NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2022

1 GENERAL INFORMATION

The Company was incorporated in the Cayman Islands on 20 May 2014 as an exempted company with limited liability under the Companies Law (2013 Revision) of the Cayman Islands. The address of the Company's registered office is PO Box 309, Ugland House Grand Cayman, KY1-1104, Cayman Islands. The Company's shares have been listed on the Main Board of The Stock Exchange of Hong Kong Limited on 15 January 2015.

The Company is an investment holding company. The Group are principally engaged in the development and operations of out-of-home advertising media, including advertising in airports, metro lines, billboards and building solutions, mainly in Mainland China, Hong Kong, Macau and Southeast Asia.

2 BASIS OF PREPARATION

The consolidated financial statements of the Group have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and the disclosure requirements of the Hong Kong Companies Ordinance (Cap. 622). The consolidated financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets at fair value through other comprehensive income, financial assets at fair value through profit or loss, financial liabilities at fair value through profit or loss and investment properties, which are carried at fair values.

As at 31 December 2022, the Group's current liabilities exceeded its current assets by approximately RMB353,542,000. The net current liabilities was mainly attributable to recognition of lease liabilities of approximately RMB929,154,000 in current liabilities and approximately RMB1,173,285,000 in non-current liabilities respectively, while the associated right-of-use assets amounting to approximately RMB1,418,362,000 were recognised in non-current assets. For the year ended 31 December 2022, the Group recorded a net loss to equity owners as disclosed in the statement of comprehensive income. In view of such circumstances, the directors of the Company ("Directors") have given careful consideration of the future liquidity and operating performance of the Group and its available source of financing in assessing whether the Group will have sufficient financial resources to continue as a going concern. The Directors are of the opinion that the Group's available sources of funds, including the Group's expected net cash inflows from its operating activities and the continuous support from its banks, are sufficient to fulfil its financial obligations as and when they fall due in the coming twelve months from 31 December 2022. Accordingly, these consolidated financial statements have been prepared on a going concern basis.

The preparation of the consolidated financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements.

These consolidated financial statements are presented in Renminbi ("RMB") and all figures are rounded to the nearest thousand (RMB'000) unless otherwise stated.

(a) Amendments to standards, interpretation and accounting guideline adopted by the Group

The Group has applied the following amendments to existing standards, interpretation and accounting guideline for the first time for their financial year beginning on 1 January 2022:

Annual Improvements Project (Amendments)	Annual Improvements to HKFRSs 2018-2020
HKFRS 3 (Amendments)	Reference to the conceptual framework
HKAS 16 (Amendments)	Property, plant and equipment: Proceeds before intended use
HKAS 37 (Amendments)	Onerous contracts – Cost of fulfilling a contract
HKFRS 16 (Amendments)	Covid-19-Related Rent Concessions beyond 2021
Accounting Guideline 5 (Amendments)	Revised Accounting Guideline 5 Merger Accounting for Common Control Combinations

The amendments listed above did not have any impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods, except for the Amendment to HKFRS 16 set out above.

All of the COVID-19 related rent concessions amounted to approximately RMB146,438,000 (2021: RMB87,129,000) have been credited to the consolidated income statement within "administrative expenses or cost of revenue".

(b) New standards and amendments to existing standards, improvement, interpretation and accounting guideline that have been issued but are not effective and have not been early adopted by the Group

		Effective for accounting year beginning on or after
HKAS 1 and HKFRS Practice Statement 2 (Amendments)	Disclosure of Accounting Policies	1 January 2023

The above new standards, amendments to existing standards, improvement, interpretation and accounting guideline have been published that are not mandatory for the annual reporting periods commencing 1 January 2022 and have not been early adopted by the Group. These standards are not expected to have a material impact on the Group in the current or future reporting periods and on foreseeable future transactions.

3 CHANGES IN ACCOUNTING POLICIES

During the Year, the Group has changed its presentation currency from Hong Kong dollars (“HKD”) to RMB for the preparation of its consolidated financial statements. Having considered the principal activities of the Group are mainly conducted in Mainland China where the functional currency of those subsidiaries in Mainland China are denominated in RMB, the directors of the Company considered that the change would result in a more appropriate presentation of the Group’s transactions in these consolidated financial statements. The change in presentation currency have been applied retrospectively. The comparative figures in these consolidated financial statements were translated from HKD to RMB using the applicable closing rates for items in the consolidated statement of financial position and applicable average rates that approximated to actual rates for items in the consolidated statement of comprehensive income.

9 LOSS PER SHARE

(a) Basics

Basic loss per share is calculated by dividing the loss attributable to owners of the Company less the distribution of PSCS by the weighted average number of ordinary shares in issue during the Year.

	Year ended 31 December	
	2022	2021 (restated)
Loss attributable to owners of the Company (<i>RMB'000</i>)	(112,663)	(143,671)
Less: Distribution to PSCS (<i>RMB'000</i>)	<u>(10,479)</u>	<u>(6,430)</u>
	(123,142)	(150,101)
Weighted average number of ordinary shares in issue (<i>thousand shares</i>)	<u>468,518</u>	<u>468,737</u>
Loss per share (<i>RMB cents per share</i>)	<u>(26.3)</u>	<u>(32.0)</u>

(b) Diluted

Diluted loss per share is calculated by adjusting the weighted average number of ordinary shares outstanding by the assumption of the conversion of all potential dilutive ordinary shares arising from share options granted by the Company, Perpetual Subordinated Convertible Securities (“PSCS”) and equity-settlement in relation to the acquisition of 51% issued share capital of Radius Displays International Limited (“equity-settled liabilities”) (forming the denominator for computing diluted loss per share).

For the year ended 31 December 2022, the Group’s PSCS and equity-settled liabilities, could potentially dilute basic loss per share in the future, but were not included in the calculation of diluted loss per share because they are anti-dilutive for the Year (2021: the Group’s share options and PSCS could have dilutive effect on the calculation of diluted loss per share).

10 DIVIDENDS

At the meeting held on 27 March 2023, the Board does not recommend the payment of a final dividend for the Year (2021: Nil).

2 years to 3 years	29,650	17,287
Over 3 years	59,985	45,025
	625,718	611,284

(b) **Loss allowance of trade receivables**

The Group applies the HKFRS 9 simplified approach to measure expected credit losses which use a lifetime expected loss allowance for all trade receivables. The Group also continuously monitors the credit risks by assessing the credit quality of respective counterparties, taking into account its financial position, past experience and other factors.

The loss allowance increased by RMB26,303,000 (2021: RMB9,877,000) during the Year.

- (c) Other receivables mainly represent concession deposits paid to various media resources owners and amounts due from certain related parties. The carrying amounts of other receivables approximated the fair value as at 31 December 2022 and 2021.

Other receivables and deposits are measured as either 12-month expected credit losses or lifetime expected credit loss, depending on whether there has been a significant increase in credit risk since initial recognition. If a significant increase in credit risk of a receivable has occurred since initial recognition, impairment is measured as lifetime expected credit losses. The loss allowance of other receivables amounts to RMB4,047,000 (2021: RMB4,229,000).

- (d) The carrying amount of the Group's trade and other receivables excluded prepayments are denominated in the following currencies:

	As at 31 December	
	2022 RMB'000	2021 RMB'000 (restated)

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

In 2022, the global economic environment continued to be clouded by the novel coronavirus (“COVID-19” or “pandemic”), plus uncertainties such as rising geopolitical tensions, interest rate hikes and inflation. To cope with the complicated domestic and international situations, the Group adhered to its media network optimisation strategy, strived to maintain market leadership and pursue diversified development, with the hope of achieving synergies for its business. Moreover, the Group worked hard on promoting development of new technologies as changes in the market commanded.

For the year ended 31 December 2022 (the “Year”), continuing its commitment to driving business growth and improving operational performance, the Group recorded revenue of RMB1,653.2 million (2021: RMB1,895.0 million), and the combined revenue¹ was RMB2,338.7 million (2021: RMB2,622.7 million). Gross profit amounted to RMB269.2 million (2021: RMB358.1 million), with gross profit margin at 16.3%. Earnings before interest, taxes, depreciation and amortisation (EBITDA) totalled at RMB1,146.5 million (2021: RMB1,053.4 million). The Group managed to narrow loss by 25.9% to RMB89.7 million for the Year (2021: loss of RMB121.1 million), thanks to its resilient operation and swift response to challenges posed by the shrinking market.

During the Year, the Group continued to invest in digital-driven solutions, including its Outdoor and Online (“O&O”) New Media Strategy and Digital Out-of-Home (“DOOH”) media, and the combined DOOH Plus (“DOOH+”). The Group believed the approach can create greater value for advertisers, media resources owners and target audiences. At the same time, it continued to optimise its media network, via including relinquishing advertising supply with very narrow margins, while strategically seeking to regain resources with growth potential by adopting more appropriate cooperation models. For example, recognizing the opportunities of the key transportation hub, the Group regained the exclusive concession rights to use and operate the advertising resources of Hangzhou Metro Line 2 and Line 4, together with the Line 9, which was newly incorporated into the Group’s network, at a much more competitive price in 2023.

¹ Combined revenue includes the consolidated revenue of the Group and the total revenue of the Group’s associated companies engaged in the media business as an operating information.

As at 31 December 2022, the Group was in a healthy financial position with cash and cash equivalents and bank deposits amounting to RMB365.1 million (2021: RMB342.6 million). For the 9th consecutive year, the Group achieved net cash position, giving it a solid foundation for sustainable development.

Performance of Business Segments

Airports

Despite the travel restrictions imposed in Mainland China and Hong Kong during much of the Year, which inevitably affected performance of the segment, the Group continued to serve the need of advertisers and brands in many industries to expand influence and enhance brand image with tailored advertising solutions. However, such efforts were not enough to offset the impact from the lower air passenger throughput, thus revenue of the segment saw a 12.2% drop to RMB554.2 million (2021: RMB630.9 million), while gross profit of RMB170.4 million and gross profit margin at 30.7% were recorded (2021: RMB201.8 million and 32.0%).

In addition to actively enriching its customer base, the Group did its best to grasp emerging business opportunities amidst challenges. With presence at the Haikou Meilan International Airport and Qionghai Bo'ao Airport, which have been benefiting from the country's Hainan Free Trade Zone development strategy, the Group seized the opportunities bred by surging consumption in the region during the Year. Moreover, it optimised its airport media resources network to enhance internal control and improve operational efficiency. With COVID-19-related travel restrictions and testing requirements now being lifted, the Group's strategically-deployed media network are well-positioned to capitalise on market recovery.

Metro lines and billboards

Although the Hong Kong Government launched different measures during the Year to stimulate commercial activities, the metro lines and billboards segment was inevitably dragged down by the widespread impact of strict COVID-19 containment measures. Hindered by weakened travel desire and consumption sentiment, revenue of the segment decreased by 17.6% to RMB596.4 million (2021: RMB695.7 million), with gross profit of RMB32.2 million and gross profit margin at 5.4% (2021: RMB118.7 million and 17.1%).

During the Year, the Group continued to reinforce established partnership with top-tier advertisers and brands by providing them with consistently high-quality services and innovation-driven solutions. In Hong Kong, with the East Rail Line Cross-Harbour Extension, which includes stations in the central business district and areas for leisure and entertainment activities on Hong Kong Island, commencing service, and in Singapore, the 11 new stations along the popular Singapore Thomson-East Coast Line (TEL) opened connecting the vibrant city, the Group was able to extend exceptional Out-of-Home (“OOH”) advertising experience to passengers. Moreover, the Beijing Metro Line 17, which advertising and media resources are exclusively operated, managed, maintained and sold by the Group started contributing revenue. With its digitalised network covering the metro line full length, the Group continued to see its O&O new media strategy reaching wider and farther yet in Greater China. Regarding billboards operation, the Group doubled its effort to integrate the DOOH+ solution into digital billboards in prime locations across Hong Kong, so as to create value for advertisers and immersive experience for the target audiences.

Bus and others

The performance of bus media business was adversely affected by the lack lustre macro-environment, while others business, mainly operated by associated companies, had fewer project completed in the second half of the Year. As a result, the segment recorded revenue of RMB502.7 million (2021: RMB568.5 million), representing a 11.6% decrease year-on-year. Gross profit and gross profit margin of the segment are RMB66.6 million and 13.2%, respectively (2021: RMB37.5 million and 6.6%). With the market starting to return to normal, the Group has continued to identify potential projects, so as to ensure sustainable development of the segment.

O&O New Media Strategy Development

The Group firmly believes that only through constant pursuit of new technologies to match changes in the market can it deliver greater value to advertisers, brands, media resources owners and advertising audiences. A pioneering approach to O&O New Media Strategy and DOOH media enabled by digital technology, data analytics, and innovation, Asiaray’s DOOH+ solution promises to generate more engagement and thus support more effective advertising campaigns. During the Year, with the approach, the Group continued to offer campaigns empowered by digital intelligence and big data analytics to cater to market demand and also foster development of the industry.

In 2022, Asiaray continued to support recovery of the local economy by launching a wide spectrum of campaigns that combined innovative solutions and seamless offline-to-online experience. For example, it collaborated with a number of organisations in Hong Kong to launch a series of activities on its “Where We Wow” platform, aiming to attract visitors and drive consumption. In addition, by providing an interactive advertisement for travellers in TEL stations in Singapore, it chipped in to help the economy rebound while also seizing the opportunities from the rebound.

On the supply side, the Group, as a leading provider of OOH media services in Asia, spared no effort during the Year to activate for customers its outdoor advertising facilities programmatically via various platforms. On top of the solid partnership it has with several leading technology companies, including Hivestack, The Trade Desk, and Google, the Group secured several major customers during the Year, including Ominicom Media Group and Gojek. Affording greater flexibility, the pDOOH partnership has not only enabled the Group to broaden its customer base, but also showcase more relevant, data-driven, effective advertising solutions to audiences around the world and power the industry.

Prospect

Looking ahead at 2023, while pandemic-related impacts are receding, the operating conditions for the advertising industry may continue to be challenging due to looming geopolitical and economic uncertainties. Nevertheless, the Group remains cautiously optimistic about its business performance in the coming year as it believes, with an optimised media network, it will be able to promptly adopt various business models and accommodate customer demands particularly from emerging industries, and come up with industry-leading innovation-driven solutions for them.

The Group recognises the potential of the Mainland China and Hong Kong markets following the lifting of COVID-19 restrictions and border reopening. That plus the “China-chic” (guochao) trend gaining popularity in recent years, and the return of international exhibitions and business events, are going to create a strong demand for comprehensive nationwide advertising solutions. With thorough understanding of the Greater China region, shrewd insights of market trend and extensive advertising resources in major cities, the Group is well-positioned to seize the new opportunities when they arrive.

Apart from deepening the tightly-knitted relationship with advertisers, brands and media resources owners, as well as diversifying its customer base, the Group also places great importance on optimising internal control. It will continue to implement strategy that focuses on identifying and targeting key demographics and leveraging data analytics to better reach target audiences and allocate resources with precision. In addition, the Group carries out timely review of its media network with an eye on capturing more lucrative opportunities, as well as acquiring advertising resources with development potential through more competitive partnership. By remaining agile and responsive to evolving market conditions, Asiaray aims to maintain its prominent market position and ensure stable operation in the volatile market.

Although the economy has yet to gather strong recovery momentum, the Group remains confident of its financial resilience, overall competitiveness and capability to cope with changes in customer needs and their business models. By remaining nimble in adapting to diverse business models, embracing innovation and digitalisation, plus focusing on providing exceptional experiences to audiences and innovative advertising solutions to advertisers, brands and media resources owners, the Group believes it and its partners will be able to seize market opportunities together to achieve all-win, as well as create greater value for shareholders in the long run.

FINANCIAL REVIEW

Revenue

The revenue of the Group for the Year decreased from approximately RMB1,895.0 million to approximately RMB1,653.2 million, representing a year-on-year decreased by 12.8%. The decrease in revenue was attributed to the termination of airports and metro lines projects.

The metro and billboards segment revenue decreased by 14.3% from approximately RMB695.7 million in 2021 to approximately RMB596.4 million in 2022. The decrease in revenue is due to the termination projects such as Shenzhen metro lines, Kunming metro line and Hangzhou metro line.

The airports segment revenue decreased by 12.2% from approximately RMB630.9 million in 2021 to approximately RMB554.2 million in 2022. The decrease in revenue is due to the termination projects such as Chengdu airport, Xiamen airport and Xinjiang airport.

The bus and others segment revenue decreased by 11.6% from approximately RMB568.4 million in 2021 to approximately RMB502.6 million in 2022. The decrease in revenue is due to the revenue decreased in agency business in respect of sales of advertising spaces in media resources operated by associated companies.

Cost of Revenue

The cost of revenue decreased by approximately RMB152.8 million, or 9.9%, from approximately RMB1,536.9 million in 2021 to approximately RMB1,384.1 million in 2022. It decreased along with the revenue decrement.

Gross Profit and Gross Profit Margin

The gross profit in 2022 decreased by approximately RMB88.9 million, or 24.8%, from approximately RMB358.1 million in 2021 to approximately RMB269.2 million and the gross profit margin decreased from 18.9% in 2021 to 16.3% in 2022.

Selling and Marketing Expenses

The selling and marketing expenses slightly decreased by approximately RMB1.4 million, or 0.9%, from approximately RMB147.9 million in 2021 to approximately RMB149.3 million in 2022.

Administrative Expenses

The administrative expenses decreased by approximately RMB9.3 million, or 5.0%, from approximately RMB185.1 million in 2021 to approximately RMB175.8 million in 2022. The decrease in administrative expenses was mainly attributed to the decrease in sales-related incentives caused by COVID-19 Pandemic and rental payment. Since the landlord of Beijing office (i.e. Billion China International Limited) was acquired by the Group on 14 May 2021, the related rental payment for the Year were fully eliminated as inter-group transaction.

Finance Costs, net

Net finance cost decreased by approximately RMB38.2 million, or 15.6%, from approximately RMB244.4 million in 2021 to approximately RMB206.2 million in 2022. The decrease was primarily attributable to the decrease in interest expense recognized in accordance with HKFRS16. Since no new lease was entered during the period which fall within HKFRS16, the interest expenses on lease liabilities was expected to decrease year-by-year.

Share of net profit/(loss) of Investments accounted for using the equity method

The share of results of investments in associates increased by 1,736.4% from a share of net loss of approximately RMB1.1 million in 2021 to a share of net profit of approximately RMB18.0 million in 2022 due to some subsidiaries restructured to associated companies.

Income Tax (Expense)/Credit

Income tax (expense)/credit increased by 131.0% from an income tax credit of approximately RMB19.7 million in 2021 to an income tax expense of approximately RMB6.1 million in 2022.

Earnings before Interest, Tax, Depreciation and Amortisation (“EBITDA”)

The EBITDA of the Group increased by approximately RMB93.1 million, or 8.8%, from approximately RMB1,053.4 million in 2021 to approximately RMB1,146.5 million in 2022.

Loss attributable to owners of the Company

Loss attributable to owners of the Company decreased by approximately RMB31.0 million, or 21.6%, from approximately RMB143.7 million in 2021 to approximately RMB112.7 million in 2022. The loss was the net effect of the performance of the Group as fully explained in the above.

FINANCIAL MANAGEMENT AND TREASURY POLICY

The Group adopts a conservative approach for cash management and investment on funds. As the Group carries out business in the Mainland China and Hong Kong, most of our receipts and payments were denominated in Renminbi and Hong Kong dollars. As the conversion of Renminbi into foreign currencies is subject to the rules and regulations of foreign exchange control promulgated by the PRC government, the Directors consider that there is no significant exposure on the foreign exchange risk. The Group will closely monitor foreign exchange exposure and consider hedging significant exposure should the need arises.

Dividend Policy

The Company endeavours to maintain a balance between meeting shareholders' expectations and prudent capital management with a sustainable dividend policy. The Company adopts a dividend policy, which is based on the profit attributable to owners of the Company, and the distribution amount is up to 100% of the profit attributable to owners of the Company.

Liquidity and Financial Resources

The Group's cash and cash equivalents and restricted cash was approximately RMB365.1 million as at 31 December 2022, representing an increase of approximately RMB22.5 million compared with that as at 31 December 2021. As at 31 December 2022, the financial ratios of the Group were as follows:

	As at 31 December 2022	As at 31 December 2021
Current ratio ⁽¹⁾	0.77	0.75
Gearing ratio ⁽²⁾	Net cash	Net cash

Notes:

(1) Current ratio is calculated by dividing current assets by current liabilities.

(2) Gearing ratio is calculated by dividing net debt by total equity.

Borrowings

The Group had bank borrowings as at 31 December 2022 in the sum of approximately RMB323.8 million. Out of the total borrowings, approximately RMB146.4 million was repayable within one year, while approximately RMB177.4 million was repayable after one year. The carrying amounts of bank borrowings are denominated in Hong Kong dollars and Renminbi.

No financial instruments were used for hedging purposes, nor were there any foreign currency net investments hedged by current borrowings and/or other hedging instruments.

Exposure to Interest Rate Risk

The Group's interest rate risk arises from interest-bearing short-term bank deposits and bank borrowings. Short-term bank deposits and bank borrowings issued at variable rates expose the Group to cash flow interest rate risk. Bank borrowings at fixed rates expose the Group to fair value interest rate risk.

The Group's interest rate risks arise primarily from variable rates bank borrowings. The management manages interest rate risks and controls such risks within a reasonable level by closely tracking changes in the macroeconomic environment and monitoring changes in current and projected interest rates on a regular basis, taking into account conditions in the domestic and international markets.

Pledge of Assets

As at 31 December 2022, the Group did not pledge its buildings and land use rights (31 December 2021: carrying amount of approximately RMB18.5 million) to secure borrowings of the Group. The total secured borrowings as at 31 December 2022 amounted to nil (31 December 2021: approximately RMB0.8 million).
