#### 業務分析

二零二三年,中國經濟在擺脫新冠疫情的影響後逐漸復甦,但受制於複雜多變的外部經濟和地緣政治環境,以及企業預期和居民消費市場的未完全修復等因素,宏觀經濟和消費市場的復甦速度較為緩慢。經濟前景短期仍面臨挑戰,作為國民經濟的支柱產業,房地產業繼續承壓,國家本年集中於發力促進居民端的政策,過過手,與到地方出台的相關政策共超600條,通過手來整限購、調整認房認質於,調整貸款利率等時,與時人表的金融機構積極研究落實各項政策來重塑房地產市場的整體信心與預期。

#### **BUSINESS ANALYSIS**

The Chinese economy began to recover gradually from the impact of the COVID-19 pandemic breakaway in 2023, however, the pace of macroeconomic and consumer market recovery had been slow, which was hampered by a complicated and changing external economic and geopolitical environment as well as business expectations and consumer confidence not fully restored. The economic outlook still faces short-term challenges. As a pillar industry of the national economy, the real estate sector continued to withstand pressure. During the year, our nation focused on policies aiming at boosting consumerside demand, with over 600 relevant policies introduced from the central government to local levels. These policies are targeted to unleash residential demand and facilitate consumer credit expansion through adjustments in purchase restrictions, property and loan recognitions, and loan interest rates. Simultaneously, financing support policies aimed at risk prevention were also introduced successively, with financial institutions, represented by banks, actively researching and implementing these policies to rebuild overall confidence and expectations in the real estate market.

In facing the current substantial industry changes, the Group has continuously been maintaining its business strategy of seeking progress amidst stability. While paying close attention to international economic and trade exchanges and global economic trends, we closely track industry policies to assess the economic and market situation to withstand industry downturn risks. We progressed steadily and actively in business development in an orderly manner to sustain our corporate development resilience.

For our urban industrial community business, Shanghai Top Spring International Centre (with a GFA of approximately 100,000 sq.m.) actively integrated into the "Innovative Four Forces" (創新四力) and the "1+2+3+4" innovative and modernized industrial system of Yangpu District in Shanghai. In the process of constantly innovating and upgrading within the Da Chuang Zhi Functional Zone (大創智功能區), it focused on attracting and nurturing enterprises related to 100 billion-grade industry clusters such as the "online economy" and "creative design". Shanghai Top Spring International Centre constantly optimized the industrial carrier, services, and ecosystem, leveraging the policies of artificial intelligence and big data (cloud computing) industries and regional resources to proactively empower influential innovative enterprises in the digital economy, artificial intelligence, and new energy vehicles to name a few, incubating and nurturing numerous specialized, refined, special, novel and high-tech enterprises. Companies such as Huawei, Henkel (China), Rox, Tian Yu Eco-Environment and Xiding Technology have successively settled in the Top Spring International Centre, comprehensively enhancing the brand influence, product competitiveness, and enterprise agglomeration of the urban industrial community.

與嘉里建設合作的可建樓面面積約28萬平方呎的元朗十八鄉路及大棠路項目,地基已完成,現正進行上蓋工程,預計將於2025年竣工。位於香港北部都會區內的上水馬適路項目(項目地塊發展面積約14.2萬平方呎)正在進行換地條款及補地價申請,同時亦正向城規會申請將已經批出的5倍地積比提升至6倍。本集團將迎合最新的房屋政策,抓住發展機遇,充分挖掘土地和項目的發展潛力,亦將通過各種渠道積極物色優質項目的投資機會,保持在香港市場的持續投資和發展。

For our urban renewal projects in Mainland China, the Group focused on promoting the Jichengchang project in Longgang District, Shenzhen, and the renovation of old factories in Nansha District, Guangzhou, of which an area of 52.5 mu has been included in the "Guangzhou Annual Urban Redevelopment Planning 2022" (《廣州市 2022 年城市更新項目年度計劃》).

For the development and construction of projects under construction in Mainland China, the Shenzhen Upper Residence, a high-end residential and apartment project with a GFA of approximately 77,800 sq.m. and a total value of approximately RMB2.5 billion launched for sale in late September 2020, underpinned registered sales of approximately RMB1.903 billion as at the end of 2023. Topspring International Mansion and Jianshang Commercial Building in Shenzhen, with a GFA of approximately 101,700 sq.m., are scheduled for sale in the second guarter of 2024. The districts where the aforesaid projects are located have been included in the core urban zones of Shenzhen and are within the boundaries of Hongshan central business district in Longhua District, Shenzhen. The Jianshang Sports Complex (簡上體育綜合體), a surrounding competition-level sports complex, has been fully opened and where the first COSTCO in Southern China has also commenced its operations. As the surrounding areas begin to develop into a cluster for medium- to high-end consumer brands with further improvements in ancillary commercial facilities, the overall value of the project will be further enhanced.

The Group's projects in Hong Kong have also reported sound progress. The launch of the new crystal kitchen design at 128 WATERLOO in Hong Kong has driven sales volume. As of the end of 2023, a total of 61 units had been sold since launching the project and it generated sales of over HK\$1.3 billion, including revenue from sales of parking lots. Customers included celebrities and professionals of the city, while the featured units were enthusiastically sought after.

For Yuen Long Shap Pat Heung Road Project and Tai Tong Road Project with a GFA of approximately 280,000 sq.ft. developed in a joint venture with Kerry Properties, the foundation has been completed and superstructure works are in progress. It is expected to be completed in 2025. The Sheung Shui Ma Sik Road Project (with a site area of approximately 142,000 sq.ft.) within the northern metropolitan area of Hong Kong is in the process of applying for conditions of exchange and land premium payment, while also applying to the Town Planning Board to increase the approved plot ratio from 5 to 6. The Group will align with the latest housing policies, seize development opportunities, fully explore the development potential of the land and the project, and work actively through various channels to identify opportunities for investment in premium projects to ensure continuous investment and development in the Hong Kong market.

In the commercial and property management sector, the commercial real

estate industry in 2023 welcomed a revival in consumer spending in the first

half of the year, followed by a downturn in the second half due to a slower-

than-expected recovery in overall consumer confidence, resulting in significant

market fluctuations. The Group actively implemented various measures to

stabilize the business, attempting to optimize rental income through business

model adjustments amid a challenging market environment. In 2023, Top

Spring Commercial earned itself a place among the "2023 TOP100 Commercial

Property Enterprises – Business Performance". By the end of December, the

overall rental rate of our commercial projects reached 82.5%, with the rental

rate of our Chengdu project reaching 97.4% and rental income growing

#### **MANAGEMENT DISCUSSION AND ANALYSIS**

二零二三年來自本集團銷售物業的收入較二零二二年減少87.1%,乃主要由於香港及深圳之物業及停車位銷售減少所致。

#### 直接成本

直接成本主要部分為已售竣工物業的成本,包括土地出讓金、建設及其他發展成本、施工期間資本化的借貸成本、租金收入成本、物業管理及相關服務成本以及教育相關服務成本。本集團僅會就特定期間內確認的已售竣工物業收入確認有關期間的該等物業成本。

本集團的直接成本由截至二零二二年十二月三十一日止年度約3,072,900,000港元減少至截至二零二三年十二月三十一日止年度約1,208,100,000港元。減少主要是由於截至二零二三年十二月三十一日止年度銷售物業減少所致。

#### 毛利

本集團於截至二零二三年十二月三十一日止年度錄得毛損約253,800,000港元,而截至二零二二年十二月三十一日止年度則為毛利約594,200,000港元。本集團於截至二零二三年十二月三十一日止年度錄得毛損率約26.6%,而於截至二零二二年十二月三十一日止年度則毛利率約為16.2%。有關變動主要由於若干存貨減值。

Revenue from the Group's sales of properties decreased by 87.1% in 2023 as compared with 2022 primarily due to the decrease in sale of properties and car park units in Hong Kong and Shenzhen.

#### **Direct costs**

The Group recognises the cost of completed properties sold for a given period to the extent that revenue from such properties has been recognised in such period.

The Group's direct costs decreased to approximately HK\$1,208.1 million for the year ended 31 December 2023 from approximately HK\$3,072.9 million for the year ended 31 December 2022. #### **Gross loss/profit**

#### 意見

本核數師(以下簡稱「我們」)已審計載列於第 155至280頁的萊蒙國際集團有限公司(「貴公司」)及其附屬公司(「貴集團」)的綜合財務報表,此綜合財務報表包括於二零二三年十二月三十一日的綜合財務狀況表及截至該日止年度的綜合損益表、綜合損益及其他全面收益表、綜合權益變動表及綜合現金流量表,以及附註,包括重大會計政策資料及其他解釋性資料。

我們認為,綜合財務報表已根據香港會計師公會(「香港會計師公會」)頒佈的香港財務報告準則(「香港財務報告準則」)真實公允地反映 貴團於二零二三年十二月三十一日的綜合財務狀況及 貴集團截至該日止年度的綜合財務表現及綜合現金流量,並已按照香港公司條例的披露規定妥為編製。

#### 意見基礎

我們已根據香港會計師公會頒佈的香港審核準則(「香港審核準則」)進行審計。我們根據該等準則承擔的責任已在本報告核數師就審計綜合財務報表承擔的責任一節進一步闡述。根據香港會計師公會的專業會計師道德守則(「守則」),連同開曼群島有關我們審計綜合財務報表的任何道德規定,我們獨立於 貴集團,並已根據該等規定及守則履行其他道德責任。我們相信所獲得的審計憑證能充足及適當地為我們的意見提供基礎。

#### 與持續經營有關之重大不確定因 素

我們提請關注綜合財務報表附註2(b),當中顯 示截至二零二三年十二月三十一日止年度, 貴 集團的物業銷售收入減少至405,500,000港 元(二零二二年:3,139,900,000港元),並 產生淨虧損900,300,000港元(二零二二年: 183,600,000港元)。於二零二三年十二月 三十一日, 貴集團之即期銀行貸款及其他借 貸為3,305,900,000港元,而其現金及現金等 值項目為665,200,000港元。鑑於物業市場發 展普遍放緩及融資環境收緊, 貴集團可能需 較預期更長的時間變現出售物業所得現金,並 可能在獲得額外融資及重續現有銀行融資及借 貸以履行償還貸款責任方面面臨挑戰。該等情 況連同附註2(b)所載之其他事項,表明 貴集 團持續經營的能力存在重大不確定性。我們的 意見未有就此事項作出修訂。

## Independent auditor's report to the shareholders of Top Spring International Holdings Limited

(Incorporated in the Cayman Islands with limited liability)

#### **OPINION**

We have audited the consolidated financial statements of Top Spring International Holdings Limited ("**the Company**") and its subsidiaries ("**the Group**") set out on pages 155 to 280, which comprise the consolidated statement of financial position as at 31 December 2023, the consolidated statement of profit or loss, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated cash flow statement for the year then ended and notes, comprising material accounting policy information and other explanatory information.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2023 and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

#### **BASIS FOR OPINION**

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report. We are independent of the Group in accordance with the HKICPA's *Code of Ethics for Professional Accountants* ("the Code") together with any ethical requirements that are relevant to our audit of the consolidated financial statements in the Cayman Islands, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

# MATERIAL UNCERTAINTY RELATED TO GOING CONCERN

We draw attention to Note 2(b) to the consolidated financial statements, which indicates that for the year ended 31 December 2023, the Group's revenue generated from sales of properties reduced to HK\$405.5 million (2022: HK\$3,139.9 million) and a net loss of HK\$900.3 million (2022: HK\$183.6 million) was incurred. As at 31 December 2023, the Group's current bank loans and other borrowings amounted to HK\$3,305.9 million, while its cash and cash equivalents amounted to HK\$665.2 million. In view of the prevailing slow-down of the property market and the tightening of the financing environment, the Group may take longer time than expected to realise cash from the sale of its properties and may have challenges in securing additional financing and renewal of existing bank facilities and borrowings to meet its loan repayment obligations. These conditions, along with the matters as set forth in Note 2(b) indicates that a material uncertainty exists on the Group's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

釐定該等公允價值涉及管理層的重大判斷及估計,特別是有關選擇適當估值方法、資本化率、市場租金及可比較物業的平均市場價格。The determination of these fair values involves significant management judgement and estimation, particularly in relation to selecting the appropriate valuation methodology, capitalisation rates, market rents and average market price of the comparable properties.

How the matter was addressed in our audit

於二零二三年十二月三十一日,貴集團擁有若干未指定結算日期的應收第三方款項1,138,400,000港元,於綜合財務狀況表分類為透過損益按公允價值入賬(「透過損益按公允價值入賬」)計量的金融資產。於截至二零二三年十二月三十一日止年度,貴集團就上述應收款項確認相關公允價值虧損92,800,000港元。

As at 31 December 2023, the Group had certain receivables from the third party without specified dates of settlement of \$1,138.4 million which were classified as financial assets measured at fair value through profit or loss ("FVPL") in the consolidated statement of financial position. For the year ended 31 December 2023, the Group recognised relevant fair value loss of \$92.8 million, regarding the above receivables.

該等金融資產分類為公允價值等級架構的第三級金融工具。該等金融資產的估值乃源自 大量輸入數據及假設的估值模型,且該等輸 入數據及假設大部分無法自市場數據獲取, 對整體計量而言屬重大。

These financial assets are classified as level 3 financial instruments in the fair value hierarchy. The valuations of these financial assets are derived from valuation models which require a number of inputs and assumptions which are not observable from market data and which are significant to the entire measurement.

由於估值該等金融資產涉及的複雜程度及管理層在釐定估值模式所採用輸入數據時所行使的判斷程度將對 貴集團的財務業績產生重大影響,故我們確定未指定結算日期的應收第三方款項的估值屬關鍵審計事項。

We identified the valuation of receivables from the third party without specified dates of settlement as a key audit matter because of the degree of complexity involved in valuing these financial assets and the degree of judgement exercised by management in determining the inputs used in the valuation models which may have significant impact to the financial results of the Group.

我們就評估未指定結算日期的應收第三方款項的估值進行的審計程序包括以下各項:

Our audit procedures to assess the valuation of receivables from the third party without specified dates of settlement included the following:

- 取得並調查管理層編製的估值;

  - with the assistance of our internal valuation specialists, assessing the valuation methodology adopted in the valuations with reference to the requirements of the prevailing accounting standards and challenging the estimation in future cash flows and discount rates adopted in the valuations;

As at 31 December 2023, goodwill arising from the acquisition of the educated related service in 2018 amounted to \$40.7 million.

管理層每年根據為每一個已獲分配商譽的現金產生單元(「**現金產生單元**」)編製的貼現現金流量預測對商譽進行減值評估。減值評估是由管理層參照管理層委任的外部估值師編製的估值報告進行。

Management performed annual impairment assessment of goodwill based on discounted cash flow forecast prepared for each cashgenerating unit ("**CGU**") to which goodwill is allocated. The impairment assessment is carried out by management with reference to a valuation report prepared by an external valuer appointed by management.

編製貼現現金流量預測涉及管理層作出重大 判斷,特別是在確定合適的短期和長期收入 增長率、利潤率及貼現率方面。

The preparation of discounted cash flow forecasts involves the exercise of significant management judgement, in particular in determining the appropriate short-term and long-term revenue growth rates, profit margin and discount rates.

由於存貨對 貴集團的重要性,以及估計各個存貨的可變現淨值所涉及的固有風險,故我們確定評估存貨的可變現淨值屬關鍵審計事項。

We identified the assessment of net realisable value of Inventories as a key audit matter because of the significance of Inventories to the Group and because of the inherent risks involved in estimating net realisable value for Inventories.

- 參考現行會計準則的要求,評估管理層就評估中國內地已竣工物業的可變現淨值所採納估值方法及外部物業估價師就評估中國內地發展中物業及香港已竣工物業的可變現淨值所採納估值方法的適當性: evaluating the appropriateness of the valuation methodologies adopted by management for assessing the net realisable value of Completed Properties in Chinese Mainland and those adopted by external property valuers for assessing the net realisable value of PUD in Chinese Mainland and Completed Properties in Hong Kong with reference to the requirements of the prevailing accounting standards;
- 以抽樣方式評估估值採納的關鍵估計及假設的合理性,包括與平均淨售價及估計建設成本有關者,方法為將淨售價與市場可得數據及 貴集團維持的銷售預算計劃進行比較,並將估計建設成本與 貴集團最新發展預算及已簽署的建築合同進行比較:
   assessing the reasonableness of the key estimates and assumptions adopted in the valuations, on a sample basis, including those relating to average net selling prices and estimated construction cost, by comparing net selling prices with market available data and the sales budget plans maintained by the Group, and comparing estimated construction cost with the Group's latest development budget and signed construction contracts:
- 將完成各個存貨的估計建設成本與本集團的最新預算進行比較,並 將截至二零二三年十二月三十一日產生的成本與二零二二年十二月 三十一日的預算進行比較,以評估管理層在預測及預算過程的準確性;
  - comparing the estimated construction costs to complete each Inventories with the Group's latest budgets and comparing the costs incurred to 31 December 2023 with budgets as at 31 December 2022 to assess the accuracy of management's forecasting and budgeting process; and
- 檢查管理層進行的敏感性分析,以確定關鍵估計及假設單獨或組合出現何種程度的變化會導致存貨發生重大錯報,並考慮關鍵估計及假設出現此類變動的可能性以及是否存在管理層於選擇時有所偏向的跡象。 inspecting sensitivity analyses prepared by management for the extent of changes in key estimates and assumptions that, either individually or collectively, would be required for Inventories to be materially misstated and considering the likelihood of such a movement in those key estimates and assumptions arising and whether there is any indication of management bias in their selection.

# INFORMATION OTHER THAN THE CONSOLIDATED FINANCIAL STATEMENTS AND OUR AUDITOR'S REPORT THEREON

The directors are responsible for the other information. The other information comprises all the information included in the annual report, other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

# RESPONSIBILITIES OF THE DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The directors are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group's financial reporting process.

#### **AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF** THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

### 核數師就審計綜合財務報表須承 擔的責任(續)

- 評估董事所採用會計政策的恰當性及所 作出會計估計及相關披露的合理性。
- 評估綜合財務報表的整體列報、結構及 內容(包括披露資料),以及綜合財務報 表是否以公平列報方式反映相關交易及 事件。
- 就 貴集團旗下實體或業務活動的財務 資料獲取充足及適當的審計憑證,以就 綜合財務報表發表意見。我們負責指導、 監督及執行 貴集團的審計工作。我們就 審計意見承擔全部責任。

# AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

### 核數師就審計綜合財務報表須承 擔的責任(續)

我們與審核委員會溝通有關(其中包括)審計工作的計劃範圍及時間以及重大審計發現,包括 我們在審計過程中識別的任何內部控制重大缺陷。

我們亦向審核委員會提交聲明,説明我們已遵守有關獨立性的相關道德規定,並與彼等溝通可能被合理認為會影響我們獨立性的所有關係及其他事項以及(倘適用),為消除威脅而採取的行動或防範措施。

從與審核委員會溝通的事項中,我們確定對審計本期綜合財務報表最為重要的該等事項,因而構成關鍵審計事項。我們在核數師報告中描述該等事項,除非法律或法規不允許公開披露該等事項,或在極端罕見的情況下,倘我們合理預期在報告中溝通某事項造成的負面後果超過其產生的公眾利益,則決定不在報告中溝通該事項。

# AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and, where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Ng Yu Hei.

### (b) Basis of preparation of the financial statements

The consolidated financial statements for the year ended 31 December 2023 comprise the Company and its subsidiaries (together referred to as the "**Group**") and the Group's interest in associates and joint ventures.

The measurement basis used in the preparation of the financial statements is the historical cost basis except that the following assets and liabilities are stated at their fair value as explained in the accounting policies set out below:

- investment properties, including interests in leasehold land and buildings held as investment property where the Group is the registered owner of the property interest (see Note 2(i));
- other investments in debt and equity securities (see Note 2(g)).

Non-current assets held for sale are stated at the lower of carrying amount and fair value less costs to sell (see Note 2(aa)).

The preparation of financial statements in conformity with HKFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements made by management in the application of HKFRSs that have significant effect on the financial statements and major sources of estimation uncertainty are discussed in Note 3.

#### 與持續經營有關的重大不確定性

截至二零二三年十二月三十一日止 年度,本集團的物業銷售收入減少 至405,500,000港元(二零二二年: 3,139,900,000港元),並產生淨虧 損900,300,000港元(二零二二年: 183,600,000港元)。於二零二三年 十二月三十一日,本集團之即期銀 行貸款及其他借貸為3,305,900,000 港元,而其現金及現金等值項目為 665,200,000港元。鑑於物業市場發 展普遍放緩及融資環境收緊,本集 團可能需較預期更長的時間變現出 售物業所得現金,並可能在獲得額 外融資及重續現有銀行融資及借貸 以履行償還貸款責任方面面臨挑戰。 該等情況顯示存在重大不確定性, 可能對本集團繼續持續經營之能力 造成重大疑問,故本集團有可能無 法在正常營運過程中變賣資產及清 僧負債。

鑑於該等情況,本公司董事於評估 本集團是否有充足財務資源持續經 營時,已考慮本集團未來的流動資 金及其可用融資來源。董事已審閱 管理層編製的本集團現金流量預測, 其涵蓋自二零二三年十二月三十-日起計至少12個月的期間。本集團 已或將採取若干計劃及措施以減輕 流動資金壓力及改善其財務狀況, 包括但不限於以下各項:

- 本集團將繼續採取措施加快其 發展中物業及已竣工物業的預 售及銷售,並加快收回未償還 銷售所得款項及其他應收款項。
- 管理層正與銀行及一名股東分 別就重續現有銀行融資及借貸 進行磋商。截至該等綜合財務 報表批准日期,本集團已將現 有銀行融資635,000,000港元 重續最少12個月,提取新銀行 貸款846,000,000港元,並已償 還現有銀行貸款799,000,000 港元。
- (iii) 本公司主要股東黃俊康先生已 向本公司發出財務支持函件, 自二零二三年十二月三十一日 起計至少為期十二個月,令本 集團得以在債務到期時應付其 債務,並在無須大幅削減營運 下開展其業務。

#### MATERIAL ACCOUNTING POLICIES (Continued)

#### (b) Basis of preparation of the financial statements (Continued)

#### Material uncertainty related to going concern

For the year ended 31 December 2023, the Group's revenue generated from sales of properties reduced to \$405.5 million (2022: \$3,139.9 million) and a net loss of \$900.3 million (2022: \$183.6 million) was incurred. As at 31 December 2023, the Group's current bank loans and other borrowings amounted to \$3,305.9 million, while its cash and cash equivalents amounted to \$665.2 million. In view of the prevailing slow-down of the property market and the tightening of the financing environment, the Group may take longer time than expected to realise cash from the sale of its properties and may have challenges in securing additional financing and renewal of existing bank facilities and borrowings to meet its loan repayment obligations. These conditions indicate the existence of a material uncertainty which may cast significant doubt on the Group's ability to continue as a going concern and therefore, the Group may be unable to realise its assets and discharge its liabilities in the normal course of business.

In view of these circumstances, the directors of the Company have given consideration to the future liquidity of the Group and its available sources of finance in assessing whether the Group will have sufficient financial resources to continue as a going concern. The directors have reviewed the Group's cash flow projections prepared by management, which covers a period of at least 12 months from 31 December 2023. Certain plans and measures have been or will be taken to mitigate the liquidity pressures and to improve its financial position which include, but not limited to, the following:

- The Group will continue to implement measures to accelerate the pre-sales and sales of its properties under development and completed properties, and speed up the collection of outstanding sales proceeds and other receivables.
- Management is negotiating with the banks and a shareholder for renewal of existing bank facilities and the borrowings respectively. Up to the date of approval of these consolidated financial statements, the Group has renewed the existing bank facilities of \$635 million for at least 12 months, drawn down new bank loans of \$846 million and settled the current bank loans of \$799 million.
- (iii) Mr. Wong Chun Hong, a shareholder of the Company, has issued a letter of financial support to the Company for a period of at least twelve months from 31 December 2023 to make reasonable efforts to enable the Group to meet its liabilities as they fall due and carry on business without a significant curtailment of operations.

(iv) 本集團將繼續採取積極措施以 控制行政成本及節約資本開支。

董事會認為,假設成功實施上述計劃及措施,本集團將有足夠營運運是供資金,並於二三年十二月三十一日起計十二個月內履行其到期的財務責任。因此,董事信納按持續經營基準編製表面當。綜合財務報表屬適當。綜合財務報表屬適當。綜合財務報表面前數表,並無載列倘本集團無法持續經營而可能需作出的調整。

#### (c) 會計政策變動

本集團尚未應用任何在當前會計期間尚未生效的新準則或詮釋。採納該修訂對本集團概無 重大影響。

#### 2 MATERIAL ACCOUNTING POLICIES (Continued)

# (b) Basis of preparation of the financial statements (Continued)

#### Material uncertainty related to going concern (Continued)

(iv) The Group will continue to take active measures to control administrative costs and maintain containment of capital expenditures.

The board of directors are of opinion that, assuming success of the above-mentioned plans and measures, the Group will have sufficient working capital to finance its operations and to meet its financial obligations as and when they fall due within twelve months from 31 December 2023. Accordingly, the directors are satisfied that it is appropriate to prepare the consolidated financial statements on a going concern basis. The consolidated financial statements do not include adjustments that might be necessary should the Group be unable to continue as a going concern.

#### (c) Changes in accounting policies

i) New and amended HKFRSs

The Group has applied the following new and amended HKFRSs issued by the HKICPA to these financial statements for the current accounting period:

#### (c) Changes in accounting policies (Continued)

(ii) New HKICPA guidance on the accounting implications of the abolition of the MPF-LSP offsetting mechanism

In June 2022 the Hong Kong SAR Government (the "Government") gazetted the Hong Kong Employment and Retirement Schemes Legislation (Offsetting Arrangement) (Amendment) Ordinance 2022 (the "Amendment Ordinance"), which will come into effect from 1 May 2025 (the "Transition Date"). Once the Amendment Ordinance takes effect, an employer can no longer use any of the accrued benefits derived from its mandatory contributions to mandatory provident fund ("MPF") scheme to reduce the long service payment ("LSP") in respect of an employee's service from the Transition Date (the abolition of the "offsetting mechanism"). In addition, the LSP in respect of the service before the Transition Date will be calculated based on the employee's monthly salary immediately before the Transition Date and the years of service up to that date. In July 2023, the HKICPA published "Accounting implications of the abolition of the MPF-LSP offsetting mechanism in Hong Kong" that provides accounting guidance relating to the offsetting mechanism and the abolition of the mechanism. There is no material impact by adoption of the guidance to the Group.

#### (d) Subsidiaries and non-controlling interests

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

Intra-group balances and transactions, and any unrealised income and expenses (except for foreign currency transaction gains or losses) arising from intra-group transactions, are eliminated. Unrealised losses resulting from intra-group transactions are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

#### (d) 附屬公司及非控股權益(續)

就各項業務合併而言,本集團可選 擇按公允價值或非控股權益(「非控 股權益1)所佔附屬公司可識別淨資 產之比例來計算非控股權益。非控 股權益納入綜合財務狀況表之權益 項目,與本公司權益股東應佔之權 益分開呈列。非控股權益所佔本集 團之業績,會按照年度損益總額及 全面收益總額在非控股權益與本公 司權益股東之間進行分配,並在綜 合損益表及綜合損益及其他全面收 益表呈列。來自非控股權益持有人 之貸款及該等持有人之其他合約責 任視乎負債之性質,根據附註2(s)或 (t)於綜合財務狀況表中呈列為金融 負債。

本集團於一間附屬公司的權益變動 (並無導致失去控制權)列作權益交 易。

倘本集團失去一間附屬公司的控制權,其會終止確認該附屬公司的資產及負債,以及任何相關非控股權益及權益的其他組成部分。任何因此產生的收益或虧損於損益中確認。於該前附屬公司保留的任何權益於失去控制權時按公允價值計量。

於本公司的財務狀況表內,於一間附屬公司的投資按成本減去減值虧損列賬(參閱附註2(n)),除非該投資被分類為持作出售(或計入被分類為持作出售的出售組別內)(參閱附註2(aa))。

#### 2 MATERIAL ACCOUNTING POLICIES (Continued)

#### (d) Subsidiaries and non-controlling interests (Continued)

For each business combination, the Group can elect to measure any non-controlling interests ("**NCI**") either at fair value or at the NCI's proportionate share of the subsidiary's net identifiable assets. NCI are presented in the consolidated statement of financial position within equity, separately from equity attributable to the equity shareholders of the Company. NCI in the results of the Group are presented on the face of the consolidated statement of profit or loss and the consolidated statement of profit or loss and other comprehensive income as an allocation of the total profit or loss and total comprehensive income for the year between NCI and the equity shareholders of the Company. Loans from holders of NCI and other contractual obligations towards these holders are presented as financial liabilities in the consolidated statement of financial position in accordance with Notes 2(s) or (t) depending on the nature of the liability.

Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

When the Group loses control of a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in that former subsidiary is measured at fair value when control is lost.

In the Company's statement of financial position, an investment in a subsidiary is stated at cost less impairment losses (see Note 2(n)), unless it is classified as held for sale (or included in a disposal group classified as held for sale) (see Note 2(aa)).

聯營公司為本集團或本公司對其擁有重大影響力,但並非單獨或共同控制財務及營運決策的實體。合營企業指本集團或本公司擁有共同控制權的安排,據此,本集團或本公司有權獲取該安排的資產淨值,而非對其資產擁有權利及對其負債承擔責任。

收購業務產生的商譽按成本減累計減值虧損計量,並每年進行減值測試(參閱附註2(n))。

#### 2 MATERIAL ACCOUNTING POLICIES (Continued)

#### (e) Associates and joint ventures

An associate is an entity in which the Group or Company has significant influence, but not control or joint control, over the financial and operating policy decisions. A joint venture is an arrangement in which the Group or Company has joint control, whereby the Group or Company has the rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

An interest in an associate or a joint venture is accounted for using the equity method, unless it is classified as held for sale (or included in a disposal group classified as held for sale) (see Note 2(aa)). They are initially recognized at cost, which includes transaction costs. Subsequently, the consolidated financial statements include the Group's share of the profit or loss and other comprehensive income ("OCI") of those investees, until the date on which significant influence or joint control ceases.

When the Group's share of losses exceeds its interest in the associate or the joint venture, the Group's interest is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the investee. For this purpose, the Group's interest is the carrying amount of the investment under the equity method, together with any other long-term interests that in substance form part of the Group's net investment in the associate or the joint venture (after applying the ECL model to such other long-term interests where applicable (see Note 2(n)(i)).

Unrealised gains arising from transactions with equity-accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent there is no evidence of impairment.

#### (f) Goodwill

Goodwill arising on acquisition of businesses is measured at cost less accumulated impairment losses and is tested annually for impairment (see Note 2(n)).

#### (g) Other investments in debt and equity securities

The Group's policies for investments in securities, other than investments in subsidiaries, associates and joint ventures, are set out below.

Investments in securities are recognised/derecognised on the date the Group commits to purchase/sell the investment. The investments are initially stated at fair value, plus directly attributable transaction costs, except for those investments measured at FVPL for which transaction costs are recognised directly in profit or loss. For an explanation of how the Group determines fair value of financial instruments, see Note 28(g). These investments are subsequently accounted for as follows, depending on their classification.

#### (i) No-equity investments

Non-equity investments are classified into one of the following measurement categories:

- amortised cost, if the investment is held for the collection of contractual cash flows which represent solely payments of principal and interest. Expected credit losses, interest income calculated using the effective interest method (see Note 2(x)(vi)), foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.
- fair value through other comprehensive income (FVOCI) recycling, if the contractual cash flows of the investment comprise solely payments of principal and interest and the investment is held within a business model whose objective is achieved by both the collection of contractual cash flows and sale. Expected credit losses, interest income (calculated using the effective interest method) and foreign exchange gains and losses are recognised in profit or loss and computed in the same manner as if the financial asset was measured at amortised cost. The difference between the fair value and the amortised cost is recognised in OCI. When the investment is derecognised, the amount accumulated in OCI is recycled from equity to profit or loss.
- FVPL if the investment does not meet the criteria for being measured at amortised cost or FVOCI (recycling).
   Changes in the fair value of the investment (including interest) are recognised in profit or loss.

## (ii) Contingent considerations assumed in business combinations

Any contingent consideration assumed in a business combination is measured at fair value at the date of acquisition. If an obligation to pay contingent consideration that meets the definition of a financial instrument is classified as equity, then it is not remeasured and settlement is accounted for within equity. Otherwise, other contingent consideration is remeasured at fair value at each reporting date and subsequent changes in the fair value of the contingent consideration are recognised in profit or loss.

#### (iii) Equity investments

An investment in equity securities is classified as FVPL, unless the investment is not held for trading purposes and on initial recognition the Group makes an irrevocable election to designate the investment at FVOCI (non-recycling) such that subsequent changes in fair value are recognised in OCI. Such elections are made on an instrument-by-instrument basis, but may only be made if the investment meets the definition of equity from the issuer's perspective. If such election is made for a particular investment, at the time of disposal, the amount accumulated in the fair value reserve (non-recycling) is transferred to retained earnings and not recycled through profit or loss. Dividends from an investment in equity securities, irrespective of whether classified as at FVPL or FVOCI, are recognised in profit or loss as other income (see Note 2(x)(v)).

#### (h) Derivative financial instruments

Derivatives are initially measured at fair value. At the end of each reporting period the fair value is remeasured. The gain or loss on remeasurement to fair value is recognised immediately in profit or loss.

#### (i) Investment property

Investment property is initially measured at cost, and subsequently at fair value with changes therein recognised in profit or loss.

Any gain or loss on disposal of an investment property is recognised in profit or loss. Rental income from investment properties is recognised in accordance with Note 2(x)(ii).

#### (j) Property, plant and equipment

The following items of property, plant and equipment are stated at cost less accumulated depreciation (see Note 2(k)) and impairment losses (see Note 2(n)(iii)):

- right-of-use assets arising from leases over leasehold properties where the Group is not the registered owner of the property interest (see Note 2(m)); and
- furniture, fixtures and other equipment.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components).

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss. Any related revaluation surplus is transferred from the revaluation reserve to retained profits and is not reclassified to profit or loss.

#### (k) Depreciation of property, plant and equipment

(i) Ownership and leasehold interests in land and buildings

#### (k) Depreciation of property, plant and equipment

#### (ii) Furniture, fixtures and other equipment

Depreciation is calculated to write off the cost of furniture, fixtures and other equipment, less their estimated residual value, if any, using the straight-line method over their estimated useful lives of 3 to 5 years.

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

#### (I) Intangible assets (other than goodwill)

Expenditure on research activities is recognised in profit or loss as incurred. Development expenditure is capitalised only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable and the Group intends to and has sufficient resources to complete development and to use or sell the resulting asset. Otherwise, it is recognised in profit or loss as incurred. Capitalised development expenditure is subsequently measured at cost less accumulated amortisation any accumulated impairment losses.

Other intangible assets, including patents and trademarks, that are acquired by the Group and have finite useful lives are measured at cost less accumulated amortisation and any accumulated impairment losses (see Note 2(n)(iii)).

Expenditure on internally generated goodwill and brands, is recognised in profit or loss as incurred.

Amortisation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

#### 2 MATERIAL ACCOUNTING POLICIES (Continued)

#### (m) Leased assets

At inception of a contract, the Group assesses whether the contract is, or contains, a lease. This is the case if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to direct the use of the identified asset and to obtain substantially all of the economic benefits from that use.

#### (i) As a lessee

Where the contract contains lease component(s) and non-lease component(s), the Group has elected not to separate non-lease components and accounts for each lease component and any associated non-lease components as a single lease component for all leases.

At the lease commencement date, the Group recognises a right-of-use asset and a lease liability, except for leases that have a short lease term of 12 months or less, and leases of low-value items such as laptops and office furniture. When the Group enters into a lease in respect of a low-value item, the Group decides whether to capitalise the lease on a lease-by-lease basis. If not capitalised, the associated lease payments are recognised in profit or loss on a systematic basis over the lease term.

Where the lease is capitalised, the lease liability is initially recognised at the present value of the lease payments payable over the lease term, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, using a relevant incremental borrowing rate. After initial recognition, the lease liability is measured at amortised cost and interest expense is recognised using the effective interest method. Variable lease payments that do not depend on an index or rate are not included in the measurement of the lease liability, and are charged to profit or loss as incurred.

#### 2 MATERIAL ACCOUNTING POLICIES (Continued)

#### (m) Leased assets (Continued)

#### (i) As a lessee (Continued)

The right-of-use asset recognised when a lease is capitalised is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received. The right-of-use asset is subsequently stated at cost less accumulated depreciation and impairment losses (see Notes 2(k) and 2(n)(iii)), except for the following types of right-of-use asset:

- right-of-use assets that meet the definition of investment property are carried at fair value (see Note 2(i)); and
- right-of-use assets related to interests in leasehold land where the interest in the land is held as inventory are carried at the lower of cost and net realisable value (see Note 2(o)).

Refundable rental deposits are accounted for separately from the right-of-use assets in accordance with the accounting policy applicable to investments in non-equity securities carried at amortised cost (see Notes 2(g)(i), 2(z)(vi) and 2(n)(i)). Any excess of the nominal value over the initial fair value of the deposits is accounted for as additional lease payments made and is included in the cost of right-of-use assets.

The lease liability is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or if the Group changes its assessment of whether it will exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

於綜合財務狀況表中,長期租 賃負債的即期部分被釐定為須 於報告期後十二個月內清償之 合約付款現值。

#### (ii) 作為出租人

倘本集團於和賃初始階段釐定 一項租賃為融資租賃或經營租 賃。倘租賃轉移相關資產的所 有權附帶的絕大部分所有風險 及報酬,該租賃應分類為融資 租賃。倘不屬於該情況,該租 賃被分類為經營租賃。

倘合約包括租賃及非租賃部分, 本集團根據相對獨立的售價基 準將合約代價分配予各部分。 經營租賃產生的租金收入根據 附註2(x)(ii)確認。

倘本集團為中間出租人,經參 考總租約產生的使用權資產, 分租被分類為融資租賃或經營 租賃。倘總租約為短期租賃, 本集團豁免遵守附註2(m)(i)所 載規定,則本集團將分租分類 為經營租賃。

#### (m) Leased assets (Continued)

#### As a lessee (Continued)

The lease liability is also remeasured when there is a lease modification, which means a change in the scope of a lease or the consideration for a lease that is not originally provided for in the lease contract, if such modification is not accounted for as a separate lease. In this case, the lease liability is remeasured based on the revised lease payments and lease term using a revised discount rate at the effective date of the modification.

In the consolidated statement of financial position, the current portion of long-term lease liabilities is determined as the present value of contractual payments that are due to be settled within twelve months after the reporting period.

#### (ii) As a lessor

The Group determines at lease inception whether each lease is a finance lease or an operating lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to the ownership of an underlying assets to the lessee. Otherwise, the lease is classified as an operating lease.

When a contract contains lease and non-lease components, the Group allocates the consideration in the contract to each component on a relative stand-alone selling price basis. The rental income from operating leases is recognised in accordance with Note 2(x)(ii).

When the Group is an intermediate lessor, the sub-leases are classified as a finance lease or as an operating lease with reference to the right-of-use asset arising from the head lease. If the head lease is a short-term lease to which the Group applies the exemption described in Note 2(m)(i), then the Group classifies the sub-lease as an operating lease.

#### (n) Credit losses and impairment of assets

Credit losses from financial instruments and lease receivables

The Group recognises a loss allowance for expected credit losses ("ECLs") on:

- financial assets measured at amortised cost (including cash and cash equivalents, restricted and pledged deposits, trade receivables and other receivables, including those loans to associates that are held for the collection of contractual cash flows which represent solely payments of principal and interest); and
- lease receivables

#### Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Generally, credit losses are measured as the present value of all expected cash shortfalls between the contractual and expected amounts.

The expected cash shortfalls are discounted using the following rates if the effect is material:

- fixed-rate financial assets and trade and other receivables: effective interest rate determined at initial recognition or an approximation thereof;
- variable-rate financial assets: current effective interest rate; and
- lease receivables: discount rate used in the measurement of the lease receivable.

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

- (n) Credit losses and impairment of assets (Continued)
  - Credit losses from financial instruments and lease receivables (Continued)

Measurement of ECLs (Continued)

ECLs are measured on either of the following bases:

- 12-month ECLs: these are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months); and
- lifetime ECLs: these are the ECLs that result from all possible default events over the expected lives of the items to which the ECL model applies.

The Group measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-months ECLs:

- financial instruments that are determined to have low credit risk at the reporting date; and
- other financial instruments (including loan commitments issued) for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for trade receivables are always measured at an amount equal to lifetime ECLs.

Significant increases in credit risk

When determining whether the credit risk of a financial instrument has increased significantly since initial recognition and when measuring ECLs, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment, that includes forward-looking information.

The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 1 year past due.

ECLs are remeasured at each reporting date to reflect changes in the financial instrument's credit risk since initial recognition. Any change in the ECL amount is recognised as an impairment gain or loss in profit or loss. The Group recognises an impairment gain or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in non-equity securities that are measured at FVOCI (recycling), for which the loss allowance is recognised in OCI and accumulated in the fair value reserve (recycling) does not reduce the carrying amount of the financial asset in the statement of financial position.

#### (n) Credit losses and impairment of assets (Continued)

(i) Credit losses from financial instruments and lease receivables (Continued)

Credit-impaired financial assets

At each reporting date, the Group assesses whether a financial asset is credit-impaired. A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable events:

- significant financial difficulties of the debtor;
- a breach of contract, such as a default or past due event;
- the restructuring of a loan or advance by the Group on terms that the Group would not consider otherwise;
- it is probable that the debtor will enter bankruptcy or other financial reorganisation;
- the disappearance of an active market for a security because of financial difficulties of the issuer.

#### Write-off policy

The gross carrying amount of a financial asset or lease receivable is written off to the extent that there is no realistic prospect of recovery. This is generally the case when the Group otherwise determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off.

Subsequent recoveries of an asset that was previously written off are recognised as a reversal of impairment in profit or loss in the period in which the recovery occurs.

#### (ii) 已發出財務擔保的信用虧損

財務擔保指要求發行人(即擔保人)於特定債務人未能依照 債務工具條款按期付款時,作 出特定付款以補償擔保受益人 (「持有人」)損失的合約。

初步確認為遞延收益的擔保款額,其後在擔保年期內以收益於損益內攤銷。

就有關擔保而言,倘財務擔保 的預期信用虧損釐定為高賬面 值,則本集團會監控特定債務 人違約的風險並按較高金額重 新計量上述負債。

本集團使用12個月預期信用虧損計量,除非特定債務人違約的風險自發出擔保以來顯著上升,於此情況下,則使用全期預期信用虧損計量。誠如附註2(n)(i)所述,違約的定義及信用風險大幅上升的評估應用相同標準。

#### 2 MATERIAL ACCOUNTING POLICIES (Continued)

## (n) Credit losses and impairment of assets (Continued)

#### (ii) Credit losses from financial guarantees issued

Financial guarantees are contracts that require the issuer (i.e. the guarantor) to make specified payments to reimburse the beneficiary of the guarantee (the "holder") for a loss the holder incurs because a specified debtor fails to make payment when due in accordance with the terms of a debt instrument.

Financial guarantees issued are initially recognised at fair value, which is determined by reference to fees charged in an arm's length transaction for similar services, when such information is obtainable, or to interest rate differentials, by comparing the actual rates charged by lenders when the guarantee is made available with the estimated rates that lenders would have charged, had the guarantees not been available, where reliable estimates of such information can be made. Where consideration is received or receivable for the issuance of the guarantee, the consideration is recognised in accordance with the Group's policies applicable to that category of asset. Where no such consideration is received or receivable, an immediate expense is recognised in profit or loss.

The amount initially recognised as deferred income is subsequently amortised in profit or loss over the term of the guarantee as income.

The Group monitors the risk that the specified debtor will default on the contract and remeasures the above liability at a higher amount when ECLs on the financial guarantees are determined to be higher than the carrying amount in respect of the guarantees.

A 12-month ECL is measured unless the risk that the specified debtor will default has increased significantly since the guarantee is issued, in which case a lifetime ECL is measured. The same definition of default and the same assessment of significant increase in credit risk as described in Note 2(n)(i) apply.

於各報告日期,集團審閱其非 金融資產(按重估金額列賬的 物業、投資物業、存貨及其他 合約成本、合約資產及遞延税 項資產除外)的賬面值,以確 定是否存在任何減值跡象。倘 若存在有關跡象,則估計資產 的可收回金額。商譽每年進行 減值測試。

為進行減值測試,資產被集合 為最小資產組合,該資產組合 從持續使用中產生現金流入, 且大致上獨立於其他資產或現 金產生單位(「現金產生單位」) 的現金流入。業務合併所產生 的商譽分配至預期於合併協同 效應中獲益的現金產生單位或 現金產生單位組別。

倘資產或現金產生單位的賬面 值超過其可收回金額,則確認 減值虧損。

## MATERIAL ACCOUNTING POLICIES (Continued)

### (n) Credit losses and impairment of assets (Continued)

### (ii) Credit losses from financial guarantees issued (Continued)

As the Group is required to make payments only in the event of a default by the specified debtor in accordance with the terms of the instrument that is guaranteed, an ECL is estimated based on the expected payments to reimburse the holder for a credit loss that it incurs less any amount that the Group expects to receive from the holder of the guarantee, the specified debtor or any other party. The amount is then discounted using the current risk-free rate adjusted for risks specific to the cash flows.

#### (iii) Impairment of other non-current assets

At each reporting date, the Group reviews the carrying amounts of its non-financial assets (other than property carried at revalued amounts, investment property, inventories and other contract costs, contract assets and deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Goodwill is tested annually for impairment.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or cash-generating units ("CGUs"). Goodwill arising from a business combination is allocated to CGUs or groups of CGUs that are expected to benefit from the synergies of the combination.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs of disposal. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount.

#### 2 MATERIAL ACCOUNTING POLICIES (Continued)

#### (n) Credit losses and impairment of assets (Continued)

#### (iii) Impairment of other non-current assets (Continued)

Impairment losses are recognised in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the resulting carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

#### (iv) Interim financial reporting and impairment

Under the Listing Rules, the Group is required to prepare an interim financial report in compliance with HKAS 34, *Interim financial reporting*, in respect of the first six months of the financial year. At the end of the interim period, the Group applies the same impairment testing, recognition, and reversal criteria as it would at the end of the financial year (see Notes 2(n)(i) and (iii)).

#### (o) Inventories and other contract costs

#### (i) Inventories

Inventories are measured at the lower of cost and net realisable value as follows:

Leasehold land held for development for sale

The cost of leasehold land, which is held for development for sale, represents the cost of acquisition and the premium, if any, payable to the relevant government authorities. Net realisable value is determined by reference to management estimates based on prevailing market conditions.

#### (i) Inventories (Continued)

#### Properties

Cost of properties comprises specifically identified cost, including the acquisition cost of interests in freehold and leasehold land, aggregate cost of development, materials and supplies, wages and other direct expenses, an appropriate proportion of overheads and borrowing costs capitalised (see Note 2(z)) and any other costs incurred in bringing the properties to their present location and condition. In the case of properties developed by the Group which comprise of multiple units to be sold individually, the cost of each unit is determined by apportionment of the total development costs for that development project to each unit on a per square foot basis, unless another basis is more representative of the cost of the specific unit.

Net realisable value represents the estimated selling price less any estimated costs of completion and costs to be incurred in selling the property.

#### Low value consumables and supplies

Cost is determined using the weighted average method. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs necessary to make the sale.

#### (ii) Other contract costs

Other contract costs are either the incremental costs of obtaining a contract with a customer or the costs to fulfil a contract with a customer which are not capitalised as inventory (see Note 2(o)(i)), property, plant and equipment (see Note 2(j)) or intangible assets (see Note 2(l)).

Incremental costs of obtaining a contract, e.g. sales commissions, are capitalised if the costs relate to revenue which will be recognised in a future reporting period and the costs are expected to be recovered. Other costs of obtaining a contract are expensed when incurred.

#### 2 MATERIAL ACCOUNTING POLICIES (Continued)

#### (o) Inventories and other contract costs (Continued)

#### (ii) Other contract costs (Continued)

Costs to fulfil a contract are capitalised if the costs relate directly to an existing contract or to a specifically identifiable anticipated contract; generate or enhance resources that will be used to provide goods or services in the future; and are expected to be recovered. Otherwise, costs of fulfilling a contract, which are not capitalised as inventory, property, plant and equipment or intangible assets, are expensed as incurred.

Capitalised contract costs are stated at cost less accumulated amortisation and impairment losses. Amortisation of capitalised contract costs is recognised in profit or loss when the revenue to which the asset relates is recognised (see Note 2(x)).

#### (p) Contract liabilities

A contract liability is recognised when the customer pays non-refundable consideration before the Group recognises the related revenue (see Note 2(x)). A contract liability is also recognised if the Group has an unconditional right to receive non-refundable consideration before the Group recognises the related revenue. In such latter cases, a corresponding receivable is also recognised (see Note 2(q)).

When the contract includes a significant financing component, the contract balance includes interest accrued under the effective interest method (see Note 2(x)).

#### (g) Trade and other receivables

A receivable is recognised when the Group has an unconditional right to receive consideration and only the passage of time is required before payment of that consideration is due.

Trade receivables that do not contain a significant financing component are initially measured at their transaction price. Trade receivables that contain a significant financing component and other receivables are initially measured at fair value plus transaction costs. All receivables are subsequently stated at amortised cost (see Note 2(n)(i)).

## (r) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions, and other short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are also included as a component of cash and cash equivalents for the purpose of the consolidated cash flow statement. Cash and cash equivalents are assessed for ECL (see Note 2(n)(i)).

### (s) Trade and other payables

Trade and other payables are initially recognised at fair value. Subsequent to initial recognition, trade and other payables are stated at amortised cost unless the effect of discounting would be immaterial, in which case they are stated at invoice amounts.

#### (t) Interest-bearing borrowings

Interest-bearing borrowings are measured initially at fair value less transaction costs. Subsequently, these borrowings are stated at amortised cost using the effective interest method. Interest expense is recognised in accordance with Note 2(z).

#### (u) Employee benefits

(i) Short-term employee benefits and contributions to defined contribution retirement plans

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Obligations for contributions to defined contribution retirement plans are expensed as the related service is provided.

Contributions to Mandatory Provident Funds as required under the Hong Kong Mandatory Provident Fund Schemes Ordinance, are recognised as an expense in profit or loss as incurred.

#### 2 MATERIAL ACCOUNTING POLICIES (Continued)

#### (u) Employee benefits (Continued)

(i) Short-term employee benefits and contributions to defined contribution retirement plans (Continued)

The employees of the Group participate in retirement plans (defined contribution retirement plans) managed by respective local governments of the municipalities in which the Group operates in Chinese Mainland. The contribution to the retirement plan is calculated based on fixed rates of the employees' salaries cost and charged to profit or loss as and when incurred, except to the extent that they are included in the cost of inventories not yet recognised as an expense. The Group has no other obligation for the payment of retirement and other post-retirement benefits of staff other than the contributions described above.

#### (ii) Share-based payments

The grant-date fair value of equity-settled share-based payments granted to employees is measured using the binomial lattice model. The amount is generally recognised as an expense, with a corresponding increase in equity, over the vesting period of the awards. The amount recognised as an expense is adjusted to reflect the number of awards for which the related service conditions are expected to be met, such that the amount ultimately recognised is based on the number of awards that meet the related service conditions at the vesting date.

#### (v) Income tax

Income tax expense comprises current tax and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in OCI.

Current tax comprises the estimated tax payable or receivable on the taxable income or loss for the year and any adjustments to the tax payable or receivable in respect of previous years. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects any uncertainty related to income taxes. It is measured using tax rates enacted or substantively enacted at the reporting date. Current tax also includes any tax arising from dividends.

Current tax assets and liabilities are offset only if certain criteria are met.

#### 2 MATERIAL ACCOUNTING POLICIES (Continued)

#### (v) Income tax (Continued)

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences;
- temporary differences related to investment in subsidiaries, associates and joint venture to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future:
- taxable temporary differences arising on the initial recognition of goodwill; and
- those related to the income taxes arising from tax laws enacted or substantively enacted to implement the Pillar Two model rules published by the Organisation for Economic Co-operation and Development.

The Group recognised deferred tax assets and deferred tax liabilities separately in relation to its lease liabilities and right-of-use assets.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on the reversal of relevant taxable temporary differences. If the amount of taxable temporary differences is insufficient to recognise a deferred tax asset in full, then future taxable profits, adjusted for reversals of existing temporary differences, are considered, based on the business plans for individual subsidiaries in the Group. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

#### 2 MATERIAL ACCOUNTING POLICIES (Continued)

#### (v) Income tax (Continued)

Where investment properties are carried at their fair value in accordance with Note 2(i), the amount of deferred tax recognised is measured using the tax rates that would apply on sale of those assets at their carrying value at the reporting date, unless the property is depreciable and is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the property over time, rather than through sale. In all other cases, the measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if certain criteria are met

#### (w) Provisions and contingent liabilities

Generally provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessment of the time value of money and the risks specific to the liability.

A provision for warranties is recognised when the underlying products or services are sold, based on historical warranty data and a weighting of possible outcomes against their associated probabilities.

A provision for onerous contracts is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract, which is determined based on the incremental costs of fulfilling the obligation under that contract and an allocation of other costs directly related to fulfilling that contract. Before a provision is established, the Group recognises any impairment loss on the assets associated with that contract (see Note 2(n)(iii)).

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

## 2 MATERIAL ACCOUNTING POLICIES (Continued)

### (w) Provisions and contingent liabilities (Continued)

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, a separate asset is recognised for any expected reimbursement that would be virtually certain. The amount recognised for the reimbursement is limited to the carrying amount of the provision.

#### (x) Revenue and other income

Income is classified by the Group as revenue when it arises from the sale of properties, the provision of services or the use by others of the Group's assets under leases in the ordinary course of the Group's business.

Further details of the Group's revenue and other income recognition policies are as follows:

#### (i) Revenue from contracts with customers

The Group is the principal for its revenue transactions and recognises revenue on a gross basis. In determining whether the Group acts as a principal or as an agent, it considers whether it obtains control of the products before they are transferred to the customers. Control refers to the Group's ability to direct the use of and obtain substantially all of the remaining benefits from the products.

Revenue is recognised when control over a product or service is transferred to the customer at the amount of promised consideration to which the Group is expected to be entitled, excluding those amounts collected on behalf of third parties such as value added tax or other sales taxes and is after deduction of any trade discounts.

(a) Sale of properties

Revenue arising from the sale of properties developed for sale in the ordinary course of business is recognised when property is delivered to customers in Chinese Mainland or when legal assignment is completed in Hong Kong, which are the point in time when the customer has the ability to direct the use of the property and obtain substantially all of the remaining benefits of the property.

Advanced payments received on properties and prior to the date of revenue recognition are included in the statement of financial position as contract liabilities (see Note 2(p)).

To the extend that the advance payments from customer are regarded as providing a significant financing benefit to the Group, revenue recognised under that contract includes accreted on the contract liability under the effective interest method during the period between the payment date and the date of delivery of property in Chinese Mainland or the completion date of legal assignment in Hong Kong. The discount rate applied is reflective of the rate in a separate financing transaction between the Group and the customer at contract inception. The interest is expensed as accrued unless it is eligible to be capitalised under HKAS 23, *Borrowing costs*, in accordance with Note 2(z).

(b) Property management and related services income

Property management and related services income is recognised when services are provided.

(c) Education related services income

Education related services income is recognised when services are provided.

- The Group has recognised the incremental costs of obtaining contracts relating to the sale of completed properties and services as an expense when incurred in accordance with paragraph 94 of HKFRS 15, as the amortisation period of the assets that the Group otherwise would have recognised is within the same reporting period as the date of entering into the contract.

#### (x) Revenue and other income (Continued)

#### (ii) Revenue from other sources and other income

#### (a) Rental income from operating leases

Rental income from operating leases is recognised in profit or loss on a straight-line basis over the term of the lease. Lease incentives granted are recognised as an integral part of the total rental income, over the term of the lease. Variable lease payments that do not depend on an index or a rate are recognised as income in the accounting period in which they are earned.

#### (b) Dividends

Dividend income is recognised in profit or loss on the date on which the Group's right to receive payment is established.

#### (c) Interest income

Interest income is recognised using the effective interest method. The "effective interest rate" is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of the financial asset. In calculating interest income, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired). However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

### (e) Government grants

Government grants are recognised in the statement of financial position initially when there is reasonable assurance that they will be received and that the Group will comply with the conditions attaching to them. Grants that compensate the Group for expenses incurred are recognised as income in profit or loss on a systematic basis in the same periods in which the expenses are incurred.

## (y) Translation of foreign currencies

Transactions in foreign currencies are translated into the respective functional currencies of group companies at the exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rates at the date of transaction. Foreign currency differences are generally recognised in profit or loss.

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated into Hong Kong dollars at the exchange rates at the reporting date. The income and expenses of foreign operations are translated into Hong Kong dollars at the exchange rates at the dates of the transactions.

Foreign currency differences are recognised in OCI and accumulated in the exchange reserve, except to the extent that the translation difference is allocated to NCI.

#### 2 MATERIAL ACCOUNTING POLICIES (Continued)

### (y) Translation of foreign currencies (Continued)

When a foreign operation is disposed of in its entirety or partially such that control, significant influence or joint control is lost, the cumulative amount in the exchange reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal. On disposal of a subsidiary that includes a foreign operation, the cumulative amount of the exchange differences relating to that foreign operation that have been attributed to the NCI shall be derecognised, but shall not be reclassified to profit or loss. If the Group disposes of part of its interest in a subsidiary but retains control, then the relevant proportion of the cumulative amount is reattributed to NCI. When the Group disposes of only part of an associate or joint venture while retaining significant influence or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

### (z) Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset which necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of that asset. Other borrowing costs are expensed in the period in which they are incurred.

#### (aa) Non-current assets held for sale

Non-current assets, or disposal group comprising assets and liabilities, are classified as held for sale if it is highly probable that they will be recovered primarily through sale rather than through continuing use.

Such assets, or disposal groups, are generally measured at the lower of their carrying amount and fair value less costs to sell. Any impairment loss on a disposal group is allocated first to goodwill, and then to the remaining assets and liabilities on a prorata basis, except that no loss is allocated to deferred tax assets, employee benefits assets, financial assets (other than investments in subsidiaries, associates and joint ventures) and investment properties, which continue to be measured in accordance with the Group's other accounting policies. Impairment losses on initial classification as held for sale or held for distribution and subsequent gains and losses on remeasurement are recognised in profit or loss.

Once classified as held for sale, intangible assets and property, plant and equipment are no longer amortised or depreciated, and any equity-accounted investee is no longer equity accounted.

管理層於依賴估值報告時已作出判 斷,並信納該估值方法已反映當前 市況。

#### (cc) Segment reporting

Operating segments, and the amounts of each segment item reported in the financial statements, are identified from the financial information provided regularly to the Group's most senior executive management for the purposes of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

#### 3 ACCOUNTING JUDGEMENT AND ESTIMATES

Other than those disclosed elsewhere in these financial statements, the key sources of estimation uncertainty and critical accounting judgements in applying the Group's accounting policies are described below.

#### (a) Valuation of investment properties

As described in Note 12, investment properties are stated at fair value based on the valuation performed by an independent firm of professional valuers.

In determining the fair value of investment properties, the valuers have based on a method of valuation which involves, *inter alia*, certain estimates including current market rents and market price for similar properties in the same location, and condition, appropriate discount rates and expected future market rents.

In relying on the valuation report, management has exercised their judgement and is satisfied that the method of valuation is reflective of the current market conditions.

### (b) 應收第三方款項的評估

誠如附註17及29(g)所述,應收第三方款項以公允價值計量且計入損益,並於公允價值等級中分類為第3級金融工具。

#### (c) 非流動資產減值

#### (d) 中國土地增值税撥備

誠如附註8(a)所述,本集團已根據相 關中國税務法律法規所載規定,估 計、作出及在税項內計入中國土地 增值税撥備。實際的中國土地增值 税負債須待物業開發項目完工後, 由税務當局釐定,而税務當局可能 不同意本集團計算中國土地增值稅 撥備的基準。由於中國土地增值稅 撥備視乎最終税額計算而定,故釐 定撥備水平時須作出重大判斷。鑑 於當地税務局所詮釋的中國土地增 值税計算基準並不確定,實際結果 可能會高於或低於報告期末所估計 者。實際結果/估計的任何增減均 會影響作出有關計算期間的所得税 撥備。

## 3 ACCOUNTING JUDGEMENT AND ESTIMATES

(Continued)

#### (b) Valuation of receivables from the third parties

As described in Notes 17 and 29(g), receivables from the third parties are measured at FVPL and classified as level 3 financial instruments in the fair value hierarchy.

In determining the fair value of receivables from the third parties, the Group has based on valuation models which require a number of inputs and assumptions which are not observable from market data and are significant to the entire measurement. Management has exercised their judgement and is satisfied that valuation models are reflective of the features of receivables from the third parties. Given the uncertainties in determining the inputs used in the valuation models, the estimated fair value may change at the end of each reporting period. Any increase or decrease in estimates would affect income statement in the future years.

### (c) Impairment of non-current assets

If circumstances indicate that the carrying amounts of property, plant and equipment, intangible assets, interest in associates and joint ventures and goodwill may not be recoverable, the assets may be considered impaired and are tested for impairment. An impairment loss is recognised when the asset's recoverable amount has declined below its carrying amount. The recoverable amount is the greater of the fair value less costs to sell and value in use. In determining the recoverable amount which requires significant judgements, the Group estimates the future cash flows to be derived from continuing use and ultimate disposal of the asset and applies an appropriate discount rate to these future cash flows.

#### (d) Provision for PRC LAT

As explained in Note 8(a), the Group has estimated, made and included in tax provision for PRC LAT according to the requirements set forth in the relevant PRC tax laws and regulations. The actual PRC LAT liabilities are subject to the determination by the tax authorities upon completion of the property development projects and the tax authorities might disagree with the basis on which the provision for PRC LAT is calculated. Significant judgment is required in determining the level of provision, as the calculation of which depends on the ultimate tax determination. Given the uncertainties of the calculation basis of PRC LAT as interpreted by the local tax bureau, the actual outcomes may be higher or lower than those estimated at the end of the reporting period. Any increase or decrease in the actual outcomes/estimates will impact the income tax provision in the period in which such determination is made.

## 3 會計判斷及估計(續)

## (e) 遞延税項負債

本集團已向第三方租出若干已完成物業,據此董事認為該等安排並非臨時性安排。有鑑於此,本集團決定將該等物業視為投資物業,乃因本集團擬將該等物業用作長期租金收入及/或資本升值。

## 3 ACCOUNTING JUDGEMENT AND ESTIMATES

(Continued)

#### (e) Deferred tax liabilities

The Group has leased out certain of the completed properties to third parties whereby the directors consider that such arrangement is not temporary. In the circumstance, the Group has decided to treat those properties as investment properties because it is the Group's intention to hold these properties in long-term for rental income and/or capital appreciation.

Under HKAS 12, deferred tax is required to be measured with reference to the tax consequences that would follow the manner in which the entity expects to recover the carrying amount of the assets in question. In this regard, HKAS 12 has a rebuttable presumption that the carrying amount of investment property carried at fair value under HKAS 40, *Investment property*, will be recovered through sale. This presumption is rebutted on a property-by-property basis if the investment property in question is depreciable and is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale.

In this connection, the Group has reviewed its investment property portfolio on a regular basis and has concluded that as at 31 December 2023, the Group has determined that each of these properties are held within a business model whose objective is to consume substantially all of the economic benefits embodied in the investment property over time and consequently the presumption in HKAS 12 is rebutted for these properties. As a result, the Group has continued to measure the deferred tax relating to these other properties using the tax rate that would apply as a result of recovering their value through use.

## (f) 確認遞延税項資產

遞延税項資產按報告期末已頒佈或 實質頒佈的税率,根據預期變現或 結算資產賬面值的方式確認及計量。 釐定號延稅項資產賬面值時,預期 應課税利潤的估計涉及多項有關本 集團經營環境的假設,需要董事行 使重大程度的判斷。該等假設及判 斷的任何變動將影響將予確認的遞 延税項資產賬面值,從而影響未來 年度淨利。

### (q) 釐定存貨價值減少的撥備

誠如附註2(o)所釋,本集團未來待 開發土地、在建物業及待售已完工 物業按成本與可變現淨值兩者中的 較低數額列賬。根據本集團近期經 驗及有關物業的性質,本集團就售 價、在建物業的竣工成本及出售該 物業將引致的成本作出估計。

倘竣工成本增加或淨銷售額減少, 則可能導致須就待售已完工物業、 未來待開發物業及待售在建物業作 出撥備。該等撥備需要運用判斷及 估計。倘預期異於最初估計,則該 等物業的賬面值及撥備於有關估計 變動期間將相應予以調整。

鑑於中國內地物業市場波動及個別 物業獨特性質使然,成本及收益的 實際結果可能會高於或低於報告期 末所估計者。撥備的任何增減均會 影響未來年度的損益。

## **ACCOUNTING JUDGEMENT AND ESTIMATES**

(Continued)

## (f) Recognition of deferred tax assets

Deferred tax assets are recognised and measured based on the expected manner of realisation or settlement of the carrying amount of the assets, using tax rates enacted or substantively enacted at the end of the reporting period. In determining the carrying amounts of deferred tax assets, expected taxable profits are estimated which involves a number of assumptions relating to the operating environment of the Group and require a significant level of judgment exercised by the directors. Any change in such assumptions and judgment would affect the carrying amounts of deferred tax assets to be recognised and hence the net profit in future years.

### (g) Determining the provision for diminution in value of inventories

As explained in Note 2(o), the Group's land held for future development, properties under development and completed properties held for sale are stated at the lower of cost and net realisable value. Based on the Group's recent experience and the nature of the subject property, the Group makes estimates of the selling price, the costs of completion in case for properties under development, and the costs to be incurred in selling the properties.

If there is an increase in costs to completion or a decrease in net sales value, provision for completed properties held for sale, properties held for future development and under development for sale may be resulted. Such provision requires the use of judgment and estimates. Where the expectation is different from the original estimate, the carrying value and provision for properties in the periods in which such estimate is changed will be adjusted accordingly.

Given the volatility of the property market in Chinese Mainland and the distinctive nature of individual properties, the actual outcomes in terms of costs and revenue may be higher or lower than estimated at the end of the reporting period. Any increase or decrease in the provision would affect profit or loss in future years.

The Group will recognise the expected revenue in future when or as the work is completed or, in the case of the properties under development for sale and completed properties for sale, when the properties are assigned to the customers, which is expected to occur over the next 12 months to 36 months.

The Group has applied the practical expedient in paragraph 121(a) of HKFRS 15 to its property management and related services and education related services such that the above information does not include information about revenue that the Group will be entitled to when it satisfies the remaining performance obligations under the contracts for property management and related services and education related services that had an original expected duration of one year of

#### (b) Segment reporting

The Group manages its businesses by divisions, which are organised by a mixture of both business lines (products and services) and geography. In a manner consistent with the way in which information is reported internally to the Group's most senior executive management for the purposes of resource allocation and performance assessment, the Group has presented the following four reportable segments. No operating segments have been aggregated to form the following reportable segment:

- Property development: this segment develops and sells residential and commercial properties.
- Property investment: this segment leases shopping arcades, club houses, serviced apartments and car park units to generate rental income and to gain from the appreciation in the properties' values in the long term. Currently, the Group's investment property portfolio is located entirely in Chinese Mainland and Hong Kong.
- Property management and related services: this segment mainly provides property management and related services to purchasers and tenants of the Group's self-developed residential and retail properties and decoration services to group companies.

### Segment results, assets and liabilities (Continued)

Revenue and expenses are allocated to the reportable segments with reference to revenues generated by those segments and the expenses incurred by those segments.

The measure used for reporting segment profit is "adjusted EBITDA" i.e. "adjusted earnings before interest, taxes, depreciation and amortisation". To arrive at adjusted EBITDA, the Group's earnings are further adjusted for items which are non-recurring or not specifically attributed to individual segments, such as share of profits less losses of associates and joint ventures, other revenue and net income, valuation change on investment properties and investment properties classified as held for sale, impairment loss on trade and other receivables and other head office or corporate expenses..

Disaggregation of revenue from contracts with customers, revenue from other sources as well as information regarding the Group's reportable segments as provided to the Group's most senior executive management for the purposes of resource allocation and assessment of segment performance for the years ended 31 December 2023 and 2022 is set out below.

#### **INCOME TAX** (Continued)

## (a) (Continued)

Pursuant to the rules and regulations of the British Virgin Islands ("BVI") and the Cayman Islands, the Group is not subject to any income tax in the BVI and the Cayman Islands.

The provision for Hong Kong Profits Tax for 2023 is calculated at 16.5% (2022: 16.5%) of the estimated assessable profits for the year, except for one subsidiary of the Group which is a qualifying corporation under the two-tiered Profits Tax rate regime. For this subsidiary, the first HK\$2 million of assessable profits are taxed at 8.25% and the remaining assessable profits are taxed at 16.5%. The provision for Hong Kong Profits Tax for this subsidiary was calculated at the same basis in 2022.

The provision for CIT is based on the respective applicable CIT rates on the estimated assessable profits of the subsidiaries in Chinese Mainland within the Group as determined in accordance with the relevant income tax rules and regulations of the PRC. The applicable CIT rate was 25% for the year ended 31 December 2023 (2022: 25%).

LAT is levied on properties developed and investment properties held by the Group in Chinese Mainland for sale, at progressive rates ranging from 30% to 60% on the appreciation of land value, which under the applicable regulations is calculated based on the proceeds of sale of properties less deductible expenditures including lease charges of land use right, borrowing costs and all qualified property development expenditures.

The withholding tax arose from the 5% of dividend paid from a subsidiary established in Chinese Mainland to its holding company in Hong Kong.

#### (e) 未確認遞延税項資產:

並未就下列項目確認的遞延税項資 產:

#### 8 INCOME TAX (Continued)

#### (e) Deferred tax assets not recognised:

Deferred tax assets have not been recognised in respect of the following items:

		二零二三年 <b>2023</b> 千元 <b>\$</b> ′000	二零二二年 2022 千元 \$′000
可扣減暫時性差異 未動用税項虧損	Deductible temporary differences Unused tax losses	2,313,610	1,589,804

		3,632,918	3,568,156

#### 附註:

- (i) 根據現行稅務法規,未動用稅項虧損 不會到期。
- (ii) 未動用税項虧損可於虧損產生年度起 以結轉抵銷其後最多五年內的應課税 盈利。未動用税項虧損於二零二四年 至二零二八年期間到期。

由於可能並無足夠未來應課稅盈利 可用於抵銷可扣減暫時性差異及未 動用稅項虧損可動用,故本集團並 未就若干附屬公司的可扣減暫時性 差異及未動用稅項虧損確認遞延稅 項資產。

#### (f) 未確認遞延税項負債:

企業所得税税法及其實施細則規定, 中國內地居民企業就二零零八年一 月一日起所產生盈利向其中國境外 直接控股公司派發的股息須繳納 10%的預扣税(除非由條約或協議 另行減少),而於二零零八年一月一 日前產生的未分派盈利則獲豁免繳 納該預扣税。根據中國內地與香港 的税務安排及其相關規例,持有中 國內地企業25%或以上權益的合資 格香港税務居民為「實益擁有人」, 可享有5%的經下調預扣稅率。本集 團並無就其若干中國內地附屬公司 於二零零八年一月一日後所產生盈 利111,035,000港元(二零二二年: 112,763,000港元)作出遞延税項負 債撥備,原因是本集團控制該等附 屬公司的股息政策,並決定於可見 未來或不會分派該等盈利。

#### Notes:

- (i) The unused tax losses do not expire under the current tax legislation.
- (ii) The unused tax losses can be carried forward to offset against taxable profits of subsequent years for up to five years from the year in which they arose. The unused tax losses expired between 2024 and 2028.

The Group has not recognised deferred tax assets in respect of deductible temporary differences and unused tax losses of certain subsidiaries as it is not probable that sufficient future taxable profits will be available against which the deductible temporary differences and unused tax losses can be utilised.

#### (f) Deferred tax liabilities not recognised:

The Corporate Income Tax Law and its implementation rules impose a withholding tax at 10%, unless reduced by a treaty or agreement, for dividends, distributed by a Chinese Mainland resident enterprise to its immediate holding company outside the Chinese Mainland for profits generated beginning on 1 January 2008 and undistributed profits generated prior to 1 January 2008 are exempt from such withholding tax. According to the China-Hong Kong tax arrangement and its relevant regulations, a qualified Hong Kong tax resident which is the "beneficial owner" and holds 25% or more of a Chinese Mainland enterprise is entitled to a reduced withholding tax rate of 5%. The Group did not provide for deferred tax liabilities on profits generated by certain of its subsidiaries in Chinese Mainland after 1 January 2008 amounting to \$111,035,000 (2022: \$112,763,000) since the Group controls the dividend policy of these subsidiaries and it has been determined that it is probable that these profits will not be distributed in the foreseeable future.

#### Fair value hierarchy

The following table presents the fair value of the Group's investment properties and investment properties classified as held for sale measured at the end of the reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in HKFRS 13, Fair value measurement. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

- Level 1 valuations: Fair value measured using only Level 1 inputs i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date
- Level 2 valuations: Fair value measured using Level 2 inputs i.e. observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available
- Level 3 valuations: Fair value measured using significant unobservable inputs

## 12 INVESTMENT PROPERTIES AND PROPERTY, PLANT AND EQUIPMENT (Continued)

- (a) Fair value measurement of investment properties and investment properties classified as held for sale (Continued)
  - (ii) Information about Level 3 fair value measurements (Continued)

The fair value of investment properties located in Chinese Mainland and Hong Kong is determined using income capitalisation method or direct comparison method by capitalising the net rental income allowing for the reversionary income potential of the properties, or by reference to recent sales price of comparable properties on a price per square meter basis, adjusted for a premium or a discount specific to the quality of the Group's properties compared to the recent sales. The valuation takes into account expected market rental of the properties. The capitalisation rates used have been adjusted for the quality and location of the buildings and the tenant quality. The fair value measurement is positively correlated to the expected market rental and average market price, and negatively correlated to the capitalisation rate.

The movements during the year in the balances of these Level 3 fair value measurements are as follows:

### Impairment tests for cash-generating units containing goodwill

Management performed impairment testing on goodwill at the each reporting date. The recoverable amount of CGU of Creative Education Holding Company Limited ("Creative Education Group") determined based on the value in use ("VIU") calculation by the directors of the Company with the assistance of an independent valuer, Ravia Global Appraisal Advisory Limited ("RAA"). Their recoverable amounts are based on certain similar key assumptions. The calculation use after-tax cashflow projections based on financial budgets approved by management covering a five-year period. The growth rates do not exceed the long-term average growth rate for the related industry in which the CGU operate. The discount rates used are after-tax and reflect specific risks relating to the relevant industry and the CGU itself and macro-environment of the relevant region.

#### (c) 合約成本

於二零二三年十二月三十一日,資本化的合約成本與支付予物業代理的遞增銷售佣金有關,而該代理的銷售活動導致客戶就本集團於報告日期仍然在建中物業訂立買賣協議)。合約成本於相關物業銷售收益確認為「銷售及財間在綜合損益表中確認為「銷售及財間在綜合損益表中確認為「銷售內確認資本化成本金額為2,608,000港元(二零二二年:2,344,000港元)。

本集團應用於香港財務報告準則第 15號第94段的可行權宜方法,倘本 集團另行確認資產的攤銷期間落在 訂立合約日期的相同報告期內,則 取得有關已竣工物業的銷售及服務 的合約遞增成本於產生時確認為開支。

所有其他資本化合約成本預期將於 一年內收回。

#### (c) Contract costs

Contract costs capitalised as at 31 December 2023 relate to the incremental sales commissions paid to property agents whose selling activities resulted in customers entering into sale and purchase agreements for the Group's properties which are still under construction at the reporting date. Contract costs are recognised as part of "selling and marketing expenses" in the consolidated statement of profit or loss in the period in which revenue from the related property sales is recognised. The amount of capitalised costs recognised in profit or loss during the year was \$2,608,000 (2022: \$2,344,000).

The Group applies the practical expedient in paragraph 94 of HKFRS 15 and recognises the incremental costs of obtaining contracts relating to the sale of completed properties and services as an expense when incurred if the amortisation period of the assets that the Group otherwise would have recognised is within the same reporting period as the date of entering into the contract.

All of the other capitalised contract costs are expected to be recovered within one year.

對已確認合約負債的金額有影響的一般 支付條款如下:

### 物業開發

### 合約負債變動

Typical payment terms which impact on the amount of contract liabilities recognised are as follows:

### **Property development**

Depending on market conditions, the Group requires the customers to pay off the full consideration within an agreed time frame while developments are still ongoing, rather than on the completion of the relevant properties. Such advance payment schemes result in contract liabilities being recognised throughout the remaining property development period for the full amount of the contract price. In addition, the contract liabilities will be increased by the amount of interest expense being accrued by the Group to reflect the effect of any significant financing benefit obtained from the customers during the period between the payment date and the date of delivery of property or completion of legal assignment. As this accrual increases the amount of the contract liabilities during the period of development, it therefore increases the amount of revenue recognised when control of the completed property is transferred to the customer.

### (f) Capital management (Continued)

Consistent with industry practice, the Group monitors its capital structure on the basis of a gearing ratio, which is net debt divided by total equity at the end of the reporting period. For this purpose, the Group defines net debt as total bank loans and other borrowings, lease liabilities, bonds payable and amounts due to non-controlling interests (interest-bearing) less restricted and pledged deposits and cash and cash equivalents.

The Group's gearing ratio at 31 December 2023 was as follows:

### (a) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in a financial loss to the Group. The Group's credit risk is primarily attributable to trade and other receivables. The Group maintains a defined credit policy and the exposures to these credit risks are monitored on an ongoing basis. The Group's exposure to credit risk arising from cash and cash equivalents is limited because the counterparties are banks and financial institutions, for which the Group considers to have low credit risk.

#### Trade debtors and other debtors

The Group measures loss allowances for trade debtors at an amount equal to lifetime ECLs, which is calculated using a provision matrix. As the Group's historical credit loss experience does not indicate significantly different loss patterns for different customer segments, the loss allowance based on past due status is not further distinguished between the Group's different customer bases.

The following table provides information about the Group's exposure to credit risk and ECLs for trade debtors:

Expected loss rates are based on actual loss experience of the Group. These rates are adjusted to reflect differences between economic conditions during the period over which the historic data has been collected, current conditions and the Group's view of economic conditions over the expected lives of the receivables.

The loans to the third parties are fully secured by properties and equity interests held by the third parties. The maximum exposure to credit risk in respect of the loans at the end of the reporting period, without taking into account the collateral, and the key terms of the loans are disclosed in Note 19. The Group considers that the credit risk arising from the loans is significantly mitigated by the properties and equity interests held as collateral, with reference to the estimated market value of the properties at 31 December 2023 and 2022.

For other debtors, regular review and follow-up actions are carried out on long-aged other receivables, which enable management to assess their recoverability and to minimise exposure to credit risk. The maximum exposure to credit risk is represented by the carrying amount of each financial asset in the consolidated statement of financial position. The Group recognises a loss allowance on other debtors equal to 12-month ECLs unless there has been a significant increase in credit risk of the other debtors since initial recognition, in which case the loss allowance is measured at an amount equal to lifetime ECLs.

Except for the financial guarantees given by the Group as set out in Note 30, the Group does not provide any other guarantees which would expose the Group to credit risk. The maximum exposure to credit risk in respect of these financial guarantees at the end of the reporting period is disclosed in Note 30.

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's interest rate profile as monitored by management is set out in (i) below.

#### (ii) 敏感度分析

於二零二三年十二月三十一日, 倘所有其他變數維持不變,估 計利率整體上升/下降100個 基點,本集團的除稅後盈利/ 虧損及保留溢利將因上述利率 整體下降/上升而相應減少/ 增加約47.412.000港元(二零 二二年:53,595,000港元)。

上述敏感性分析表示,對於本 集團於報告期結算日持有的浮 息非衍生工具所產生的現金流 量利率風險而言,對本集團的 除税後盈利/虧損(及保留溢 利)的影響估計為利率變化對 利息開支或收入的年度影響。 分析於二零二二年以相同基礎 進行。

### (d) 貨幣風險

本集團幾乎所有經營活動均在中國 内地進行,且大部分交易以人民幣 計值。由於本集團於中國內地的投 資及若干一般及行政開支以及其他 借貸以美元(「美元」)、港元(「港元」) 或澳元(「澳元」)結算,故本集團面 臨人民幣兑港元匯率波動引發的外 幣風險。此外,人民幣不可自由兑 換為外幣,而且將人民幣兑換為外 幣須受中國內地政府頒佈的外匯管 制規則及規例規限。

## 28 FINANCIAL RISK MANAGEMENT AND FAIR VALUES OF FINANCIAL INSTRUMENTS (Continued)

### (c) Interest rate risk (Continued)

#### (ii) Sensitivity analysis

At 31 December 2023, it is estimated that a general increase/ decrease of 100 basis points in interest rates, with all other variables held constant, would decrease/increase the Group's profit/loss after tax and retained profits by approximately \$47,412,000 (2022: \$53,595,000) in response to the general increase/decrease in interest rates.

The sensitivity analysis above indicates that in respect of the exposure to cash flow interest rate risk arising from floating rate non-derivative instruments held by the Group at the end of the reporting period, the impact on the Group's profit/loss after tax (and retained profits) is estimated as an annualised impact on interest expense or income of such a change in interest rates. The analysis is performed on the same basis for 2022.

### (d) Currency risk

Almost all of the Group's operating activities are carried out in Chinese Mainland with most of the transactions denominated in RMB. The Group is exposed to foreign currency risk arising from the exposure of RMB against Hong Kong dollars ("HKD") as a result of its investment in Chinese Mainland and the settlement of certain general and administrative expenses and other borrowings in United States dollars ("USD"), HKD or Australia dollars ("AUD"). In addition, RMB is not freely convertible into foreign currencies and the conversion of RMB into foreign currencies is subject to rules and regulations of the foreign exchange control promulgated by the Chinese Mainland government.

### (ii) Sensitivity analysis

The following table indicates the instantaneous change in the Group's loss/profit before tax that would arise if foreign exchange rates to which the Group has significant exposure at the end of the reporting period had changed at that date, assuming all other risk variables remained constant. In this respect, it is assumed that the pegged rate between the HKD and the USD would be materially unaffected by any changes in movement in value of the USD against other currencies.

外匯敏感度分析乃根據本集團 於報告日期的主要外匯風險淨 額(假設中國內地實體持有的 港元及澳元兑人民幣及非中國 內地實體持有的澳元兑港元匯 率變動5%)對除稅前虧損/盈 利的影響計算,惟不包括將海 外業務的財務報表換算為本集 團呈列貨幣所產生的差額。

The foreign currency sensitivity analysis is calculated based on the major net foreign currency exposure of the Group as at the reporting date, assuming 5% change of HKD and AUD held by Chinese Mainland entities against RMB and AUD held by non Chinese Mainland entities against HKD on the loss/profit before tax and excludes differences that would result from the translation of the financial statements of foreign operations into the Group's presentation currency.

The Group's listed investments are listed on the Stock Exchange of Hong Kong. The sensitivity analysis indicates the instantaneous change in the Group's profit/loss after tax (and retained profits) that would arise assuming that the changes in the stock market index or other relevant risk variables had occurred at the end of the reporting period and had been applied to re-measure those financial instruments held by the Group which expose the Group to equity price risk at the end of the reporting period. It is also assumed that the fair values of the Group's equity investments would change in accordance with the historical correlation with the relevant stock market index or the relevant risk variables, and that all other variables remain constant. The analysis is performed on the same basis for 2022.

### (g) Fair value measurement

(i) Fair value hierarchy

HKFRS 13, Fair value measurement, requires the fair value of the Group's financial instruments measured at the end of the reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in HKFRS 13. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

Level 1 valuations: Fair value measured using only Level
 1 inputs i.e. unadjusted quoted prices
 in active markets for identical assets

Level 2 valuations: Fair value measured using Level 2

inputs i.e. observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available

or liabilities at the measurement date

Level 3 valuations: Fair value measured using significant unobservable inputs

### (g) Fair value measurement (Continued)

### (ii) Valuation techniques and inputs used in Level 2 fair value measurements

The fair value of wealth management products is the estimated amount that the Group would receive to sale wealth management products at the end of the reporting period, taking into account current interest rates.

#### (iii) Information about Level 3 fair value measurement

The fair value of receivables from the third parties is determined using future estimated cash flows to be recovered which takes into account projects progress presumed or operation forecast and discount rate is 12% (2022: 12%) based on the average borrowing cost plus a risk premium of the Group or weighted average cost of capital relating to the specific business. The future estimated cash flows reflect potential impacts of adjustments on the projects' capacity building areas, land use index and tax related compensation, etc.

The fair value of unlisted equity instruments was determined using the price/earning ratios of comparable listed companies adjusted for lack of marketability discount, of which the fair value measurement is negatively correlated to the discount for lack of marketability.

The movement during the year in the balance of Level 3 fair value measurements is as follows:

### **30 CONTINGENT LIABILITIES** (Continued)

The maximum amounts of guarantees given to banks for mortgage facilities granted to the purchasers of the Group's properties at the end of each reporting period is as follows:

董事認為,由於本集團可接管相關物業的所有權並出售有關物業,以收回本集團向銀行支付的任何金額,因此本集團不大可能因該等擔保而遭受虧損。本公司董事亦認為,倘買方拖欠償還銀行付款,則相關物業的公平市值能彌補本集團所擔保的未償按揭貸款。

由於本公司董事認為該等擔保之公允價 值極低,故本集團並未就該等擔保確認 任何遞延收入。 The directors consider that it is not probable that the Group will sustain a loss under these guarantees as the Group can take over the ownerships of the related properties and sell the properties to recover any amounts paid by the Group to the banks. The directors of the Company also consider that the fair market value of the underlying properties is able to cover the outstanding mortgage loans guaranteed by the Group in the event the purchasers default payments to the banks.

The Group has not recognised any deferred income in respect of these guarantees as its fair value is considered to be minimal by the directors of the Company.
