## ANNUAL REPORT

## **CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")**

**GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.**

**Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.**

*Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.*

*This report, for which the board (the "Board") of directors (the "Directors") of Yunhong Guixin Group Holdings Limited (the "Company") collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the GEM of the Stock Exchange (the "GEM Listing Rules") for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief the information contained in this report is accurate and complete in all material respects and not misleading or deceptive; there are no other matters the omission of which would make any statement herein or this report misleading.*

## CHAIRMAN'S STATEMENT

On behalf of the Board, I hereby present the results of the Company and its subsidiaries (collectively referred to as the "Group") for the year ended 31 December 2023 to the shareholders (the "Shareholders") of the Company.

### REVIEW

Looking back to 2023, the international environment remained complex and volatile, and the world economy continued to stagnate, while domestic economic development has shown signs of recovery, issues of imbalance and insufficiency still persisted. Consequently, the domestic industry continues to face a challenging environment. Influenced by external factors such as weakening market demand, geopolitical tensions, and significant exchange rate fluctuations, the fiberglass reinforced plastic ("FRP") industry is facing new challenges. The Company focuses on strategic development, actively promotes the upgrading of the business model, optimizes business strategy, strictly manages risk control, and maintains the resilience of business development.

While global demand for goods has rebounded rapidly since mid-2020 as the economy gradually recovers from the embargo, the shortage of maritime transportation capacity has been challenging to alleviate. As countries continue to impose restrictions on cross-border travel, along with the impact of the epidemic on the willingness to seek employment, international trade activities are currently experiencing a semi-paralyzed pattern of the transportation industry chain with a shortage of personnel, ships, and containers, coupled with inefficient loading and unloading at terminals. Consequently, freight rates have been continuously skyrocketing, exacerbating the loss of our overseas customers. In light of the numerous pressures and challenges posed by intensified market competition and the ever-changing domestic and international operating environment, the Group only achieved revenue of approximately RMB47.5 million for the year ended 31 December 2023, representing a decrease of approximately 23.7% compared to the corresponding period in 2022, and recorded a net loss of approximately RMB8.91 million for the year ended 31 December 2023.

### PROSPECTS

Looking ahead, the management and all staff of the Company will closely focus on the Company's annual business objectives, strengthen the upstream and downstream channel construction, consolidate the competitive advantages of the core categories, and continue to increase market share. Guided by marketing strategies and centered on economic benefits, we will proactively pursue new business opportunities, boost investments in research and development, enhance brand building, and strive to uphold the overall competitiveness of the Company's products in terms of cost, technology and quality. We take the initiative to adjust the business structure, guided by the system and assessment, to enhance the proportion of business with high resource profitability and the proportion of entity industry customers; strengthen joint ventures and cooperation with entity industry customers; and increase the layout of new energy, foundry sand, oil fracturing sand, and other emerging business areas. Also, we strengthen cooperation with the head of the new energy customers, to explore the upgrading of the business model.

## CHAIRMAN'S STATEMENT

### ACKNOWLEDGEMENT

On behalf of the Board, I would like to take this opportunity to thank the staff and management team of the Group for their hard work and dedication throughout the year. I would also like to express my sincere gratitude to all Shareholders for their long-term support.

# MANAGEMENT DISCUSSION AND ANALYSIS

## GENERAL OVERVIEW

The Group is an established and leading manufacturer in the People's Republic of China (the "PRC") engaged in the research and development, production and sale of a variety of FRP products. The Group's major products consist of: (i) FRP grating products; and (ii) epoxy wedge strip products.

FRP is widely applied in areas including the building and construction, electrical and telecommunications engineering. The product is characterized by its light weight, high strength, toughness, anti-slippery, anti-erosion, flame retardant, insulation and easy to colour as well as its artistic features. It also offers good and comprehensive economic benefits. As a result, FRP is widely applied in industries including petrochemical, electrical, marine engineering, plating, vessel, metallurgy, steel, papermaking, brewing and municipal industries. It is mainly used in operating platform, equipment platform, stair treads, trench covers, filter plates, etc., which indicates that FRP is an ideal component for corrosive environment.

Given that FRP delivers outstanding performance as a relatively new type of material and serves as a substitute for traditional materials such as wood, concrete and metal, along with the potential application of products made of FRP composites in a wide range of fields such as aerospace, energy and transportation industries, the management expects that the overall FRP market in China will grow at a steady pace in the coming years. The growth is anticipated due to the gradual maturity and better understanding of the FRP market.

The Group continues to enhance product recognition by improving production technology in order to maintain effective cost control and strengthen the competitiveness. The Board believes that research and development capabilities are essential to the future growth of the Group. The Group will further enhance its research and development capabilities by controlling material sourcing, purchasing new equipment and engaging professionals and technicians for research and development in order to offer more competitive and high-quality products.

Leveraging on market trend information gathered by the sales and marketing team and participation in drafting the PRC industry standards, the Group constantly keeps track of developments and trends in the FRP industry around the world. Over the past years, the Group has kept abreast of the PRC government's macroeconomic stimulus when carrying out the research and development works. Moreover, the Group adheres to the policy in promoting its products in countries along the "Belt and Road Initiatives". With all these efforts, the Group is hopeful that performance of the Group's FRP products would be further enhanced in the coming years.

## MANAGEMENT DISCUSSION AND ANALYSIS

It is generally believed that effective marketing is important in capturing the market share and attracting potential customers and as such, for the year ended 31 December 2023, the Group continued to undertake the following marketing activities:

- i. placing advertisements on the Internet such as an online trading platform Made-in-China.com (www.made-in-china.com), and entering into promotion agreements with online search engine service provider to attract new customers;
- ii. identifying suitable tender invitation mainly by online advertisements and industry periodicals; and
- iii. contacting existing customers regularly to enhance their knowledge on the Group's products and competitive advantages, to promote new products, to understand their specific needs, to obtain feedbacks on the products and to get a better understanding on the market trends.

With regard to the environmental aspect, the Group is committed to minimizing any negative impact on the environment that may be resulted from the production process. During the year ended 31 December 2023, the Group had no material non-compliance or violation of any relevant laws and regulations of the PRC on environmental protection.

With the extensive experience and market recognition of products that the Group has accumulated for more than a decade, as well as the expanding customer base, the Board is of the view that the Group is more well-positioned than other domestic enterprises in the industry to further develop and expand its markets and products in order to capture the moderate growth of the FRP grating products market in the future.

During the year ended 31 December 2023, the production site located in Inner Mongolia was still under construction and the progress is ongoing according to schedule. It is expected that the construction will be completed in the first half of 2024. With the development of domestic glass, building material, petroleum and silicon chemical industries in the PRC over the years, the demand of the silica sand materials in domestic market is growing continuously. The Group plans to commence the production and sales of industrial silica sand materials in the second half of 2024, which is expected to bring remarkable economic benefits to the Group.

# MANAGEMENT DISCUSSION AND ANALYSIS

## SALES PERFORMANCE

The Group recorded a consolidated revenue of approximately RMB47.5 million for the year ended 31 December 2023, representing a decrease of approximately RMB14.7 million or 23.7% compared to the year ended 31 December 2022. The decrease in revenue was mainly due to the decrease in sales of FRP grating products and epoxy wedge strip products. Additionally, sales for the domestic market decreased by approximately 24.7% from approximately RMB51.4 million for the year ended 31 December 2022 to approximately RMB38.7 million for the year ended 31 December 2023. The domestic market contributed approximately 81.3% of total sales for the year ended 31 December 2023, which represented a decrease of 1.2 percent points compared to approximately 82.5% for the year ended 31 December 2022.

Details of the Group's revenue and gross profit margin by product categories are as follows:

	For the year ended 31 December			
	2023		2022	
	Sales revenue RMB'000	Gross profit margin %	Sales revenue RMB'000	Gross profit margin %
FRP grating products	22,255	29.9	28,853	32.0
Phenolic grating products	–	–	21	29.5
Epoxy wedge strip products	25,291	11.2	33,413	19.1
	<u>47,546</u>	<u>20.0</u>	<u>62,287</u>	<u>25.1</u>

FRP grating products were mainly sold to corporate customers in the PRC who are generally end-users of such products, as well as to distributors in the United States of America ("U.S.") and the United Kingdom ("U.K.") who purchase the products on per order basis with no distribution arrangement. The revenue generated from sales of FRP grating products decreased by approximately RMB6.6 million or 22.9% from approximately RMB28.9 million for the year ended 31 December 2022 to approximately RMB22.3 million for the year ended 31 December 2023. The decrease was primarily due to the decrease in revenue generated from the overseas and domestic markets. The gross profit margin decreased by 2.1 percent points from 32.0% for the year ended 31 December 2022 to 29.9% for the year ended 31 December 2023, which was mainly attributable to the fact that the production fixed overhead cost per unit has increased during the year ended 31 December 2023.

## MANAGEMENT DISCUSSION AND ANALYSIS

Epoxy wedge strip products were developed and targeted for manufacturers of wind turbine blades in the PRC. The revenue generated from sales of epoxy wedge strip products decreased by approximately RMB8.1 million from approximately RMB33.4 million for the year ended 31 December 2022 to approximately RMB25.3 million for the year ended 31 December 2023. The decrease was mainly due to receiving fewer construction contracts from manufacturers of wind turbine blades in the PRC during the year ended 31 December 2023, resulting in fewer sales order made to the Group by those manufacturers in the current year. The gross profit margin decreased by approximately 7.9 percent points from approximately 19.1% for the year ended 31 December 2022 to approximately 11.2% for the year ended 31 December 2023. The decrease in gross profit margin was attributable to the decrease in selling price, influenced by the economic downturn and the competitive fiberglass market, and the increase of production fixed overhead cost per unit during the year ended 31 December 2023.

Details of the average selling price and the sales volume by major product categories are as follows:

	For the year ended 31 December			
	2023		2022	
	Average selling price per unit RMB	Volume	Average selling price per unit RMB	Volume
FRP grating products	<b>386.3</b>	<b>57,617 m<sup>2</sup></b>	405.8	71,094 m <sup>2</sup>
Phenolic grating products	–	–	824.7	25 m <sup>2</sup>
Epoxy wedge strip products	<b>51.7</b>	<b>489,239 m</b>	55.5	601,804 m

The average selling price of the FRP grating products per square meter decreased by approximately RMB19.5 per square meter or approximately 4.8% from RMB405.8 per square meter for the year ended 31 December 2022 to RMB386.3 per square meter for the year ended 31 December 2023, in addition to a decrease in sales volume of approximately 19.0% between the two years. The decrease in average selling price was mainly due to the decrease in selling price of FRP grating products, in order to maintain the competitiveness within the industry.

The average selling price of the epoxy wedge strip products per meter decreased by approximately RMB3.8 per meter from RMB55.5 per meter for the year ended 31 December 2022 to RMB51.7 per meter for the year ended 31 December 2023, with a decrease in sales volume of approximately 18.7% between the two years. The decrease in average selling price, same as the above, was mainly due to the decrease in selling price of epoxy wedge strip products, in order to maintain the competitiveness within the industry.

## MANAGEMENT DISCUSSION AND ANALYSIS

Details of the Group's sales revenue by geographical area are as follows:

	For the year ended	
	31 December	
	2023	2022
	RMB'000	RMB'000
The PRC (excluding Hong Kong) (place of domicile)	<b>38,658</b>	51,366
U.S.	<b>454</b>	2,470
U.K.	<b>6,455</b>	7,102
Others	<b>1,979</b>	1,349
Total	<b><u>47,546</u></b>	<b><u>62,287</u></b>

Sales to the PRC market decreased by approximately 24.7% from approximately RMB51.4 million for the year ended 31 December 2022 to approximately RMB38.7 million for the year ended 31 December 2023. The decrease was mainly attributable to the reduction in sales of epoxy wedge strip products during the year ended 31 December 2023.

Sales to the U.S. market decreased by approximately 81.6% from approximately RMB2.5 million for the year ended 31 December 2022 to approximately RMB0.5 million for the year ended 31 December 2023. The decrease was mainly due to the higher import tariffs imposed by the U.S. government, which suppressed the demands for the Group's products in the U.S. market.

Sales to the U.K. market decreased by approximately 9.1% from approximately RMB7.1 million for the year ended 31 December 2022 to approximately RMB6.5 million for the year ended 31 December 2023. The decrease was mainly due to the decrease in sales orders from the major customers in the U.K. market resulting from the adverse impact of the global economy downturn.

### OPERATING COSTS AND EXPENSES

Distribution costs decreased by approximately RMB0.1 million or 5.3% from approximately RMB2.1 million for the year ended 31 December 2022 to approximately RMB2.0 million for the year ended 31 December 2023.

Administrative expenses decreased by approximately RMB0.9 million or 8.1% from approximately RMB10.8 million for the year ended 31 December 2022 to approximately RMB10.0 million for the year ended 31 December 2023. The decrease was mainly attributable to the reduction in staff costs and a decrease in research and development expenses for the year ended 31 December 2023.

# MANAGEMENT DISCUSSION AND ANALYSIS

## OPERATING RESULTS

The Group recorded a net loss of approximately RMB8.9 million for the year ended 31 December 2023, decreased by RMB11.5 million from net profits of approximately RMB2.6 million for the year ended 31 December 2022.

## LIQUIDITY AND FINANCIAL RESOURCES

The Group financed its operations primarily through cash generated from operating activities. As at 31 December 2023, the Group did not have any bank borrowings (2022: Nil).

## CONTINGENT LIABILITIES

As at 31 December 2023, the Group had no contingent liabilities (2022: Nil).

## EXPOSURE TO FLUCTUATIONS IN EXCHANGE RATES

The Group is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the U.S. foreign exchange risk arose from future commercial transactions, recognised assets and liabilities which are denominated in non-RMB. The management of the Group has set up a policy to require the Group companies to manage their foreign exchange risk against their functional currency. The Group companies are required to control the exposure of the foreign exchange risk during the business operation. The exposure of foreign exchange risk is mainly due to the purchase of the equipment from other countries and the management controls on the payment schedule to reduce the foreign exchange risk. Save for certain accounts receivables in U.S., the impact of foreign exchange risk on the Group was minimal and there was no significant adverse effect on normal operations. During the year ended 31 December 2023, the Group did not commit to any financial instruments to hedge its exposure to foreign exchange risk. However, the management of the Group monitors foreign exchange exposure of the Group and will consider hedging significant foreign currency exposure should the need arise.

## CHARGES ON GROUP ASSETS

As at 31 December 2023, an aggregate amount of RMB1,819,000 was placed in a bank account and pledged in favour of banks for bill issuance (2022: the Group did not pledge any of its assets).

## CAPITAL STRUCTURE

As at 31 December 2023, the share capital and total equity attributable to equity holders of the Company amounted to approximately RMB3,600,000 (2022: RMB3,600,000) and RMB61,951,000 (2022: RMB70,861,000) respectively.

# MANAGEMENT DISCUSSION AND ANALYSIS

## EMPLOYEES AND REMUNERATION POLICIES

As at 31 December 2023, the Group had 60 employees (2022: 65). The total staff costs including Directors' remuneration for the year were approximately RMB8.8 million (2022: approximately RMB10.9 million). Remuneration is determined based on each employee's qualifications, position and seniority. In addition to a basic salary, year-end discretionary bonuses were offered with reference to our Group's performance as well as individual's performance to attract and retain appropriate and suitable personnel to serve the Group. Furthermore, the Group offers other staff benefits like provision of retirement benefits, various types of trainings and sponsorship of training courses. The Group also adopts an annual review system to assess the performance of staff, which forms the basis of decisions with respect to salary rises and promotions.

## DIVIDEND

The Board does not recommend the payment of any dividend for the year ended 31 December 2023 (2022: Nil).

## SIGNIFICANT INVESTMENT, ACQUISITION AND DISPOSAL

There were no significant investments held, acquisitions or disposals of subsidiaries and affiliated companies by the Group during the year ended 31 December 2023.

The Group did not have other plans for significant investments, acquisitions and disposal of subsidiaries and affiliated companies as at 31 December 2023.

## EVENT AFTER THE REPORTING PERIOD

The trading of the Company's shares on the GEM of the Stock Exchange was suspended from 3 April 2023. As the Company has fulfilled all the resumption guidance set out by the Stock Exchange on 27 June 2023, trading of the Company's shares was resumed on 18 March 2024. Details of the resumption guidance set out by the Stock Exchange and resumption of trading are set out in the Company's announcements dated 30 June 2023 and 15 March 2024, respectively.

# CORPORATE GOVERNANCE REPORT

## CORPORATE GOVERNANCE PRACTICES

The Group is committed to maintaining high standards of corporate governance to safeguard the interests of the Shareholders and to enhance corporate value and accountability. The Company has adopted the Corporate Governance Code (the “CG Code”) as set out in Appendix C1 to the GEM Listing Rules as its own code of corporate governance.

Throughout the year ended 31 December 2023, the Company has complied with all the applicable code provisions set out in the CG Code as set out in Appendix C1 to the GEM Listing Rules.

## BOARD OF DIRECTORS

The key responsibilities of the Board include formulation of the Group’s overall strategies, the setting of management targets and supervision of management performance. The management is delegated with the authority and responsibility by the Board for the management and administration of the Group. In addition, the Board has also delegated various responsibilities to the Board committees of the Company. Further details of the Board committees of the Company are set out below in this report.

The Board is entrusted with the overall responsibility for promoting the success of the Company by the direction and supervision of the Company’s business and affairs and the ultimate responsibility for day to day management of the Company which is delegated to the management. To this end, monthly financial and operational information are provided to the Board for assessing the performance of the Company and its subsidiaries. For significant matters that are specifically delegated by the Board, the management must report back to and obtain prior approval from the Board before making decisions or entering into any commitments on behalf of the Company.

The Board is responsible for, among others, performing the corporate governance duties as set out in the code provision A.2.1 of the CG Code, which include:

- (a) to develop and review the Group’s policies and practices on corporate governance and make recommendations;
- (b) to review and monitor the training and continuous professional development of the Directors and senior management;
- (c) to review and monitor the Group’s policies and practices on compliance with legal and regulatory requirements;
- (d) to develop, review and monitor the code of conduct and compliance manual applicable to the Directors and employees; and
- (e) to review the Group’s compliance with the CG Code and disclosure in the corporate governance report.

## CORPORATE GOVERNANCE REPORT

The Board currently comprises six Directors, of whom three are executive Directors and three are independent non-executive Directors. Two independent non-executive Directors have the appropriate professional accounting qualifications or related financial management experience and expertise. Each of the executive Directors and independent non-executive Directors has entered into a service agreement with the Company for a term of three and two years respectively until terminated by either the Company or the executive/independent non-executive Director giving each other a two months' notice in writing in accordance with the terms of the agreement.

In accordance with article 108(a) of the articles of association of the Company, at each annual general meeting, at least one-third of the Directors for the time being, or, if their number is not three or a multiple of three, then the number nearest to but not less than one-third, shall retire from office by rotation provided that every Director shall be subject to retirement at an annual general meeting at least once every three years. The last annual general meeting of the Company was held on 9 June 2022 and the Company had not convened any annual general meeting since the suspension of trading in the Company's shares on the Stock Exchange on 3 April 2023. Accordingly, Mr. Li Yubao, Ms. Zhang Yaping, Ms. Shi Dongying and Mr. Lee Man Tai will retire from office by rotation at the forthcoming annual general meeting of the Company, and being eligible, offer themselves for re-election.

The participation of independent non-executive Directors in the Board brings a diverse range of expertise, skills and independent judgment on issues relating to the Group's strategies, performance, conflicts of interests and management process to ensure that the interests of all Shareholders have been duly considered. The Board considers that all the independent non-executive Directors are independent and each of the independent non-executive Directors has confirmed in writing his independence to the Company pursuant to Rule 5.09 of the GEM Listing Rules.

The Board has established mechanism to ensure independent views and input are available to the Board. The current composition of the Board has a strong independence element and provides sufficient balance of skills, experience and diversity of perspectives in leading the Company to achieve its goal. The independent non-executive Directors also provide independent judgment in the Board's overall decision making process. The Board has reviewed the implementation and effectiveness of the board independence mechanism for the year ended 31 December 2023 and considered it to be effective.

There is a balance of skills and experience for the Board, which is appropriate for the requirements of the business of the Company. The Directors' biographical information is set out in the section headed "Biographical Details of Directors and Senior Management" of this annual report.

## BOARD DIVERSITY POLICY

Pursuant to Rule 17.104 of the GEM Listing Rules, listed issuers are required to adopt a board diversity policy. The Board has adopted the board diversity policy with a view to achieve a sustainable and balanced development of the Group. In designing the Board's composition, board diversity has been considered from various aspects, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service. All appointments to the Board will be based on meritocracy, and candidates will be considered against objective criteria, having due regard for the benefits of diversity on the Board. The Company will continue to take steps to promote gender diversity at all levels, including but not limited to the Board and senior management levels, by taking into account gender diversity factors in the recruitment process, and to develop a pipeline of female mid to senior level management so as to develop a pipeline of potential successors to the Board. This diversity policy is reviewed annually by the Nomination Committee, and where appropriate, revisions will be made with the approval from the Board.

During the year ended 31 December 2023 and as at the date of this annual report, the Board comprises six Directors, of whom four are male and two are female. The Board has reviewed the implementation and effectiveness of the board diversity policy of the Company for the year ended 31 December 2023 and considered it to be effective.

## NOMINATION POLICY

The Board has adopted a director nomination policy (the "Nomination Policy") on 31 December 2018 in relation to the nomination, appointment, re-appointment of new Directors and the nomination procedure of the Company, which provides that in evaluating and selecting any candidate for directorship, the Nomination Committee shall consider the candidates' character and integrity, professional qualifications, skills, knowledge and experience, independence, diversity on the Board, willingness to devote adequate time to discharge duties as a Board member and such other criteria that are appropriate to the business of the Company.

## DIVIDEND POLICY

The Board has adopted a dividend policy (the "Dividend Policy") on 31 December 2018. A summary of the Dividend Policy is disclosed as below.

Subject to the approval of the Shareholders and requirement of the relevant law, the Company shall pay annual dividends to the Shareholders if the Group is profitable, operations environment is stable and there is no significant investment or commitment made by the Group, after taking into account the factors as detailed below and determined by the Board from time to time. The remaining net profits will be used for the Group's development and operations. The Dividend Policy allows the Company to declare special dividends from time to time in addition to the annual dividends.

## CORPORATE GOVERNANCE REPORT

In proposing any dividend payout, the Board shall also take into account, inter alia, (i) the Company's actual and expected financial performance; (ii) retained earnings and distributable reserves of the Group; (iii) the level of the Group's debts to equity ratio, return on equity and the relevant financial covenants; and (iv) the general economic conditions, business cycle of the Group's business and other internal and external factors that may have an impact on the business or financial performance and position of the Company.

Any final dividends declared by the Company must be approved by an ordinary resolution of Shareholders at an annual general meeting and must not exceed the amount recommended by the Board. The Dividend Policy shall be reviewed periodically and submitted to the Board for approval if amendments are required.

### CONTINUOUS PROFESSIONAL DEVELOPMENT

The Group acknowledges the importance of continuing professional development for the Directors for the enhancement of corporate governance and internal control systems. The Directors are kept informed from time to time on the latest development of any changes to the regulatory requirements and the progress of compliance of applicable rules and regulations by the Company. The Directors will also be updated from time to time on the business development and operation plans of the Company. All Directors are encouraged to participate in continuing professional development seminars and/or courses to update their skills and knowledge on the latest development or changes in the relevant statutes, GEM Listing Rules and corporate governance practices.

Throughout the year ended 31 December 2023, the continuous professional development in the form of materials reading or participation in webcast taken by respective Directors are as follows:

## DIRECTORS' SECURITIES TRANSACTIONS

The Company has adopted the required standard of dealings set out in Rules 5.48 to 5.67 of the GEM Listing Rules as the code of conduct regarding Directors' dealing in securities of the Company. All Directors confirmed that they complied with the required standard of dealings as set out in the Rules 5.48 to 5.67 of the GEM Listing Rules throughout the year ended 31 December 2023. Moreover, the Company was not aware of any non-compliance with the required standard as set out in the code of conduct regarding securities transactions by the Directors up to the date of this report.

## RISK MANAGEMENT AND INTERNAL CONTROL

The Board has overall responsibilities for establishing and maintaining appropriate and effective risk management and internal control systems of the Group. The Group's systems of risk management internal control include a defined management structure with limits of authority, which are designed to help achieve business objectives, safeguard assets against unauthorized use or disposition, ensure the maintenance of proper accounting records for the provision of reliable financial information for internal use or for publication, and ensure compliance with relevant legislation and regulations. The systems are designed to provide reasonable, but not absolute, assurance against material misstatement or loss and to manage rather than eliminate risks of failure in operational systems and achievement of the Group's objectives.

An organisational structure with operating policies and procedures, lines of responsibility and delegated authority has been established. The division/department head of the Group is accountable for the conduct and performance of such segment within the agreed strategies, which are set by themselves and the Board together, and reports directly to the Board.

In the course of conducting the business of the Group, it is exposed to various types of risks, including business risks, financial risks, operation and other risks. The Board is ultimately responsible for the risk management of the Group and it has delegated to executive management to carry out the risk identification and monitoring procedures. The objectives of the risk management are to enhance the governance and corporate management processes as well as to safeguard the Group against unacceptable levels of risks and losses.

## CORPORATE GOVERNANCE REPORT

The risk management process of the Group involves, among others, (i) an annual risk identification and analysis exercise which involves assessment of the consequence and likelihood of risks and the development of risk management plans for mitigating such risks; and (ii) an annual review of the implementation of the risk management plans and fine tuning of the implementation plan when necessary.

Although the Group does not maintain an internal audit function, the Board has overall responsibility for the system of internal control and for reviewing its effectiveness. Throughout the year ended 31 December 2023, the Group complied with the code provisions on internal control and risk management. In particular, the Group appointed an independent internal control consultant (the “IC Consultant”) to carry out a review of the implemented systems and procedures, including areas covering financial, operational and legal compliance controls and risk management functions for the year ended 31 December 2023. The IC Consultant has reported findings and areas for improvement to the Audit Committee and management. The Board and the Audit Committee are of the view that there are no material internal control defeats noted. All recommendations from the IC Consultant are properly followed up by our Group to ensure that they are implemented within a reasonable period of time. The Board therefore considered that the risk management and the internal control systems for the year ended 31 December 2023 are effective and adequate.

The Group complies with the requirements of Securities and Futures Ordinance (the “SFO”) and the GEM Listing Rules. The Group discloses inside information to the public as soon as reasonably practicable unless the information falls within any of the safe harbours as provided in the SFO. Before the information is fully disclosed to the public, the Group ensures the information is kept strictly confidential. If the Group believes that the necessary degree of confidentiality cannot be maintained or that confidentiality may have been breached, the Group would immediately disclose the information to the public. The Group is committed to ensuring that the information contained in announcements are not false or misleading through presentation of information in a clear and fair manner.

### ANTI-CORRUPTION POLICY AND WHISTLEBLOWING POLICY

The Group takes a zero-tolerance approach to corruption and bribery and is committed to acting professionally, fairly and with integrity in all our business dealings. The staff manual provides guidance on employees’ behaviours, for example the acceptance of gifts and conflict of interests, to further enhance the awareness of employees. The Group has adopted an anti-corruption policy to promote and support anti-corruption laws and regulations.

For the year ended 31 December 2023, the Group was not aware of any cases of non-compliance with laws and regulations that had a significant impact on the Group in relation to bribery, extortion, fraud, and money laundering.

The Group has adopted a whistleblowing policy to encourage and assist whistle-blowers to disclose information relevant to suspected misconduct, malpractice or irregularity through a confidential reporting channel. The Company will handle the report with care and will treat the whistle-blower’s concerns fairly and properly.

# CORPORATE GOVERNANCE REPORT

## INVESTOR RELATIONS

The Board puts great emphasis on investor relationship in particular fair disclosure and comprehensive report of the Company's performance and activities.

Shareholders are encouraged to attend the general meetings of the Company and the Directors always make efforts to fully address any questions raised by the Shareholders at the annual general meetings (the "AGM") and the extraordinary general meetings (the "EGM") of the Company. In addition, the Shareholders have the right to nominate a person to stand for election as a Director at any general meeting by lodging a written notice to the Company.

## PROCEDURES FOR SHAREHOLDERS TO CONVENE AN EGM AND TO PUT FORWARD PROPOSALS AT SHAREHOLDERS' MEETINGS

The Shareholders may put forward proposals at general meetings by requisitioning an EGM. Pursuant to article 64 of the articles of association of the Company, EGM may be convened by the Board on the requisition of one or more Shareholders holding, at the date of deposit of the requisition, not less than one tenth of the paid up capital of the Company having the right of voting at general meetings. Such requisition shall be made in writing to the Board or the Company Secretary for the purpose of requiring an EGM to be called by the Board for the transaction of any business specified in such requisition. Such meeting shall be held within two months after the deposit of such requisition. If within 21 days of such deposit, the Board fails to proceed to convene such meeting, the requisitionist(s) himself/herself (themselves) may do so in the same manner, and all reasonable expenses incurred by the requisitionist(s) as a result of the failure of the Board shall be reimbursed to the requisitionist(s) by the Company.

## PROCEDURES FOR DIRECTING SHAREHOLDERS' ENQUIRIES TO THE BOARD

The Shareholders may at any time send their enquiries and concerns to the Board in writing. Contact details are as follows:

Address: Room 1603, 16/F China Building  
29 Queen's Road Central, Central, Hong Kong  
Tel: 2543 0633  
Fax: 2543 9996  
E-mail: info@nantongrate.com.cn

Shareholders' enquiries and concerns will be forwarded to the Board and/or relevant Board committees of the Company, where appropriate, to answer the Shareholders' questions.

# CORPORATE GOVERNANCE REPORT

## COMMUNICATION WITH SHAREHOLDERS

On 13 January 2017, the Board adopted a Shareholders' communication policy reflecting mostly the current practices of the Company for communication with the Shareholders. Such policy aims to set out the provisions with the objective of ensuring that the Shareholders, both individual and institutional, and, in appropriate circumstances, the investment community at large, are provided with ready, equal and timely access to balanced and understandable information about the Company (including its financial performance, strategic goals and plans, material developments, governance and risk profile), in order to enable the Shareholders to exercise their rights in an informed manner, and to allow the Shareholders and the investment community to engage actively with the Company. The Company has established a number of channels for maintaining on-going dialogue with the Shareholders as follows:

- (a) corporate communications such as annual reports, interim reports and circulars are issued in printed form and are available on the respective websites of the Stock Exchange and the Company;
- (b) periodic announcements are made through the Stock Exchange and published on the respective websites of the Stock Exchange and the Company;
- (c) corporate information is made available on the Company's website;
- (d) AGM and EGM provide a forum for the Shareholders to make comments and exchange views with the Directors and senior management; and
- (e) the Company's share registrar serves the Shareholders in respect of share registration, dividend payment, change of Shareholders' particulars and related matters.

The Company reviewed the implementation and effectiveness of the Shareholders' communication policy for the year ended 31 December 2023 and considered it to be effective.

## CONSTITUTIONAL DOCUMENTS

During the year ended 31 December 2023, there was no change in the memorandum and articles of association of the Company.

# ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

## ABOUT THIS REPORT

The objective of this Environmental, Social and Governance (“ESG”) Report (the “Report”) is to highlight the Group’s ESG performance for the purpose of assisting all stakeholders in understanding the Group’s ESG concepts and practices in achieving sustainable development for the future.

Unless otherwise stated, this ESG Report includes all business operations during the period from 1 January 2023 to 31 December 2023 (the “Reporting Period”). These relate to the overall performance, risks, strategies, measures and commitments of four aspects: quality of the working environment, environmental protection, operating practices and community participation.

## REPORTING STANDARD

The Report complies with the disclosure requirements set out in the ESG Reporting Guide as described in Appendix C2 to the GEM Listing Rules. An assessment of the applicability and materiality of the relevant key performance indicators (“KPIs”) under the ESG Reporting Guide was conducted.

## REPORTING PRINCIPLES

The following principles are adopted in the Report:

- **Materiality:** Important and relevant information to stakeholders on different ESG aspects are covered in the Report. A materiality assessment was conducted to determine material ESG issues with results approved by the Board.
- **Quantification:** The relevant standards, methodologies and assumptions used to prepare the quantitative information are disclosed, as appropriate. Quantitative information is provided with narrative and comparative figures, where possible.
- **Consistency:** Consistent methodologies are used to prepare and present ESG data in the Report, unless otherwise specified, to allow for meaningful comparisons.
- **Balance:** The information is presented without the inappropriate use of selections, omissions or other forms of manipulation that would influence a decision or judgment by the reader.

## GOVERNANCE ON ESG ASPECTS

The Board has overall responsibility for the Group's ESG strategy and reporting. The Board is responsible for evaluating and determining the Group's ESG-related risks, and ensuring that appropriate and effective ESG risk management and internal control systems are in place. Our management has delegated the responsibility of coordinating the implementation of the Group's environment, employment and service quality assurance policies.

The Board leads and provides direction to management by instituting ESG policies and initiatives, supervising their implementation and monitoring ESG performance. The Board reviews ESG affairs regularly, including environmental protection, employment and labour practices, operating practices, and community investment, and implements appropriate measures to enhance the ESG performance of the Group. The Board continues to explore ways to strengthen the ESG governance of the Group further.

## STAKEHOLDERS' FEEDBACK

As the Group strives for excellence, stakeholders' feedback is appreciated, especially on topics listed as of the highest importance in the materiality assessment and its ESG approach and performance. Please give your suggestions or share your views with us at [info@yunhongkg.com](mailto:info@yunhongkg.com).

## STAKEHOLDER ENGAGEMENT

The Group actively engages with stakeholders to identify ESG issues that need to be addressed. Stakeholder engagement is the process by which an organization involves parties who may be affected by the decision it makes or can influence the implementation of its decisions. The management performed the following:

- generated a full and complete list of stakeholders by consulting various departments within the Group;
- relied on the ongoing communication channels and day-to-day interactions and dedicated meetings (where ever deemed necessary) to engage these stakeholders; and
- reduced the list of stakeholders into a workable size, and complete the Stakeholder Influence – Dependency Matrix to work out a list of key stakeholders.

## MATERIALITY ASSESSMENT

Given its role as an integrated manufacturing services supplier and one-stop customer solution provider, the Group interacts with a variety of stakeholders, including employees, customers, regulators, suppliers, shareholders, and local communities, through staff meetings, customer service channels, annual general meetings, community services etc. regularly. The Group has been maintaining an open and transparent dialogue with stakeholders, which is started by understanding their expectations and views on what ESG issues they think matter most and how the Group should be expected to handle such important ESG issues. This helps gauge the expectations of the Group’s key stakeholders and collect feedback to guide the Group in formulating and strategizing its ESG management.

During the Reporting Period, the Group evaluated several environmental, social and operating items, and assessed their importance to stakeholders and the Group through various channels. This assessment helps to ensure that the Group’s business objectives and development direction satisfy the stakeholders’ expectations and requirements. The Group’s and stakeholders’ matters of concern are listed in the following materiality matrix:

# ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

## ENVIRONMENTAL

The Group is aware of the effect of environmental performance on the business, especially for daily operational challenges regarding greenhouse gas emission reduction, energy conservation and waste management. During the manufacturing process, the Group would consume electricity for lighting the manufacturing operation and powering the equipment and machinery. Carbon dioxide or greenhouse gas would be indirectly produced when the Group consumes electricity.

### Emissions

#### *Air and greenhouse gas emissions*

The Group understands that air and greenhouse gas emissions are closely related to climate change and global warming; hence, we are committed to minimizing environmental impacts through responsible environmental management. To reduce the pollutants emitted to the environment, various air emission reduction facilities and measures are implemented:

- The manufacturing base has been designed to have more windows for more natural light and use less electronic light;
- Replacement of environmentally friendly machines and equipment;
- The manufacturing base has a single-storey building with a higher roof to increase the space and reduce the use of fans or air-conditioners;
- The office light and office equipment would be turned off during the luncheon rest time; and
- The warehouse which stores dangerous goods would always be locked, and lights are switched off when the warehouse is closed.

## ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

	Unit	2023	2022
<b>Air emissions</b>			
Nitrogen oxides	g	11,624	5,713
Sulphur oxides	g	239	100
Respiratory suspended particles	g	856	421
<b>Greenhouse gas emissions</b>			
Scope 1 – petrol consumption	Tonne	38	18
Scope 2 – electricity consumption	Tonne	2,479	2,148
Total emissions	Tonne	2,517	2,166
Emission intensity	Tonne per million dollars of revenue	<u>52.9</u>	<u>34.8</u>

### *Emission of Volatile Organic Compounds (“VOCs”)*

FRP is a material that is produced by a mix of several raw materials, including glass fibre, resins and other chemical materials. During the manufacturing process, the Group would also release VOCs that emit from (i) styrene – a volatile component of polyester resin and gel coat; and (ii) acetone – a solvent used for cleaning tools and other surfaces contaminated with resin. Since the emission of VOCs is harmful to the environment, the Group has implemented the following measures to mitigate the harmful effect:

- Maintain an active carbon absorption system in specific manufacturing processes to absorb the emission of VOCs;
- The manufacturing base has a single-storey building with a higher roof to increase the space for diluting the emission of VOCs into the air;
- Install a number of industrial fans in certain manufacturing processes to improve the air quality of the manufacturing base; and
- The major VOCs emission source of the Group comes from the colouring process. Staff is not allowed to enter the coating room during the natural drying procedure of colour coating to avoid excessive inhalation of volatile gases.

## ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

### Waste management

The Group would produce waste materials such as raw materials, packaging materials, waste products, and other wastes during the manufacturing process. The above environmental wastes, which would pollute the land, would be disposed of by the Group to an independent qualified waste collection and disposal services provider.

The Group has established a policy to improve manufacturing efficiency, reduce error production, and reduce land contamination. The Group will continue looking for ways to reduce carbon dioxide, VOCs emissions and land contamination through measures such as:

- Reduction of VOCs emissions through using low-styrene emissions resins;
- Efficient usage of raw materials monitoring;
- Repairing defective products rather than scrapping products. The Group has less than 0.3% scrapped products only; and
- Other basic household garbage was fully entrusted to the government to handle.

The consumption data recorded in the year ended 31 December 2023 and 2022 are as follows:

Resources	Unit	Consumption		Consumption intensity (per million dollars of revenue)	
		2023	2022	2023	2022
Electricity	kWh	<b>2,561,000</b>	2,669,124	<b>53,863</b>	42,843

Diesel	Litre	<b>3,000</b>	5,530	<b>63</b>	89

# ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

## *Packaging materials*

Our products are custom-made, and the products are also packed based on customer needs. In order to minimize the use of packaging materials, packaging materials from the purchase of raw materials are reused as packaging materials for products where possible.

<b>Packaging materials</b>	<b>Unit</b>	<b>Consumption</b>	<b>Consumption intensity (Per million RMB revenue)</b>
Plastic materials	kg	2,400	50
Metals	kg	44,267	931

## *Compliance of laws and regulations*

The Group constantly updated itself with the local legislation and standards for environmental protection and assessed whether these legislations and standards are related to the business of the Group and the Group's compliance status. During the year, the Group strictly complies with the relevant national environmental laws and regulations of the People's Republic of China, including but not limited to the following:

- the Environmental Protection Law;
- the Law on Environmental Impact Assessment;
- the Law on the Prevention and Control of Water Pollution;
- the Law on the Prevention and Control of Environmental Pollution by Solid Waste; and
- the Law on the Prevention and Control of Environmental Noise Pollution.

# ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

## Environmental and natural resources

The production of FRP has less impact on the environment compared to steel, timber or aluminium productions. However, for a further reduction in the environmental impact and use of natural resources, the Group would continue to assess better alternatives for using raw materials that provide similar or better qualities. Meanwhile, the Group's policy objective is to maintain the balance between operational efficiency and resource consumption. It would allow the Group to have better production without overuse of resources.

## Climate change

We are making every effort to improve the Group's capacity to manage climate change risks by fully identifying the various opportunities and challenges posed by climate change and formulating effective countermeasures.

### *Physical Risks*

The increasing frequency and severity of extreme weather events such as extreme cold or extreme heat, storms, rainstorms and typhoons, could lead to an increased risk of power shortages, interrupt the operation chain and damage the Group's assets. Considering the risk of business interruption related to extreme weather events, the Group will remain alert to significant policy changes. Further, we are committed to reducing its environmental impact to minimize the impact of any potential tightening of environmental regulations on the Group's business operations.

### *Transition Risks*

The Group monitors changes in the regulatory, technological and market landscape due to climate change, including tightening national policies and listing rules. The Group has been taking comprehensive measures to deal with changing situations.

## EMPLOYMENT AND LABOUR PRACTICE

### Employment

The Group strives to create a fair, respectful and diversified working environment and prohibits discrimination in any form. We treat all employees equally, regardless of their identity, race, and gender, and provide equal treatment and promotion opportunities.

The employment contract specifies the terms, including compensation and dismissal, working hours, rest periods and other benefits and welfare for staff. The staff handbook also highlights important information on policies on compensation, employee benefits, rights on termination, business conduct and leave benefits.

A good workplace practice should be free from discrimination and equal opportunities for all despite of age, gender, race, colour, gender orientation, disability or marital status to increase employee satisfaction. The Group would diversify its staff by means of gender and age to balance the culture and communications between staff. The Group encourages labour diversity and welcomes all workforce, thus putting the principle of fairness into practice. The Group had no reported incidents of non-compliance with regulations concerning employment during the year ended 31 December 2023.

The charts below show the gender and age group of our full-time PRC staff:

	No. of staff	Staff turnover rate (%)
<b>Gender</b>		
Male	38	N/A
Female	22	9%
<b>Age Group</b>		
18 to 25	0	N/A
26 to 35	7	N/A
36 to 45	9	N/A
46 to 55	25	8%
56 or above	19	N/A

For the year ended 31 December 2023, the Group has 60 employees in PRC. The difference in the composition can be explained by the difference in job nature. In addition, the Group welcome any age range of people to join the Group as long as they are keen to learn and participate.

The Group strives to maintain an employee turnover rate at an acceptable level so as to facilitate the accumulation of professional skills and experience. The turnover of staff is mainly due to the changes in the number of part-time workers in the workshop, which were hired for ad-hoc production projects.

# ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

## *Compliance with laws and regulations*

During the year ended 31 December 2023, the Group does not aware of any significant non-compliance with labour law and regulations of the People's Republic of China, including but not limited to the following:

- Labour Law; and
- Labour Contract Law.

## **Health and Safety**

Protecting employees' occupational health and safety is critical for the Group. The Group complies with the Labour Law of the People's Republic of China with respect to occupational safety and health and other applicable regulations for a healthy and comfortable working environment. As there is a high concentration of chemicals in the workplace, fire prevention protection for manufacturing facilities including fire-fighting equipment such as fire extinguishers and fire detection equipment, are equipped and checked regularly to prevent any fire outbreak. Staff also participate in the regular fire drill; smoking is prohibited in all areas.

<b>Occupational health and safety statistics</b>	<b>2023</b>	<b>2022</b>	<b>2021</b>
Number of lost days due to work injury	–	52	20
Number of work-related fatal accidents	<u>–</u>	<u>–</u>	<u>–</u>

## **Development and Training**

Keeping employees trained is part of a fundamental role in business growth and all employees are provided with adequate training this year. The Group encourages employees to continuous development and improves their skill set through training. The Group provides various internal and external training for developing the workforce, including orientation and onboard training for new staff so as for them to adapt to the operation of the Group efficiently and strengthen the skill and knowledge required at work. Onboard training is provided for workers, while specific management training is provided to managers and officers. There are also regular annual appraisals to assess staff performance with their supervisors.

# ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Training by the Group can be categorized as follows:

<b>Staff category</b>	<b>Major training contents</b>
Factory worker	Craftsmanship and occupational safety and health
General staff and managers	Specific training provided based on their roles
Directors and senior executives	Corporate governance practices and legal and regulatory updates

During the year ended 31 December 2023, the Group provided at least 4 hours of safety training to every employee in the production department and 4 hours of occupational hazards and compliance on safety production.

## **Labour Standards**

The Group is committed to upholding the labour rights of staff and has established a compliant mechanism for staff to report any labour violations. The management believes that the Group has complied with relevant labour standards for the year ended 31 December 2023. It is always the Group's policy to prohibit the employment of staff members under the legal working age of 18. During the year ended 31 December 2023, no labour disputes between the company and its staff have been recorded.

The Group's policy is to disqualify the person from employment if they are found to be hired against the requirements of the Labour Contract Law. The Group adhere to the laws and regulations prohibiting child labour and forced labour of the People's Republic of China, which mainly includes the following:

- Labour Law
- Labour Contract Law
- Law on Protection of Minors
- Provisions on the Prohibition of Using Child Labour

## OPERATING PRACTICES

### Supply Chain Management

The Group prioritizes quality and safety and is committed to reaching its products' standard of safety and quality. A quality supply chain has been set up to ensure high-quality products for customers. In order to minimize the transportation required, all 98 suppliers are located in Mainland China, especially the city and provinces nearby, such as Jiangsu province, Zhejiang province and Shanghai. The Group's policy on supply chain management is as follows:

- great emphasis is placed on the communication and relationship with the suppliers towards sustainable development; and
- assessment of the environmental and social risks of the supply chain is carried out regularly; and suppliers are urged to take measures to reduce their environmental and social risks.

### Product Responsibility

#### *Quality assurance and customer satisfaction*

As a responsible producer, we are committed to delivering high quality products and services to our customers while fulfilling our responsibility to safeguard customers' privacy, intellectual property rights and our business conduct.

Guidelines on quality control and assurance are formulated to ensure the safety and quality of products. Various inspections are conducted during different production stages: from raw materials and our final products, to ensure meeting our quality standards, customer requirements, and relevant conformity certificates. There is also a one-year warranty provided for the customers. For the year ended 31 December 2023, no products were returned due to safety or quality problems nor were any complaints received from customers.

#### *Data privacy*

The Group collects information from suppliers and customers for different purposes and takes appropriate procedures to ensure that the information collected is solely for lawful and relevant purposes. The Group sets out data privacy requirements in the company policies, under which customers' and suppliers' data would be used exclusively for matters relating to the Group's operation only. The Group strives to ensure that all collected data refrains from unauthorized or accidental access, processing, erasure or other use.

# ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

## *Intellectual property rights*

Intellectual property protection is requisite for innovation-driven development. The Group formulates intellectual property registration application specifications to regulate the correct use of company design copyrights and trademarks and avoid situations such as damage to rights or infringements caused by failure to declare intellectual property protection on time. The Group also protects its intellectual property rights by prolonged use and registration of domain names and trademarks. The Group's domain names are constantly monitored and renewed before their expiration.

## *Compliance on laws and regulations*

During the year ended 31 December 2023, the Group complied with laws and regulations of the People's Republic of China that significantly impact the Group concerning health and safety, labelling and privacy matters relating to products. This included, but was not limited to the following:

- Law on the Protection of Consumer Rights and Interests
- Advertising Law
- Personal Information Protection Law
- Product Quality Law

## **Anti-Corruption**

A system with good moral integrity and anti-corruption mechanism is the cornerstone for the sustainable and healthy development of the Group. The Group takes a zero-tolerance approach to corruption and bribery and is committed to acting professionally, fairly and with integrity in all our business dealings. The staff manual provides guidance on employees' behaviours, for example, the acceptance of gifts and conflict of interests, to further enhance the awareness of employees. The Group encourages staff to report suspected corruption cases.

## *Whistleblowing Policy and Procedure*

We encourage transparency and honesty, and provide channels for reporting the misconduct or malpractices. Any suspicious transactions after investigation would be reported to the relevant governing body by the responsible officer.

## ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

### *Compliance with laws and regulations*

During the year ended 31 December 2023, the Group abides by the laws and regulations of the People's Republic of China related to anti-corruption and money laundering, including but not limited to the following:

- Criminal Law;
- Anti-Unfair Competition Law; and
- Company Law.

There were no concluded legal cases regarding corrupt practices brought against the Group or its employees.

### COMMUNITY INVESTMENT

For the continuous effort to give back to society, the Group would seek opportunities to get involved in various community programs. The Group's approach towards community involvement is as follows:

- The Group would fulfil corporate social responsibility through the sustainable development strategy to expand its efforts in the areas of charity work;
- Assessment will be taken on how to give business activities to the interests of the community; and
- The Group is committed to providing career opportunities to the locals and promoting the development of the community's economy.

### DIRECTORS' AND CHIEF EXECUTIVE'S INTERESTS AND SHORT POSITIONS IN THE SHARES, UNDERLYING SHARES AND DEBENTURES OF THE COMPANY OR ANY ASSOCIATED CORPORATION

As at 31 December 2023, the interests and short positions of the Directors and chief executive of the Company in the Shares, underlying Shares and debentures of the Company or any of the associated corporations (within the meaning of Part XV of the SFO) which were notified to the Company and the Stock Exchange pursuant to Divisions 7 and 8 of Part XV of the SFO (including any interest or short positions which they are taken or deemed to have under such provisions of the SFO) pursuant to section 352 of the SFO to be entered in the register referred to therein pursuant to the Rules 5.46 to 5.67 of the GEM Listing Rules relating to securities transactions by the Directors and to be notified to the Company and the Stock Exchange are as follows:

#### (i) Long position in the Shares

Name	Capacity/Nature of interest	Number of shares held/interested in	Percentage of interest in the Company
Mr. Li Yubao ("Mr. Li") (Note)	Interest in controlled corporations	163,600,000	40.9%

Note:

Mr. Li is the ultimate controlling shareholder of LF INTERNATIONAL PTE. LTD. ("LFB") and Yunhong Group Co., Limited ("Yunhong"), both of which in turn hold a total of 163,600,000 Shares. Therefore, Mr. Li is deemed, or taken to be, interested in all the Shares held by LFB and Yunhong for the purposes of the SFO.

## DIRECTORS' REPORT

### (ii) Long position in the ordinary shares of associated corporations

Name	Name of associated corporation	Capacity/Nature of interest	Number of shares held	Approximate percentage of interests
Mr. Li	LF INTERNATIONAL PTE. LTD. ("LFS") (Note 1)	Beneficial Owner	100	100%
	LFB (Note 2)	Interest in controlled corporation	1	100%

*Notes:*

1. LFS is a limited liability company incorporated in Singapore.
2. LFB is wholly-owned by LFS, which is in turn wholly-owned by Mr. Li.

Save as disclosed above, as at 31 December 2023, none of the Directors and chief executive had any interests or short positions in the Shares, underlying Shares and debentures of the Company or any of its associated corporations (within the meaning of Part XV of the SFO), as notified to the Company and the Stock Exchange pursuant to Divisions 7 and 8 of Part XV of the SFO, as recorded in the register required to be kept by the Company under section 352 of the SFO, or otherwise notified to the Company and the Stock Exchange pursuant to Rule 5.46 of the GEM Listing Rules.

### DIRECTOR'S RIGHTS TO PURCHASE SHARES OR DEBENTURES

Save as otherwise disclosed in this report, at no time during the year ended 31 December 2023 was the Company or any of its holding companies, subsidiaries or fellow subsidiaries a party to any arrangements to enable the Directors and chief executive of the Company to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any body corporate, and none of the Directors and chief executive or their spouses or children under the age of 18, had any right to subscribe for the securities of the Company, or had exercised any such right during the year ended 31 December 2023.

## DIRECTORS' REPORT

### SUBSTANTIAL SHAREHOLDERS' INTERESTS AND SHORT POSITIONS IN THE SHARES AND UNDERLYING SHARES OF THE COMPANY

As at 31 December 2023, so far as is known to the Directors, the interests and short positions of the persons or corporations (other than a Director or chief executive of the Company) in the Shares or underlying Shares which have been disclosed to the Company under the provisions of Divisions 2 and 3 of Part XV of the SFO and as recorded in the register required to be kept by the Company under section 336 of the SFO or, were, directly or indirectly, interested in 5% or more of the nominal value of any class of share capital carrying rights to vote in all circumstances at general meetings of the Company are as follows:

Name	Capacity/Nature of interest	Number of ordinary shares held/interested in	Percentage of interest in the Company
LFS (Note 1)	Interest in a controlled corporation	123,600,000	30.9%
LFB (Note 1)	Beneficial owner	123,600,000	30.9%
Yunhong (Note 2)	Beneficial owner	40,000,000	10.0%
Mr. Wu Dong ("Mr. Wu") (Note 2)	Interest in a controlled corporation	40,000,000	10.0%
Mr. Huang Xuechao	Beneficial owner	44,880,000	11.2%

*Notes:*

1. LFB is wholly-owned by LFS, which is in turn wholly-owned by Mr. Li. Therefore, each of LFS and Mr. Li is deemed or taken to be interested in the Shares held by LFB under the SFO.
2. Mr. Wu holds approximately 93.67% equity interest in Yunhong, which in turn beneficially owns 40,000,000 Shares (representing 10% of the total number of issued Shares). Therefore, Mr. Wu is deemed or taken to be interested in the Shares held by Yunhong under the SFO. Among this 93.67% equity interest in Yunhong, 92% is held by Mr. Wu on behalf of Mr. Li pursuant to the nominee shareholding arrangements between Mr. Wu and Mr. Li. Hence, Mr. Li is regarded as the ultimate controlling shareholder of Yunhong and therefore Mr. Li is deemed or taken to be interested in the Shares held by Yunhong under the SFO.

Save as disclosed above, as at 31 December 2023, no other persons (other than the Directors and chief executive of the Company) had any interests or short positions in the Shares and underlying Shares as recorded in the register required to be kept by the Company under section 336 of the SFO or which would fall to be disclosed to the Company and the Stock Exchange pursuant to the provisions of Divisions 2 and 3 of part XV of the SFO.

## OPINION

We have audited the consolidated financial statements of Yunhong Guixin Group Holdings Limited (the "Company") and its subsidiaries (together the "Group") set out on pages 60 to 137, which comprise the consolidated statement of financial position as at 31 December 2023, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the consolidated financial statements give a true and fair view of the financial position of the Group as at 31 December 2023, and of its financial performance and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Companies Ordinance.

## BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Consolidated Financial Statements" section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements for the current year. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters identified in our audit are summarised as follows:

Key Audit Matter	How our audit addressed the Key Audit Matter
<p><b>Impairment of trade and bills receivables</b></p> <p>Refer to notes 2(i)(i), 16, 24(a) and 26(b)(i) to the consolidated financial statements</p> <p>At 31 December 2023, trade and bills receivables amounted to approximately RMB41,638,000, net of provision for impairment losses of approximately RMB16,724,000, for which there are no collateral as security for settlement. In the normal ordinary course of its business, the Group grants its customers with credit period up to 180 days after billing. The Group's top five largest debtors accounted for approximately 73% of its total trade and bills receivables at 31 December 2023. This may give rise to the risk of bad debt losses arising from unfavourable changes in the customers' abilities to settle their trade debts after year end.</p> <p>We identified the impairment of trade and bills receivables as a key audit matter due to the significance of the balances. Furthermore, a significant degree of management estimation is required in assessing impairment losses of trade and bills receivables which may affect their carrying amounts.</p>	<p>Our key audit procedures in relation to the impairment of trade and bills receivables include:</p> <ul style="list-style-type: none"> <li>• Reviewing the Group's credit control and debt recovery procedures and actions taken to monitor and collect the trade and bills receivables, on a sample basis;</li> <li>• Reviewing historical settlement history of the customers and testing subsequent cash receipts from the customers after the year end;</li> <li>• Assessing ageing analysis trade and bills receivables by customers and updated creditworthiness of the customers;</li> <li>• Enquiring management of any material disputes with customers, assessing and evaluating the implications arising from the discrepancies on the debtor confirmations directly obtained from the customers and reviewing correspondences with the customers for any material potential dispute;</li> <li>• Reviewing the management's assessment on expected credit losses on trade and bills receivables, in particular challenging the reasonableness of the provision matrix by reference to historical bad debt loss rates, payment history and creditworthiness of the customers, and other forward-looking information specific to the customers and the economic conditions; and</li> <li>• Checking the accuracy of calculation of the required provision for the expected credit losses on trade and bills receivables.</li> </ul>

## KEY AUDIT MATTERS *(Continued)*

Key Audit Matter	How our audit addressed the Key Audit Matter
<p><b>Revenue recognition</b></p> <p>Refer to notes 2(s) and 3 to the consolidated financial statements</p> <p>For the year ended 31 December 2023, revenue amounted to approximately RMB47,546,000. The Group is principally engaged in the research and development, production and sales of fiberglass reinforced plastic grating products and epoxy wedge strip products in the People's Republic of China. In some of the terms of the sales contracts made between the Group and its customers, there are warranty clauses for the quality of the products, which were mainly related to agreed-upon product function specifications, with expiry date falling within 1-2 years after the control of the products were transferred to the customers. Revenue is recognised when the control of the products has been transferred to the customers at a point-in-time.</p> <p>We identified revenue recognition as a key audit matter due to revenue is one of the key performance indicators of the Group and there is an inherent risk of manipulation of the timing of revenue recognition by management to meet specific targets or expectations.</p>	<p>Our key audit procedures in relation to the revenue recognition includes:</p> <ul style="list-style-type: none"> <li>• Obtaining an understanding of and assessing the design and implementation of the key internal controls over the revenue recognition cycle of the Group;</li> <li>• Evaluating the appropriateness of the accounting policies on revenue recognition adopted by the Group and related accounting estimates and judgements made;</li> <li>• Performing substantive testing on the accuracy and occurrence of revenue using sampling techniques by examining, including but not limited to, the terms of sales contracts, delivery notes, bills of lading, customer bills, billing reports, and financial records, as well as testing the cut-off for revenue recognised immediately before and after the end of the reporting period and obtaining written confirmation replies directly from the customers; and</li> <li>• Reviewing the historical record to assess any significant product return in the past assurance-type warranty period in order to evaluate the appropriate point of revenue recognition.</li> </ul>

## OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises the information included in the 2023 annual report of the Company but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## RESPONSIBILITIES OF DIRECTORS AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Companies Ordinance and for such internal control as the directors of the Company determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

# INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF YUNHONG GUIXIN GROUP HOLDINGS LIMITED

(incorporated in the Cayman Islands with limited liability)

## AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

# INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF YUNHONG GUIXIN GROUP HOLDINGS LIMITED

(incorporated in the Cayman Islands with limited liability)

## AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS *(Continued)*

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### (b) Basis of preparation of the consolidated financial statements

The consolidated financial statements for the year ended 31 December 2023 comprise the Company and its subsidiaries.

Items included in the financial statements of each entity in the Group are measured using the currency of the primary economic environment in which the entity operates (the “functional currency”). Renminbi (“RMB”) is the functional currency of all entities of the Group. These consolidated financial statements are presented in RMB and the figures are rounded to the nearest thousands of RMB (“RMB’000”), except for per share data, because the management evaluates the performance of the Group based on RMB.

The measurement basis used in the preparation of the consolidated financial statements is the historical cost basis.

The preparation of consolidated financial statements in conformity with HKFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying amounts of assets and liabilities not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements made by management in the application of HKFRSs that have significant effect on the consolidated financial statements and major sources of estimation uncertainty are discussed in note 26.

### (c) Changes in accounting policies

These consolidated financial statements have been prepared on a basis consistent with the accounting policies adopted in the 2022 consolidated financial statements except for the adoption of the following new/revised HKFRSs that are relevant to the Group and effective from the current year:

Amendments to HKAS 1	Disclosure of Accounting Policies
Amendments to HKAS 8	Definition of Accounting Estimates
Amendments to HKAS 12	Deferred Tax related to Assets and Liabilities arising from a Single Transaction
Amendments to HKAS 12	International Tax Reform – Pillar Two Model Rules

#### *Amendments to HKAS 1: Disclosure of Accounting Policies*

The amendments require companies to disclose their material accounting policy information rather than their significant accounting policies.

The amendments have no effect on the measurement, recognition or presentation of any items in the consolidated financial statements. Management has reviewed the disclosure of accounting policy information and considered it is consistent with the amendments.

#### *Amendments to HKAS 8: Definition of Accounting Estimates*

The amendments clarify how companies should distinguish changes in accounting policies from changes in accounting estimates.

The adoption of the amendments does not have any significant impact on the consolidated financial statements.

#### *Amendments to HKAS 12: Deferred Tax related to Assets and Liabilities arising from a single transaction*

The amendments narrow the scope of the recognition exemption in paragraphs 15 and 24 of HKAS 12 so that it no longer applies to transactions that, on recognition, give rise to equal taxable and deductible temporary differences.

The adoption of the amendments does not have any significant impact on the consolidated financial statements.

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### (c) Changes in accounting policies *(Continued)*

#### *Amendments to HKAS 12: International Tax Reform – Pillar Two Model Rules*

The amendments provide entities with temporary relief from accounting for deferred taxes arising from the Organisation for Economic Co-operation and Development's Pillar Two model rules. The Amendments also introduce targeted disclosure requirements to help investors understand an entity's exposure to income taxes arising from the rules.

The adoption of the amendments does not have any significant impact on the consolidated financial statements.

### (d) Subsidiaries and non-controlling interests

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. When assessing whether the Group has power, only substantive rights (held by the Group and other parties) are considered.

An investment in a subsidiary is consolidated into the consolidated financial statements from the date that control commences until the date that control ceases. Intra-group balances, transactions and cash flows and any unrealised profits arising from intra-group transactions are eliminated in full in preparing the consolidated financial statements. Unrealised losses resulting from intra-group transactions are eliminated in the same way as unrealised gains but only to the extent that there is no evidence of impairment.

Non-controlling interests represent the equity in a subsidiary not attributable directly or indirectly to the Company, and in respect of which the Group has not agreed any additional terms with the holders of those interests which would result in the Group as a whole having a contractual obligation in respect of those interests that meets the definition of a financial liability.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Year ended 31 December 2023

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### (d) Subsidiaries and non-controlling interests *(Continued)*

Non-controlling interests are presented in the consolidated statement of financial position within equity, separately from equity attributable to the owners of the Company. Non-controlling interests in the results of the Group are presented on the face of the consolidated statement of profit or loss and other comprehensive income as an allocation of the total profit or loss and total comprehensive income for the year between non-controlling interests and the owners of the Company. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance. Loans from holders of non-controlling interests and other contractual obligations towards these holders are presented as financial liabilities in the consolidated statement of financial position.

In the Company's statement of financial position which is presented within these notes, investments in subsidiaries are stated at cost less impairment losses, unless the investment is classified as held for sale (or included in a disposal group that is classified as held for sale).

### (e)(i) Business combinations

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair values, except that:

- deferred tax assets or liabilities, and assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with HKAS 12 *Incomes Taxes* and HKAS 19 *Employee Benefits* respectively;
- liabilities or equity instruments related to share-based payment arrangements of the acquiree or share-based payment arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with HKFRS 2 *Share-based Payment* at the acquisition date;

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### (e)(i) Business combinations *(Continued)*

- assets (or disposal groups) that are classified as held for sale in accordance with HKFRS 5 *Non-current Assets Held for Sale and Discontinued Operations* are measured in accordance with that standard; and
- lease liabilities are recognised and measured at the present value of the remaining lease payments (as defined in HKFRS 16) as if the acquired leases were new leases at the acquisition date, except for leases for which (a) the lease term ends within 12 months of the acquisition date; or (b) the underlying asset is of low value. Right-of-use assets are recognised and measured at the same amount as the relevant lease liabilities, adjusted to reflect favourable or unfavourable terms of the lease when compared with market terms.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the relevant subsidiary's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at their fair value.

Where the consideration transferred by the Group in a business combination includes a contingent consideration arrangement, the contingent consideration is measured at its acquisition-date fair value and included as part of the consideration transferred in a business combination. Changes in the fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively. Measurement period adjustments are adjustments that arise from additional information obtained during the "measurement period" (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

The subsequent accounting for the contingent consideration that does not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Contingent consideration that is classified as an asset or a liability is remeasured to fair value at subsequent reporting dates, with the corresponding gain or loss being recognised in profit or loss.

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### **(e)(i) Business combinations** *(Continued)*

When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date (i.e. the date when the Group obtains control), and the resulting gain or loss, if any, is recognised in profit or loss or other comprehensive income, as appropriate. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income and measured under HKFRS 9 would be accounted for on the same basis as would be required if the Group had disposed directly of the previously held equity interest.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period (see above), and additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognised at that date.

### **(f) Property, plant and equipment**

Property, plant and equipment, other than construction in progress, are stated at cost less accumulated depreciation and impairment losses (see note 2(i)(ii)).

Depreciation is provided to write off the cost less accumulated impairment losses of property, plant and equipment, other than construction in progress, over their estimated useful lives as set out below from the date on which they are available for use and after taking into account their estimated residual values, if any, using the straight-line method over their estimated useful lives as follows:

– Leasehold improvement	Over the shorter of the lease terms or 5 years
– Plant and equipment (including moulds)	3 to 10 years
– Furniture and fixtures	5 years
– Motor vehicles	4 years

Where parts of an item of property, plant and equipment have different useful lives, the cost of the item is allocated on a reasonable basis between the parts and each part is depreciated separately. Both the useful life of an asset and its residual value, if any, are reviewed annually.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Year ended 31 December 2023

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### (f) **Property, plant and equipment** *(Continued)*

Historical cost includes expenditure that is directly attributable to the acquisition of the items. Cost may also include transfers from equity of any gains/losses on qualifying cash flow hedges of foreign currency purchases of property, plant and equipment.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are recognised in profit or loss during the reporting period in which they are incurred.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains or losses arising from the retirement or disposal of an item of property, plant and equipment are determined as the difference between the net proceeds on disposal and the carrying amount of the item and are recognised in profit or loss on the date of retirement or disposal.

### (g) **Construction in progress**

Construction in progress is stated at cost less accumulated impairment losses. Cost includes all construction expenditure and other direct costs, including interest costs, attributable to such projects. Costs on completed works are transferred to the appropriate assets category. No depreciation is provided in respect of construction in progress until it is completed and available for use.

### (h) **Leased assets**

At inception of a contract, the Group assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to direct the use of the identified asset and to obtain substantially all of the economic benefits from that use.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Year ended 31 December 2023

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### (h) Leased assets *(Continued)*

#### (i) As a lessee

Where the contract contains lease component(s) and non-lease component(s), the Group has elected not to separate non-lease components and accounts for each lease component and any associated non-lease components as a single lease component for all leases.

At the lease commencement date, the Group recognises a right-of-use asset and a lease liability, except for short-term leases that have a lease term of 12 months or less and leases of low-value assets which, for the Group are primarily laptops and office furniture. When the Group enters into a lease in respect of a low-value asset, the Group decides whether to capitalise the lease on a lease-by-lease basis. The lease payments associated with those leases which are not capitalised are recognised as an expense on a systematic basis over the lease term.

Where the lease is capitalised, the lease liability is initially recognised at the present value of the lease payments payable over the lease term, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, using a relevant incremental borrowing rate. After initial recognition, the lease liability is measured at amortised cost and interest expense is calculated using the effective interest method. Variable lease payments that do not depend on an index or rate are not included in the measurement of the lease liability and hence are charged to profit or loss in the accounting period in which they are incurred.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Year ended 31 December 2023

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### (h) Leased assets *(Continued)*

#### (i) As a lessee *(Continued)*

The right-of-use asset recognised when a lease is capitalised is initially measured at cost, which comprises the initial amount of the lease liability plus any lease payments made at or before the commencement date, and any initial direct costs incurred. Where applicable, the cost of the right-of-use assets also includes an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, discounted to their present value, less any lease incentives received.

The right-of-use asset is subsequently stated at cost less accumulated depreciation and impairment losses (see notes 2(f) and 2(i)(ii)).

The lease liability is remeasured when there is a change in future lease payments arising from a change in an index or rate, or there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or there is a change arising from the reassessment of whether the Group will be reasonably certain to exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The lease liability is also remeasured when there is a change in the scope of a lease or the consideration for a lease that is not originally provided for in lease contract ("lease modification") that is not accounted for as a separate lease. In this case the lease liability is remeasured based on the revised lease payments and lease term using a revised discount rate at the effective date of the modification. The only exceptions are rent concessions that occurred as a direct consequence of the COVID-19 pandemic and met the conditions set out in paragraph 46B of HKFRS 16 Leases. In such cases, the Group has taken advantage of the practical expedient not to assess whether the rent concessions are lease modifications, and recognised the change in consideration as negative variable lease payments in profit or loss in the period in which the event or condition that triggers the rent concessions occurred.

In the consolidated statement of financial position, the current portion of long-term lease liabilities is determined as the present value of contractual payments that are due to be settled within twelve months after the reporting period.

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### (h) Leased assets *(Continued)*

#### (ii) *As a lessor*

When the Group acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to the ownership of an underlying assets to the lessee. If this is not the case, the lease is classified as an operating lease. When a contract contains lease and non-lease components, the Group allocates the consideration in the contract to each component on a relative stand-alone selling price basis. When the Group is an intermediate lessor, the sub-leases are classified as a finance lease or as an operating lease with reference to the right-of-use asset arising from the head lease. If the head lease is a short-term lease to which the Group applies the exemption described in note 2(h)(i), then the Group classifies the sub-lease as an operating lease.

### (i) Credit losses and impairment of assets

#### (i) *Credit losses from financial instruments and contract assets*

The Group recognises a loss allowance for expected credit losses (“ECLs”) on the following items:

- financial assets measured at amortised cost (including cash and cash equivalents, pledged bank deposits and trade and other receivables);
- contract assets as defined in HKFRS 15 when the receivables are not unconditional (e.g. retention money withheld by customers); and
- lease receivables.

#### Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all expected cash shortfalls (i.e. the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive).

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Year ended 31 December 2023

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### (i) Credit losses and impairment of assets *(Continued)*

#### (i) Credit losses from financial instruments and contract assets *(Continued)*

##### Measurement of ECLs *(Continued)*

The expected cash shortfalls are discounted using the following discount rates where the effect of discounting is material:

- fixed-rate financial assets, trade and other receivables and contract assets: effective interest rate determined at initial recognition or an approximation thereof;
- variable-rate financial assets: current effective interest rate; and
- Lease receivables: discount rate used in the measurement of the lease receivable.

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

In measuring ECLs, the Group takes into account reasonable and supportable information that is available without undue cost or effort. This includes information about past events, current conditions and forecasts of future economic conditions.

ECLs are measured on either of the following bases:

- 12-month ECLs: these are losses that are expected to result from possible default events within the 12 months after the reporting date; and
- lifetime ECLs: these are losses that are expected to result from all possible default events over the expected lives of the items to which the ECL model applies.

Loss allowances for trade receivables and contract assets are always measured at an amount equal to lifetime ECLs. ECLs on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors and an assessment of both the current and forecast general economic conditions at the reporting date.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Year ended 31 December 2023

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### (i) Credit losses and impairment of assets *(Continued)*

#### (i) Credit losses from financial instruments and contract assets *(Continued)*

##### Measurement of ECLs *(Continued)*

For all other financial instruments, the Group recognises a loss allowance equal to 12-month ECLs unless there has been a significant increase in credit risk of the financial instrument since initial recognition, in which case the loss allowance is measured at an amount equal to lifetime ECLs.

##### Significant increases in credit risk

In assessing whether the credit risk of a financial instrument has increased significantly since initial recognition, the Group compares the risk of default occurring on the financial instrument assessed at the reporting date with that assessed at the date of initial recognition. In making this reassessment, the Group considers that a default event occurs when (i) the borrower is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held); or (ii) the financial asset is 90 days past due. The Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- failure to make payments of principal or interest on their contractually due dates;
- an actual or expected significant deterioration in a financial instrument's external or internal credit rating (if available);
- an actual or expected significant deterioration in the operating results of the debtor; and
- existing or forecast changes in the technological, market, economic or legal environment that have a significant adverse effect on the debtor's ability to meet its obligation to the Group.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Year ended 31 December 2023

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### (i) Credit losses and impairment of assets *(Continued)*

#### (i) Credit losses from financial instruments and contract assets *(Continued)*

##### Significant increases in credit risk *(Continued)*

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information to demonstrate otherwise.

Notwithstanding the foregoing, the Group assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the reporting date.

Depending on the nature of the financial instruments, the assessment of a significant increase in credit risk is performed on either an individual basis or a collective basis. When the assessment is performed on a collective basis, the financial instruments are grouped based on shared credit risk characteristics, such as past due status and credit risk ratings.

ECLs are remeasured at each reporting date to reflect changes in the financial instrument's credit risk since initial recognition. Any change in the ECL amount is recognised as an impairment gain or loss in profit or loss. The Group recognises an impairment gain or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in debt securities that are measured at fair value through other comprehensive income ("FVOCI") (recycling), for which the loss allowance is recognised in other comprehensive income and accumulated in the fair value reserve (recycling).

##### Basis of calculation of interest income

Interest income recognised in accordance with note 2(s)(ii) is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit-impaired, in which case interest income is calculated based on the amortised cost (i.e. the gross carrying amount less loss allowance) of the financial asset.

At each reporting date, the Group assesses whether a financial asset is credit impaired. A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Year ended 31 December 2023

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### (i) Credit losses and impairment of assets *(Continued)*

#### (i) Credit losses from financial instruments and contract assets *(Continued)*

Basis of calculation of interest income *(Continued)*

Evidence that a financial asset is credit-impaired includes the following observable events:

- significant financial difficulties of the debtor;
- a breach of contract, such as a default or delinquency in interest or past due events;
- it becoming probable that the borrower will enter into bankruptcy or other financial reorganisation;
- significant changes in the technological, market, economic or legal environment that have an adverse effect on the debtor; or
- the disappearance of an active market for a security because of financial difficulties of the issuer.

Write-off policy

The gross carrying amount of a financial asset or contract asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off.

Subsequent recoveries of an asset that was previously written off are recognised as a reversal of impairment in profit or loss in the period in which the recovery occurs.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### (i) Credit losses and impairment of assets *(Continued)*

#### (ii) *Impairment of other non-current assets*

Internal and external sources of information are reviewed at the end of each reporting period to identify indications that the following assets may be impaired or, except in the case of goodwill, an impairment loss previously recognised no longer exists or may have decreased:

- property, plant and equipment;
- right-of-use assets; and
- investments in subsidiaries in the Company's statement of financial position.

If any such indication exists, the asset's recoverable amount is estimated.

- Calculation of recoverable amount

The recoverable amount of an asset is the greater of its fair value less costs of disposal and value in use ("VIU"). In assessing VIU, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where an asset does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the smallest group of assets that generates cash inflows independently (i.e. a cash-generating unit).

- Recognition of impairment losses

An impairment loss is recognised in profit or loss if the carrying amount of an asset, or the cash-generating unit to which it belongs, exceeds its recoverable amount. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the cash-generating unit (or group of units) and then, to reduce the carrying amount of the other assets in the unit (or group of units) on a pro rata basis, except that the carrying value of an asset will not be reduced below its individual fair value less costs of disposal (if measurable) or VIU (if determinable).

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### (i) Credit losses and impairment of assets *(Continued)*

#### (ii) Impairment of other non-current assets *(Continued)*

- Reversals of impairment losses

In respect of assets other than goodwill, an impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount. An impairment loss in respect of goodwill is not reversed.

A reversal of an impairment loss is limited to the asset's carrying amount that would have been determined had no impairment loss been recognised in prior years. Reversals of impairment losses are credited to profit or loss in the year in which the reversals are recognised.

### (j) Inventories and other contract costs

#### (i) Inventories

Inventories are assets which are held for sale in the ordinary course of business, in the process of production for such sale or in the form of materials or supplies to be consumed in the production process or in the rendering of services.

Inventories are carried at the lower of cost and net realisable value.

Cost is calculated using the weighted average cost formula and comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

When inventories are sold, the carrying amount of those inventories is recognised as an expense in the period in which the related revenue is recognised.

The amount of any write-down of inventories to net realisable value and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Year ended 31 December 2023

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### (j) Inventories and other contract costs *(Continued)*

#### (ii) Other contract costs

Other contract costs are either the incremental costs of obtaining a contract with a customer or the costs to fulfil a contract with a customer which are not capitalised as inventory (see note 2(j)(i)) or property, plant and equipment (see note 2(f)).

Incremental costs of obtaining a contract are those costs that the Group incurs to obtain a contract with a customer that it would not have incurred if the contract had not been obtained e.g. an incremental sales commission. Incremental costs of obtaining a contract are capitalised when incurred if the costs relate to revenue which will be recognised in a future reporting period and the costs are expected to be recovered. Other costs of obtaining a contract are expensed when incurred.

Costs to fulfil a contract are capitalised if the costs relate directly to an existing contract or to a specifically identifiable anticipated contract; generate or enhance resources that will be used to provide goods or services in the future; and are expected to be recovered. Costs that relate directly to an existing contract or to a specifically identifiable anticipated contract may include direct labour, direct materials, allocations of costs, costs that are explicitly chargeable to the customer and other costs that are incurred only because the Group entered into the contract (for example, payments to sub-contractors). Other costs of fulfilling a contract, which are not capitalised as inventory, property, plant and equipment or intangible assets, are expensed as incurred.

Capitalised contract costs are stated at cost less accumulated amortisation and impairment losses. Impairment losses are recognised to the extent that the carrying amount of the contract cost asset exceeds the net of (i) remaining amount of consideration that the group expects to receive in exchange for the goods or services to which the asset relates, less (ii) any costs that relate directly to providing those goods or services that have not yet been recognised as expenses.

Amortisation of capitalised contract costs is charged to profit or loss when the revenue to which the asset relates is recognised. The accounting policy for revenue recognition is set out in note 2(s).

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Year ended 31 December 2023

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### (k) Contract assets and contract liabilities

A contract asset is recognised when the Group recognises revenue (see note 2(s)) before being unconditionally entitled to the consideration under the payment terms set out in the contract. Contract assets are assessed for ECLs in accordance with the policy set out in note 2(i)(i) and are reclassified to receivables when the right to the consideration has become unconditional (see note 2(l)).

A contract liability is recognised when the customer pays non-refundable consideration before the Group recognises the related revenue (see note 2(s)). A contract liability would also be recognised if the Group has an unconditional right to receive non-refundable consideration before the Group recognises the related revenue. In such cases, a corresponding receivable would also be recognised (see note 2(l)).

For a single contract with the customer, either a net contract asset or a net contract liability is presented. For multiple contracts, contract assets and contract liabilities of unrelated contracts are not presented on a net basis.

### (l) Trade and other receivables

A receivable is recognised when the Group has an unconditional right to receive consideration. A right to receive consideration is unconditional if only the passage of time is required before payment of that consideration is due. If revenue has been recognised before the Group has an unconditional right to receive consideration, the amount is presented as a contract asset (see note 2(k)).

Receivables are stated at amortised cost using the effective interest method less allowance for expected credit losses (see note 2(i)(i)).

### (m) Interest-bearing borrowings

Interest-bearing borrowings are recognised initially at fair value less attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost using the effective interest method. Interest expense is recognised in accordance with the Group's accounting policy for borrowing costs (see note 2(u)).

### (n) Trade and other payables

Trade and other payables are initially recognised at fair value. They are subsequently stated at amortised cost unless the effect of discounting would be immaterial, in which case they are stated at cost.

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### (o) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term, highly liquid investments readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition. Cash and cash equivalents are assessed for ECLs in accordance with the policy set out in note 2(i)(i).

### (p) Employee benefits

#### (i) *Short term employee benefits and contributions to defined contribution retirement plans*

Salaries, annual bonuses, paid annual leave, contributions to defined contribution retirement plans and the cost of non-monetary benefits are accrued in the year in which the associated services are rendered by employees. Where payment or settlement is deferred and the effect would be material, these amounts are stated at their present values.

Pursuant to the relevant laws and regulations of the PRC, the Group's subsidiary in the PRC has joined defined contributions plans for the employees, such as basic pension scheme, housing fund, basic medical insurance, unemployment insurance, injury insurance and maternity insurance. The Group makes contributions to the above-mentioned schemes at the applicable rates based on the amounts stipulated by the government organisation. The contributions are charged to profit or loss on an accrual basis.

The Group operates a defined contribution Mandatory Provident Fund retirement benefit scheme (the "MPF Scheme") under the Mandatory Provident Fund Schemes Ordinance for all of its employees in Hong Kong. Contributions are made based on a percentage of the employees' basic salaries and are charged to profit or loss as they become payable in accordance with the rules of the MPF Scheme. The Group's employer contributions vest fully with the employees when contributed into the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administered fund.

#### (ii) *Termination benefits*

Termination benefits are recognised at the earlier of when the Group can no longer withdraw the offer of those benefits and when it recognises restructuring costs involving the payment of termination benefits.

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### (q) Income tax

Income tax for the year comprises current tax and movements in deferred tax assets and liabilities. Current tax and movements in deferred tax assets and liabilities are recognised in profit or loss except to the extent that they relate to items recognised in other comprehensive income or directly in equity, in which case the relevant amounts of tax are recognised in other comprehensive income or directly in equity, respectively.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the end of the reporting period, and any adjustment to tax payable in respect of previous years.

Deferred tax assets and liabilities arise from deductible and taxable temporary differences respectively, being the differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax bases. Deferred tax assets also arise from unused tax losses and unused tax credits.

Apart from certain limited exceptions, all deferred tax liabilities, and all deferred tax assets to the extent that it is probable that future taxable profits will be available against which the asset can be utilised, are recognised. Future taxable profits that may support the recognition of deferred tax assets arising from deductible temporary differences include those that will arise from the reversal of existing taxable temporary differences, provided that those differences relate to the same taxation authority and the same taxable entity, and are expected to reverse either in the same period as the expected reversal of the deductible temporary difference or in periods into which a tax loss arising from the deferred tax asset can be carried back or forward. The same criteria are adopted when determining whether existing taxable temporary differences support the recognition of deferred tax assets arising from unused tax losses and credits, that is, those differences are taken into account if they relate to the same taxation authority and the same taxable entity, and are expected to reverse in a period, or periods, in which the tax loss or credit can be utilised.

The limited exceptions to recognition of deferred tax assets and liabilities are those temporary differences arising from goodwill not deductible for tax purposes, the initial recognition of assets or liabilities that affect neither accounting nor taxable profit (provided they are not part of a business combination), and temporary differences relating to investments in subsidiaries to the extent that, in the case of taxable differences, the Group controls the timing of the reversal and it is probable that the differences will not reverse in the foreseeable future, or in the case of deductible differences, unless it is probable that they will reverse in the future.

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### (q) **Income tax** *(Continued)*

The carrying amount of a deferred tax asset is reviewed at the end of each reporting period and is reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the related tax benefit to be utilised. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profits will be available.

Additional income taxes that arise from the distribution of dividends are recognised when the liability to pay the related dividends is recognised.

Current tax balances and deferred tax balances, and movements therein, are presented separately from each other and are not offset. Current tax assets are offset against current tax liabilities, and deferred tax assets against deferred tax liabilities, if the Company or the Group has the legally enforceable right to set off current tax assets against current tax liabilities and the following additional conditions are met:

- in the case of current tax assets and liabilities, the Company or the Group intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously; or
- in the case of deferred tax assets and liabilities, if they relate to income taxes levied by the same taxation authority on either:
  - the same taxable entity; or
  - different taxable entities, which, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered, intend to realise the current tax assets and settle the current tax liabilities on a net basis or realise and settle simultaneously.

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### (r) Provisions and contingent liabilities

Provisions are recognised when the Group has a legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditure expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

### (s) Revenue and other income

Income is classified by the Group as revenue when it arises from the sale of goods, the provision of services or the use by others of the Group's assets under leases in the ordinary course of the Group's business.

Revenue is recognised when control over a product or service is transferred to the customer, or the lessee has the right to use the asset, at the amount of promised consideration to which the Group is expected to be entitled, excluding those amounts collected on behalf of third parties. Revenue excludes value-added tax or other sales taxes and is after deduction of any trade discounts.

Where the contract contains a financing component which provides a significant financing benefit to the customer for more than 12 months, revenue is measured at the present value of the amount receivable, discounted using the discount rate that would be reflected in a separate financing transaction with the customer, and interest income is accrued separately under the effective interest method. Where the contract contains a financing component which provides a significant financing benefit to the Group, revenue recognised under that contract includes the interest expense accrued on the contract liability under the effective interest method. The Group takes advantage of the practical expedient in paragraph 63 of HKFRS 15 and does not adjust the consideration for any effects of a significant financing component if the period of financing is 12 months or less.

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### (s) Revenue and other income *(Continued)*

Further details of the Group's revenue and other income recognition policies are as follows:

#### (i) *Sale of goods*

Sales of the Group's goods are recognised as follows:

Revenue is recognised when the customer takes possession of and accepts the goods.

#### (ii) *Interest income*

Interest income is recognised as it accrues under the effective interest method using the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of the financial asset. For financial assets measured at amortised cost or FVOCI (recycling) that are not credit-impaired, the effective interest rate is applied to the gross carrying amount of the asset. For credit-impaired financial assets, the effective interest rate is applied to the amortised cost (i.e. gross carrying amount net of loss allowance) of the asset (see note 2(i)(i)).

#### (iii) *Government grants*

Government grants are recognised in the consolidated statement of financial position initially when there is reasonable assurance that they will be received and that the Group will comply with the conditions attaching to them. Grants that compensate the Group for expenses incurred are recognised as income in profit or loss on a systematic basis in the same periods in which the expenses are incurred. Grants that compensate the Group for the cost of an asset are deducted from the carrying amount of the asset and consequently are effectively recognised in profit or loss over the useful life of the asset by way of reduced depreciation expense.

### (t) Translation of foreign currencies

Foreign currency transactions during the reporting period are translated at the foreign exchange rates ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated at the foreign exchange rates ruling at the end of the reporting period. Exchange gains and losses are recognised in profit or loss.

Non-monetary assets and liabilities measured in terms of historical cost in a foreign currency are translated using the foreign exchange rates ruling at the transaction dates. The transaction date is the date on which the Group initially recognises such non-monetary assets or liabilities. Non-monetary assets and liabilities denominated in foreign currencies stated at fair value are translated using the foreign exchange rates ruling at the dates the fair value was measured.

The results and financial position of all the Group entities have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (1) assets and liabilities for each statement of financial position presented are translated at the closing rate at the end of the reporting period;
- (2) income and expenses for each statement of profit or loss are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the rate on the dates of the transactions); and
- (3) all resulting exchange differences are recognised in other comprehensive income.

On consolidation, exchange differences arising from the translation of any net investment in foreign entities, and of borrowings and other financial instruments designated as hedges of such investments, are recognised in other comprehensive income. When a foreign operation is sold or any borrowings forming part of the net investment are repaid, the associated exchange differences are reclassified to the consolidated statement of profit or loss, as part of the gain or loss on sale.

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### (u) Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset which necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of that asset. Other borrowing costs are expensed in the period in which they are incurred.

The capitalisation of borrowing costs as part of the cost of a qualifying asset commences when expenditure for the asset is being incurred, borrowing costs are being incurred and activities that are necessary to prepare the asset for its intended use or sale are in progress. Capitalisation of borrowing costs is suspended or ceases when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are interrupted or complete.

### (v) Related parties

A related party is a person or entity that is related to the Group.

- (a) A person, or a close member of that person's family, is related to the Group if that person:
  - (i) has control or joint control over the Group;
  - (ii) has significant influence over the Group; or
  - (iii) is a member of the key management personnel of the Group or the Group's parent.
- (b) An entity is related to the Group if any of the following conditions applies:
  - (i) The entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
  - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
  - (iii) Both entities are joint ventures of the same third party.
  - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### (v) Related parties *(Continued)*

- (b) An entity is related to the Group if any of the following conditions applies: *(Continued)*
  - (v) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group.
  - (vi) The entity is controlled or jointly controlled by a person identified in (a).
  - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).
  - (viii) The entity or any member of a group of which it is a part, provides key management personnel services to the Group or to the Group's parent.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity and include:

- (a) that person's children and spouse or domestic partner;
- (b) children of that person's spouse or domestic partner; and
- (c) dependants of that person or that person's spouse or domestic partner.

In the definition of a related party, an associate includes subsidiaries of the associate, and a joint venture includes subsidiaries of the joint venture.

### (w) Segment reporting

Operating segments, and the amounts of each segment item reported in the consolidated financial statements, are identified from the financial information provided regularly to the chief operating decision maker ("CODM"), being the executive directors of the Company, for the purposes of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

### (x) Research and development expenditure

Expenditure on research activities is recognised as an expense in the period in which it is incurred.

An internally generated intangible asset arising from development (or from the development phase of an internal project) is recognised if, and only if, all of the following have been demonstrated:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- the intention to complete the intangible asset and use or sell it;
- the ability to use or sell the intangible asset;
- how the intangible asset will generate probable future economic benefits;
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- the ability to measure reliably the expenditure attributable to the intangible asset during its development.

The amount initially recognised for internally generated intangible assets is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally generated intangible asset can be recognised, development expenditure is recognised in profit or loss in the period in which it is incurred.

The Group's right-of-use assets in respect of leases of land, various offices, manufacturing premise and staff quarter (2022: offices and manufacturing premise), which are typically made for fixed periods of 2 to 10 years (2022: 2 to 3 years). Lease terms are negotiated on an individual basis and contain similar terms and conditions.

During the year ended 31 December 2023, the land was leased from a company which the ultimate controlling shareholder of the Company has beneficial interest. Total capital value at the inception of the lease was amounting to approximately RMB146,000.

At the end of both reporting periods, there was no impairment recognised on the Group's right-of-use assets.

### Restrictions or covenants

Most of the leases impose a restriction that, unless the approval is obtained from the lessor, the right-of-use assets can only be used by the Group and the Group is prohibited from selling or pledging the underlying assets.

The movements (excluding those arising from increases and decreases both occurred within the same year) of contract assets from contracts with customers within HKFRS 15 during the year are as follows:

	2023 RMB'000	2022 RMB'000
As at 1 January	1,102	1,648
Transferred to trade receivables	(849)	(1,188)

Impairment loss recognised for contract assets	<u>(79)</u>	<u>(51)</u>
As at 31 December	<u>1,203</u>	<u>1,102</u>

Notes:

- (a) The contract assets primarily relate to the Group's rights to consideration for goods transferred by the Group to the customers for which the rights to consideration are still conditional upon the customers' satisfaction on the quality of the goods sold which is typically at the expiry date of the assurance-type warranty period, as stipulated in the contracts.

The contract assets are transferred to trade receivables when the rights to consideration become unconditional.

As at 31 December 2023 and 2022, included in contract assets were retention monies receivable from the contract customers amounting to RMB1,389,000 and RMB1,209,000 respectively. The terms and conditions for the release of retention monies by the contract customers vary from contract to contract, which are subject to the customers' satisfaction of quality upon the expiry of the assurance-type warranty period. The retention monies receivable from the contract customers generally represents 5% to 10% of the total consideration of the relevant contracts, that are retained by the contract customers as securities for non-performance protection, and the Group's entitlement to payment of retention monies receivable are conditional upon the contract customers' physical inspection of the quality of the goods at the expiry of the assurance-type warranty period. In the opinion of the directors of the Company, the retention monies retained by the contract customers under the contracts are not intended as a financing arrangement by the Group to the contract customers.

Year ended 31 December 2023

## 15. CONTRACT ASSETS (Continued)

Notes: (Continued)

(b) Impairment assessment of the contract assets

Contract assets are related to the retention monies receivables, which have substantially the same characteristics as the trade receivables for the same types of the contract. The Group's contract customers are mainly with high credit rating and their payment history with the Group are considered to be good. There are no material disputes or claims received from the contract customers of the relevant contracts and the Group considered that there has not been a significant change in credit quality of the contract customers. The Group concluded that the expected loss rates for trade receivables are a reasonable approximation of the rates for contract assets. Since the payment is not due, the expected loss rate of contract assets is assessed to be minimal and accordingly, the net carrying amount of contract assets is still considered fully recoverable at the end of each reporting period. The Group does not hold any collateral as security for the contract assets at the end of each reporting period.

As at 31 December 2023, allowance for contract assets amounting to RMB186,000 (2022: RMB107,000) was provided according to the lifetime expected credit loss rates and provision of impairment loss of RMB79,000 (2022: RMB51,000) was made on contract assets for the year ended 31 December 2023.

## 16. TRADE AND OTHER RECEIVABLES

	2023 RMB'000	2022 RMB'000

## 16. TRADE AND OTHER RECEIVABLES *(Continued)*

The Group determines the provision for impairment of trade and bills receivables on a forward-looking basis and lifetime expected credit losses are recognised from initial recognition of the assets and remeasured at the end of each reporting period.

The provision matrix is determined based on the Group's historical observed bad debt loss rates over the expected life of the trade and bills receivables with similar credit risk characteristics and is adjusted for forward-looking estimates.

Other receivables are considered for 12-month expected credit losses. No provision for 12-month credit losses on the other receivables has been made for the years ended 31 December 2023 and 2022. There was no significant change in credit risk and the default risk was considered as low for the remaining balance of the other receivables.

In making the judgement, management considers available reasonable and supportive forward-looking information such as actual or expected significant changes in operating results and financial positions of the customers, past payment history of the customers, and actual or adverse changes in business, financial or economic conditions that are expected to cause a significant change in the customers' ability to meet their obligations.

At the end of each reporting period, the historical observed bad debt loss rates are updated and changes in the forward-looking estimates are analysed by the Group's management.

### (a) Ageing analysis

An ageing analysis of trade and bills receivables (net of allowance for lifetime expected credit losses), based on the invoice date, is as follows:

	2023 RMB'000	2022 RMB'000
0 – 30 days	6,471	31,323
31 – 90 days	5,374	10,280

Over 365 days	12,507	704
	<u>41,638</u>	<u>50,315</u>

The Group generally granted credit terms to its customers for trade and bills receivables ranging from cash on delivery to 180 days (2022: 180 days) after the invoice date.

Pursuant to the PRC EIT Law, a 10% withholding tax is levied on dividends distributed to foreign investors in respect of profits earned by PRC subsidiaries.

For the Group's PRC subsidiaries, the applicable rate is 10%. Deferred tax liability is provided on earnings that the relevant Group's entities are expected to distribute in the foreseeable future.

In the opinion of the directors of the Group, as at 31 December 2023, it probable that the remaining unremitted earnings (the "Remaining Earnings") of the Group's subsidiaries of approximately RMB23,390,000 (2022: RMB3,780,000) will not be distributed in the foreseeable future and therefore no provision for deferred tax has been made. The estimated withholding tax effect on the distribution of Remaining Earnings was approximately RMB2,339,000 (2022: RMB378,000) at 31 December 2023.

## 21. EMPLOYEE RETIREMENT BENEFITS

Under the stated-managed retirement benefit scheme, the contributions once made by the employer will vest fully with the employees, and no forfeiture could be made by the Group. Accordingly, there is no forfeited contribution available for the Group to reduce its existing level of contributions to the retirement benefit scheme in future years.

The employees of the Group's subsidiary in the PRC are members of a state-managed retirement benefit scheme operated by the government of the PRC. The subsidiary is required to contribute a specified percentage of payroll costs to the retirement benefit scheme to fund the benefits. The only obligation of the Group with respect to the retirement benefit scheme is to make the specified contributions.

The total expenses recognised in profit or loss of RMB606,000 (2022: RMB860,000) for year ended 31 December 2023, representing contributions payable to these plans by the Group at rates specified in the rules of the plans.

The owners of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at meetings of the Company. All ordinary shares rank equally with regard to the Company's residual assets.

### (b) Share premium

The application of share premium account is governed by the Companies Law of the Cayman Islands. Under the Companies Law of the Cayman Islands, the funds in share premium account are distributable to shareholder of the Company provided that immediately the following date, on which the dividend is proposed to be distributed, the Company will be in a position to pay off its debt as they fall due in the ordinary course of business.

### (c) Capital reserve

The Group's capital reserve represented the Company's beneficial owners' contributions for 85.37% of the registered capital of Nantong Meigu which has become an indirect and wholly owned subsidiary of the Company since 16 March 2016.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

## 23. CAPITAL AND RESERVES *(Continued)*

### (d) Property revaluation reserve

The property revaluation reserve comprises the net change in the fair value from net book value at the date when the property, plant and equipment and right-of-use assets changed in use and reclassified as investment property.

On disposal of a revalued asset, the relevant portion of the asset revaluation reserve realised in respect of previous valuations is transferred to retained profits as a movement in reserves.

### (e) Statutory reserve

Pursuant to applicable PRC regulations, the PRC subsidiary in the Group is required to appropriate 10% of its profit after tax to the statutory reserve until such reserve reaches 50% of their registered capital. Transfers to this reserve must be made before distribution of dividends to shareholders. Upon approval by relevant authorities, the statutory reserve can be utilised to offset the accumulated losses or to increase the registered capital of the subsidiary, provided that the balance after such issue is not less than 25% of its registered capital.

### (f) Capital management

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance.

The Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings less relevant pledged bank deposits, and cash and cash equivalents. Total capital is calculated as total equity attributable to owners of the Company as shown in the consolidated statements of financial position plus net debt.

The Group is not subject to any externally imposed capital requirements.

## 24. FINANCIAL RISK MANAGEMENT AND FAIR VALUES OF FINANCIAL INSTRUMENTS

The financial instruments of the Group include contract assets (note 15), trade and other receivables (excluding prepayments) (note 16), pledged bank deposits (note 13), cash and cash equivalents (note 17(a)) and trade and other payables (note 18).

The Group has exposure to credit risk, liquidity risk and currency risk arising from financial instruments. The policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented in a timely and effective manner.

### (a) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group has adopted a policy of only dealing with creditworthy counterparties as a means of mitigating the risk of financial loss from defaults.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

## 24. FINANCIAL RISK MANAGEMENT AND FAIR VALUES OF FINANCIAL INSTRUMENTS *(Continued)*

### (a) Credit risk *(Continued)*

The Group's credit risk is primarily attributable to contract assets, trade and other receivables, cash and cash equivalents and pledged bank deposits. In order to minimise risk, the management has a credit policy in place and the exposures to these credit risks are monitored on an ongoing basis. Credit evaluations of its customers' financial position and condition are performed on each and every major customer periodically. These evaluations focus on the customer's past history of making payments when due and current ability to pay, and take into account information specific to the customer as well as pertaining to the economic environment in which the customer operates. Trade and other receivables are usually due within one year from the date of billing. For debtors with balances past due, further credit would not be granted until all outstanding balances are settled. Normally, the Group does not obtain collateral from its customers.

The Group's cash and cash equivalents and pledged bank deposits are placed with creditworthy banks with high credit ratings and the Group has limited exposure to any of these banks.

In respect of contract assets and trade and other receivables, the Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. Contract assets are substantially the same characteristics as the trade receivables for the same types of contracts. The Group's contract customers are mainly with high credit rating and their payment history with the Group are considered to be good. There are no material disputes or claims received from the contract customers and the Group considered that there has not been a significant change in credit quality of the contract customers. The default risk of the industries and countries in which customers operate also has an influence on credit risk.

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. As at 31 December 2023, 31% (2022: 20%) and 73% (2022: 71%), of the total of trade and bills receivables was due from the Group's largest debtor and the five largest debtors, respectively.

### (a) Credit risk *(Continued)*

In order to determine the expected credit losses for the portfolio of contract assets, trade and other receivables at the end of each reporting period, the Group uses a provision matrix. The provision matrix is based on its historical observed bad debt loss rates, adjusted for forward-looking estimates and market conditions. At the end of each reporting period, the historical observed bad debt loss rates and the forward-looking estimates are updated.

The following table provides information about the Group's exposures to credit risk and ECLs for contract assets and trade and bills receivables as at 31 December 2023 and 2022.

### (b) Liquidity risk

Individual operating entities within the Group are responsible for their own cash management, including the short-term investment of cash surpluses and the raising of loans to cover expected cash demands, subject to each entity's board approval. The Group's policy is to regularly monitor current and expected liquidity requirements to ensure that it maintains sufficient amount of cash to meet its liquidity requirements in the short and longer term.

The following tables set out the remaining contractual maturities at the end of the reporting period of the Group's non-derivative financial liabilities based on contractual undiscounted cash flows (including interest payments computed using contractual rates) and the earliest date the Group can be required to pay.

### (c) Currency risk

#### *Exposure to currency risk*

The Group is exposed to currency risk primarily through sales which give rise to receivables and cash balances that are denominated in a foreign currency, i.e., a currency other than the functional currency of the operations to which the transactions relate. The currencies giving rise to this risk are primarily US\$, which were attributable to sales transactions entered into by the Group with foreign customers.

The following table details the Group's exposure at the end of the reporting period to currency risk arising from recognised assets or liabilities denominated in a currency other than the functional currency of the entity to which it relates. For presentation purposes, the amounts of the exposure are shown in RMB, translated using the spot rate at the end of the reporting period.

#### *Sensitivity analysis*

The following table indicates the instantaneous change in the Group's loss *(2022: profit)* after taxation (and retained profits) that would arise if foreign exchange rates to which the Group has significant exposure at the end of the reporting period had changed at that date, assuming all other risk variables remained constant.

	2023		2022	
	Increase (decrease) in foreign exchange rates	Effect on loss after taxation and retained profits RMB'000	Increase (decrease) in foreign exchange rates	Effect on profit after taxation and retained profits RMB'000
US\$	5% (5%)	(276) 276	5% (5%)	354 (354)

Results of the analysis as presented in the above table represent an aggregation of the instantaneous effects on each of the group entities' loss or profit after taxation and equity measured in the respective functional currencies, translated into RMB at the exchange rate ruling at the end of each reporting period for presentation purposes.

The sensitivity analysis has been determined assuming that the change in foreign exchange rates had been applied to re-measure those financial instruments held by the Group which expose the Group to foreign currency risk at the end of the reporting period. The analysis is performed on the same basis for 2022.

## 25. MATERIAL RELATED PARTY TRANSACTIONS

Saved as those disclosed elsewhere in these consolidated financial statements, the Group has entered into the following material related party transactions in the ordinary course of its business during the reporting period:

### Key management personnel remuneration

Remuneration for key management personnel of the Group, including amounts paid to the directors as disclosed in note 7, certain of the highest paid employees as disclosed in note 8 and senior management, is as follows:

	2023 RMB'000	2022 RMB'000
Short-term employee benefits	2,320	2,398
Post-employment benefits	112	109

## 26. ACCOUNTING JUDGEMENTS AND ESTIMATES

### (a) Critical accounting judgements in applying the Group's accounting policies

In the process of applying the Group's accounting policies, management has made the following accounting judgements:

(i) *Income tax*

The Group is subject to taxation in various jurisdictions. Significant judgement is required in determining the amount of the provision for taxation and the timing of payment of the related taxation. Where the final tax outcome is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the periods in which such determination is made.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Year ended 31 December 2023

## 26. ACCOUNTING JUDGEMENTS AND ESTIMATES *(Continued)*

### (a) Critical accounting judgements in applying the Group's accounting policies *(Continued)*

#### *(ii) Recognition of deferred tax assets*

Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences can be utilised. This requires significant judgement on the tax treatments of certain transactions and also assessment on the probability that adequate future taxable profits will be available for the deferred tax assets to be recovered.

#### *(iii) Deferred tax liabilities for withholding taxes*

Deferred tax liabilities have been established for withholding tax payable on undistributed earnings of a subsidiary in the PRC based on that the directors considered that the undistributed earnings are to be repatriated and distributed by way of dividends. The directors' assessment is constantly reviewed and deferred tax liabilities are adjusted when the results of assessment change.

#### *(iv) Construction in progress*

Construction in progress represents property, plant and machinery on which construction work has not been completed and which, upon completion, management intends to hold for production purposes. The progress of construction works would be continuously monitored and reviewed by directors, and construction in progress is transferred to appropriate categories of property, plant and equipment and is depreciated when substantially all the activities necessary to prepare the assets for their intended use are completed.

### (b) Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of each reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Year ended 31 December 2023

## 26. ACCOUNTING JUDGEMENTS AND ESTIMATES *(Continued)*

### (b) Key sources of estimation uncertainty *(Continued)*

#### (i) *Impairment of contract assets and receivables*

The Group determines the provision for impairment of contract assets, and trade and other receivables on a forward-looking basis. Lifetime ECLs on contract assets, and trade and bills receivables are recognised from initial recognition of the assets. The provision matrix is determined based on the Group's historical observed bad debt loss rates over the expected life of the contract assets, and trade and bills receivables with similar credit risk characteristics and is adjusted for forward looking estimates. Other receivables are considered for 12-month ECLs unless there has been a significant increase in credit risk of the financial instruments since initial recognition, in which case the loss allowance is measured at an amount equal to lifetime ECLs. In making the judgement, management considers available reasonable and supportive forward-looking information such as actual or expected significant changes in operating results and financial positions of the customers, past payment history of the customers, and actual or expected adverse changes in business, financial or economic conditions that are expected to cause a significant change in the customers' ability to settle their trade debts. At the end of each reporting period, the observed historical bad debt loss rates are updated and changes in the forward-looking economic conditions and estimates are analysed by the Group's management. If the ECL rates on the trade receivables between 3 months to 1 year past due had been 1% higher (lower) at the end of the reporting period, with other assumptions held constant, the loss allowance would have been RMB240,000 (2022: RMB43,000) higher (lower).

#### (ii) *Estimated useful lives of property, plant and equipment*

The Group determines the estimated useful lives, residual values and related depreciation charges for the Group's property, plant and equipment. This estimate is based on the historical experience of the actual useful lives and residual values of property, plant and equipment of similar nature and functions. The Group will revise the depreciation charge where useful lives and residual values are different to those previously estimated, or it will write-off or write-down technically obsolete or non-strategic assets that have been abandoned or sold.

#### (iii) *Impairment of property, plant and equipment and right-of-use assets*

The management determines the impairment loss on property, plant and equipment and right-of-use assets if circumstances indicate that the carrying value of an asset may not be recoverable. The carrying amounts of assets are reviewed periodically and where an indicator of impairment appears, in order to assess whether the recoverable amounts have declined below the carrying amounts. These assets are tested for impairment whenever events or changes in circumstances indicate that their recorded carrying amounts may not be recoverable. When such a decline occurred, the carrying amounts reduced to recoverable amount.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Year ended 31 December 2023

## 26. ACCOUNTING JUDGEMENTS AND ESTIMATES *(Continued)*

### (b) Key sources of estimation uncertainty *(Continued)*

#### (iii) *Impairment of property, plant and equipment and right-of-use assets (Continued)*

The recoverable amount is the greater of the fair value less costs of disposal and the VIU. In determining the VIU, expected cash flows generated by the asset are discounted to their present value, which requires significant judgement relating to level of sales volume, sales revenue and amount of operating costs. The Group uses all readily available information in determining an amount that is a reasonable approximation of recoverable amount, including estimates based on reasonable and supportable assumptions and projections of sales volume, sales revenue and amount of operating costs.

#### (iv) *Valuation of inventories*

Inventories are carried at the lower of cost and net realisable value at the end of each reporting period. Net realisable value is determined on the basis of the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale. The management estimates the net realisable value for inventories based primarily on the latest invoice prices, current market conditions, historical experience on selling similar inventories and physical conditions of the inventories. It could change significantly as a result of changes in market conditions. In addition, the management performs an inventory review at the end of each reporting period and assesses the need for write down of inventories.

#### (v) *Product warranty clause*

In some of the sales contracts made between the Group and its customers, there are warranty clauses for the quality of the products, which were sold by the Group and accepted by the customers, for a specified period of time, normally one to two years after the control of the products were transferred to the customers. The assurance type warranty cannot be separately purchased by the customers and it only provides assurance that the products transferred by the Group comply with the agreed-up specifications. The Group considered the facts that there were no significant costs incurred in the past for its sold products during the warranty period after sales and at the reporting period end, the Group was not aware of any events that would cause the Group to incur material amount for the future costs for the purpose of the warranty clause of the sales agreements for those goods sold to the customers.
