS PROSPECTS**

In 2023, the situations of oversupply and keen competition in the global and Asia Pacific region satellite transponder market will not be changed. Lower market price expectations, varying degrees of economic downturn and fiscal budget tightening in various regions, the appreciation of the US dollar and interest rate hikes, the shortage of foreign exchange in the countries where customers are located and the rising operating costs of customers have led to difficulties in customer payment which will continue to have a great impact on the market. The Group will face greater market expansion pressure for its transponder lease business. While expanding its traditional satellite capacity leasing business on APSTAR-5C, APSTAR-6C, APSTAR-7 and APSTAR-9 with great efforts, the Group will further expand its market and business on a larger scale, including the variety of businesses such as on-stop broadcasting services, satellite project management services, spectrum resources and satellite TT&C services as well as gateway operation services, etc. Meanwhile, the Group will continue to fully leverage its strengths of healthy financial position and sufficient capital and on the basis of completing the APSTAR-6E satellite project and the construction of satellite ground facilities in CHK Station to actively explore and increase investment in new satellite projects and emerging business areas, further enhance its competitiveness and service capabilities, expand its business areas and business scope, so as to maintain its stable and sustainable business development.

## **2 STATEMENT OF COMPLIANCE AND BASIS OF PREPARATION**

The consolidated results set out in this announcement do not constitute the consolidated financial statements of the Company and its subsidiaries (the “Group”) for the year ended 31 December 2022, but are extracted from those consolidated financial statements.

The consolidated financial statements have been prepared in accordance with all applicable International Financial Reporting Standards (“IFRSs”), which collective term includes all applicable individual International Financial Reporting Standards, International Accounting Standards (“IASs”) and Interpretations issued by the International Accounting Standards Board (“IASB”). As Hong Kong Financial Reporting Standards (“HKFRSs”), which collective term includes all applicable individual Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards (“HKASs”) and Interpretations issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) and accounting principles generally accepted in Hong Kong, are derived from and consistent with IFRSs, the consolidated financial statements also comply with HKFRSs. The consolidated financial statements also comply with the disclosure requirements of the Hong Kong Companies Ordinance and the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Listing Rules”).

## **3 CHANGES IN ACCOUNTING POLICIES**

The IASB/HKICPA has issued the following amendments to IFRSs/HKFRSs that are first effective for the current accounting period of the Group:

- Reference to the Conceptual Framework (Amendments to IFRS/HKFRS 3)
- Property, Plant and Equipment: Proceeds before Intended Use (Amendments to IAS/HKAS 16)
- Onerous Contracts – Cost of Fulfilling a Contract (Amendments to IAS/HKAS 37)
- Annual Improvements to IFRS Standards/HKFRSs 2018-2020 Cycle (Amendments to IFRS/HKFRS 1, IFRS/HKFRS 9, IFRS/HKFRS 16 and IAS/HKAS 41)

None of these developments have had a material effect on how the Group’s results and financial position for the current or prior periods have been prepared or presented in the Group’s consolidated financial statements. The Group has not applied any new or amended standard or interpretation that is not yet effective for the current accounting period.

#### 4 REVENUE

Disaggregation of revenue from contracts with customers by service line is as follows:

	2022 \$'000	2021 \$'000
Recognised overtime:

#### 5 SEGMENTAL REPORTING

##### Operating segments

The Group identifies operating segments and prepares segment information based on regular internal financial information reported to the executive directors for their decisions about resources allocation with respect to the Group's business components and for their review of the performance of those components. The business components in the internal financial information reported to the executive directors are determined following the Group's major operations. Since over 90% of the Group's revenue, operating results and assets during the years ended 31 December 2022 and 2021 were derived from the provision of satellite transponder capacity and related services, no other discrete financial information is provided to the executive directors for the purposes of resource allocation and assessment. Accordingly, only entity-wide disclosures, major customers and geographical information is presented.

Whilst the Group's customer base is diversified, it includes one customer with whom transaction has exceeded 10% of the Group's revenue (2021: one customer). For the year ended 31 December 2022, revenue of \$275,800,000 (2021: \$261,715,000) was derived from this customer and attributable to the provision of satellite transponder capacity and related services.

##### Geographical segments

The Group's non-current assets consist primarily of its satellites which are put into services for transmission to multiple locations, and are not based within a specific geographical location. Accordingly, no entity-wide analysis of the carrying amount of non-current assets by location of assets is presented.

The Group is domiciled in Hong Kong. Given the wide-area broadcasting nature of the Group's satellite operation, the satellite coverage information at individual country level may not always be readily available and the cost of obtaining such information could be excessive. Accordingly, the geographical revenue information is presented at regional level. The revenue derived from customers in (a) Hong Kong, (b) Greater China (which includes Mainland China, Taiwan and Macau but excludes Hong Kong), (c) Southeast Asia and (d) other regions for the year ended 31 December 2022 were \$93,016,000, \$429,698,000, \$323,243,000, and \$98,348,000 respectively (2021: \$91,455,000, \$424,504,000, \$291,442,000, and \$120,406,000 respectively).

Taxation outside Hong Kong includes profits tax and withholding taxes paid or payable in respect of the Group's income from the provision of satellite transponder capacity to customers who are located outside Hong Kong.

For one of the subsidiary, the first \$2 million of assessable profits are taxed at 8.25% and the remaining assessable profits are taxed at 16.5%. The provision for Hong Kong Profits Tax for this subsidiary was calculated at the same basis in 2021.

Cash flows beyond 2022 are extrapolated based on revenue from committed service agreements for the provision of satellite transponder capacity and projected at growth rates of 1% – 2% which are generally expected for the industry and achievable by the Group during the forecast period. The discount rate used for the cash flow projection is 20.09% (2021: 15.92%) which is pre-tax and reflects specific risks relating to the relevant cash-generating unit that the intangible asset belongs to.
