## 2. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

### **(b) Basis of preparation of the unaudited condensed consolidated results**

The unaudited condensed consolidated results for the six months ended 30 June 2023 comprise the Company and its subsidiaries.

Items included in the unaudited condensed consolidated financial statements of each entity in the Group are measured using the currency that best reflects the economic substance of the underlying events and circumstances relevant to the entity (the “Functional Currency”). Except for share and per share information, the unaudited condensed consolidated financial statements are presented in Renminbi (“RMB”), rounded to the nearest thousands, which is the presentation currency.

The measurement basis used in the preparation of the unaudited condensed consolidated results is the historical cost basis.

The preparation of unaudited condensed consolidated financial statements in conformity with HKFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

#### ***Impact of local and international regulations***

The business operation of the Group is subject to government policies and relevant regulations and guidelines imposed by regulatory authorities. Failure to comply with the rules and requirements may lead to penalties, amendments or suspension of the Group's business operation by the authorities. The Group closely monitors changes in government policies, regulations and the market, and conducts research to assess the impact brought by these changes.

### ***Impact of the novel coronavirus (COVID-19) epidemic***

In spring of 2020, under the impact of the novel coronavirus disease (COVID-19) epidemic, industries in Mainland China postponed the resumption of work after the Chinese New Year holiday, and operations were only resumed in early March 2020. The impact of the COVID-19 epidemic has, to a certain extent, affected the development of Mainland China's real estate market in the year of 2020 and 2021, thus also triggering the slowdown of the development of the architectural glass industry. In the meanwhile, the PRC government has implemented a strong COVID-19 prevention and control policies. It was not until the fourth quarter of 2022 that the PRC government began to adjust its prevention and control policies and gradually relaxed controls nationwide. Thus, the risk factor of COVID-19 has been not significant.

### **Pledge of assets**

The property, plant and equipment of the Group are located in China.

As at 30 June 2023, property, plant and equipment with net book values of RMB87 thousand, (As at 31 December 2022: RMB87 thousand) were pledged as security to obtain bank loans of RMB37,200 thousand (As at 31 December 2022: RMB37,200 thousand).

Save as disclosed in this report, there are no significant events subsequent to 30 June 2023 which would materially affect the Group's operating and financial performance as of the date of the financial statements.

## MANAGEMENT DISCUSSION AND ANALYSIS

### Use of net proceeds from the share offer

The Company's shares were listed on the Stock Exchange on 13 January 2020 with a total of 75,000,000 offer shares issued and based on the final Offer Price of HK\$0.77 per Offer Share, the net proceeds raised from the global offering were approximately HK\$19.2 million (RMB17.1 million, exchange rate of HK\$ to RMB is 0.8919 on date of 13 January 2020). There was no change in the intended use of net proceeds as previously disclosed in the Prospectus. As at 30 June 2023, the net proceeds have been utilised as follows:

Use	Approximate% of total actual net proceeds	Adjusted use of net proceeds in the manner and proportion as stated in the Prospectus		Utilised net proceeds as at 30 June 2023	Unutilised net proceeds as at 30 June 2023
		HK\$'000	RMB'000	RMB'000	RMB'000
Upgrade the Group's existing production facilities	51.3%	9,800	8,741	8,741	–
Repay the Group's bank loan	10.8%	2,100	1,873	1,873	–
Enhance the Group's research and development capabilities	12.9%	2,500	2,230	2,230	–
Enhance the infrastructure of information technology, production safety and environmental protection in order to upgrade the Group's Xianqiao Plant and ERP system	14.4%	2,800	2,497	2,497	–
Expand the Group's sales and marketing coverage	5.6%	1,100	981	–	981
Provide funding for the Group's working capital and other general corporate purposes	5.6%	900	803	803	–

## MANAGEMENT DISCUSSION AND ANALYSIS

As at 30 June 2023, RMB0.981 million of the proceeds remain unutilized. The delay in the application of the net proceeds is due to novel coronavirus disease (COVID-19) epidemic, which postpones the implementation of the Company's plan of expanding the Group's sales and marketing coverage. It was not until the fourth quarter of 2022 that the PRC government began to adjust its prevention and control policies and gradually relaxed controls nationwide. Thus, the risk factor of COVID-19 has been not significant. Based on the best estimation of the future market conditions, the Company intends to apply the unutilised net proceeds at the beginning of year 2023 and expects unutilised net proceeds to be fully utilized on or before 31 December 2023.

### OUTLOOK AND PROSPECTS

The Group was listed on GEM of the Stock Exchange on 13 January 2020 (the “Listing Date”) and the fund raised from the listing laid a solid foundation for the future development of the Group.

The markets and technological advances in relation to coated glass have developed significantly in recent years, driven primarily by a series of building energy conservation policies and standards promulgated by the PRC Government such as the Guidance Opinion on the Development of Glass Industry in the 13th Five-Year Plan\* (《玻璃工業「十三五」發展指導意見》) issued by the China Architectural and Industrial Glass Association\* (中國建築玻璃與工業玻璃協會). According to HCR Co., Ltd. (北京慧辰資道資訊股份有限公司) (“HCR”), an independent market research firm commissioned by us in preparation for the listing, coated glass production volume in China is expected to increase at a CAGR of about 7.8% from 293 million m<sup>2</sup> in 2018 to 427 million m<sup>2</sup> in 2023. Coated glass, our primary energy-efficient safety glass product, is a type of energy-saving glass which is commonly used in the construction industry. We believe our specialisation in coated glass well positions us to capture the opportunities arising from the continual growth of the demand of coated glass in China.

With the strong demand for dimming glass in new buildings, HCR estimates that dimming glass production volume in China is expected to increase at a CAGR of 21.6% from 254,000 m<sup>2</sup> in 2018 to 675,000 m<sup>2</sup> in 2023 and there will also be an upward trend of a similar scale in dimming glass sales volume. We further leveraged our cumulative experience and technological know-how in the production of smart glass product. We believe that our business will benefit from increasing market demand for smart glass products in China.
