2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS

Going concern assumptions

As at 31 March 2024, the Group’s current liabilities exceeded its current assets by approximately HK\$3,705,062,000 (2023: HK\$3,704,427,000) and there was a capital deficiency of approximately HK\$1,750,802,000 (2023: HK\$1,854,905,000). These conditions indicate the existence of a material uncertainty that may cast significant doubt on the Group’s ability to continue as a going concern and therefore, the Group may not be able to realise its assets and discharge its liabilities in the normal course of business.

As described more fully in Note 27, the Third Convertible Note (the “**CN**”) was issued on 3 April 2013 at zero coupon rate with an original maturity date on 3 April 2018.

Subsequent to various actions by CN holders against the conversion of part of the principal amounts of the CN into shares of the Company, the registered CN holders of not less than 75% resolved to amend the CN agreement whereby, inter alia, the maturity date of the CN was extended to 19 October 2019 and the Company was granted the right to require the principal amount of the CN to be converted into shares of the Company which the Company did exercise on 19 October 2018 to require the conversion of US\$340,390,000 (equivalent to approximately HK\$2,655,042,000) in principal amount of the CN, resulting in the issue of 55,313,376 new shares in the Company at HK\$48 per share (now becoming 5,531,337 new shares in the Company at HK\$480 per share after the share consolidation of the Company being effective from 24 April 2020).

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

Going concern assumptions (Continued)

The application by the Company to the Stock Exchange for its consent to the amendments to the CN agreement and listing approval for the new shares was rejected for reasons that:

- Prior consent had not been obtained from the Stock Exchange for any proposed change to the terms of convertible securities after issue and before the Company exercising its conversion right;
- Legal proceedings concerning the disputes among the previous and the present CN holders over ownership were still ongoing; and
- The ownership of part of the CN transferred from Daily Loyal Limited to Solidarity Partnership and Golden China Circle Holdings Company Limited (“**Golden China**”) (the “**Transfers**”) remain the subject of ongoing litigations under the High Court actions HCA 1071/2017 and HCA 2501/2017. In the meantime, the Transfers remain registered on the Company’s register of noteholders, and have not been reversed or cancelled.

In consequence, the Company entered into a cancellation agreement whereby amendments and shares conversion and shares issuance aforementioned were cancelled and reversed *ab initio* and the Company’s number of issued shares was reverted to original status before the shares conversion.

On 18 June 2020, Golden China and Solidarity Partnership had agreed with the Company in written confirmation on their willingness to further extend the maturity date of the CN to 31 December 2025 (including the related interests thereof).

The directors of the Company currently continue to exercise cost control in administrative and other expenses by further streamlining the Group’s operations to improve the operating and financial position of the Group.

In addition, the Group has obtained funding and financial support from the following parties:

- (i) As set out in Note 22, with regard to Other Loans 2, 3 and 4, the lenders have agreed not to demand for repayment for the amount due before 31 December 2025. In the opinion of the directors of the Company, a further extension can be obtained when necessary.
- (ii) As set out in Note 23, with regard to amounts due to shareholders, one of the shareholders agreed not to demand for repayment of the amount due before 31 December 2025.
- (iii) As set out in Note 24, with regard to amount due to a director, the director agreed not to demand for repayment of the amount due before 31 December 2025.

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

Going concern assumptions (Continued)

- (iv) As set out in Note 25, with regard to amount due to a related party, the related party agreed not to demand for repayment of the amount due before 31 December 2025.
- (v) The Company has obtained loan facilities sufficient to support the continual normal operation of the Group for at least 12 months after the year end date. For details, please refer to Note 33.

With the successful implementation of the measures and funding and financial support obtained as set out above, in the opinion of the directors of the Company, the Group will have sufficient funds to satisfy its future working capital and other financial commitments as and when they fall due. Accordingly, the directors of the Company are of the view that it is appropriate to prepare the consolidated financial statements on a going concern basis.

Should the Group be unable to continue as a going concern, the Group may not be able to realise its assets and discharge its liabilities in the normal course of business, the effect of which has not yet been reflected in the consolidated financial statements. Adjustments may have to be made to write down assets to their recoverable amounts. In addition, the Group may have to provide further liabilities that might arise, and to reclassify non-current assets and liabilities as current assets and liabilities.

3. APPLICATION OF NEW AND AMENDMENTS TO THE HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”)

In the current year, the Group has applied the following new and amendments to HKFRSs issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) for the first time, which are mandatorily effective for the Group’s annual period beginning on 1 April 2023 for the preparation of the consolidated financial statements:

HKFRS 17 (including the October 2020 and February 2022 amendments to HKFRS 17)	Insurance Contracts
Amendments to HKAS 8	Definition of Accounting Estimates
Amendments to HKAS 12	Deferred Tax related to Assets and Liabilities arising from a Single Transaction
Amendments to HKAS 12	International Tax Reform-Pillar Two model Rules
Amendments to HKAS 1 and HKFRS Practice Statements 2	Disclosure of Accounting Policies

Except as described below, the application of the new and amendments to HKFRSs in the current year has had no material impact on the Group’s financial positions and performance for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

3. APPLICATION OF NEW AND AMENDMENTS TO THE HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (Continued)

Impacts on application of Amendments to HKAS 1 and HKFRS Practice Statement 2 Disclosure of Accounting Policies

The Group has applied the amendments for the first time in the current year. HKAS 1 Presentation of Financial Statements is amended to replace all instances of the term “significant accounting policies” with “material accounting policy information”. Accounting policy information is material if, when considered together with other information included in an entity’s financial statements, it can reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements.

The amendments also clarify that accounting policy information may be material because of the nature of the related transactions, other events or conditions, even if the amounts are immaterial. However, not all accounting policy information relating to material transactions, other events or conditions is itself material. If an entity chooses to disclose immaterial accounting policy information, such information must not obscure material accounting policy information.

HKFRS Practice Statement 2 Making Materiality Judgements (the “**Practice Statement**”) is also amended to illustrate how an entity applies the “four-step materiality process” to accounting policy disclosures and to judge whether information about an accounting policy is material to its financial statements. Guidance and examples are added to the Practice Statement

The application of the amendments has had no material impact on the Group’s financial positions and performance but has affected the disclosure of the Group’s accounting policies set out in the consolidated financial statements.

Amendments to HKFRSs issued but not yet effective

The Group has not early applied the following amendments to HKFRSs that have been issued but are not yet effective:

Amendments to HKFRS 10 and HKAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture ¹
Amendments to HKFRS 16	Lease Liability in a Sale and Leaseback ²
Amendments to HKAS 1	Classification of Liabilities as Current or Non-current and related amendments to Hong Kong Interpretation 5 (2020) ²
Amendments to HKAS 1	Non-current Liabilities with Covenants ²
Amendments to HKAS 7 and HKFRS 7	Supplier Finance Arrangements ²
Amendments to HKAS 21	Lack of Exchangeability ³

¹ Effective for annual periods beginning on or after a date to be determined.

² Effective for annual periods beginning on or after 1 January 2024.

³ Effective for annual periods beginning on or after 1 January 2025.

The directors of the Company anticipate that the application of all amendments to HKFRSs will have no material impact on the consolidated financial statements in the foreseeable future.

4. REVENUE

Revenue represents revenue arising from sales of diesel, gasoline and other products. An analysis of the Group's revenue for the year is as follows:

Transaction price allocated to the remaining performance obligations

All of the Group's remaining performance obligations for contracts with customers are for periods of one year or less. As permitted under HKFRS 15, the transaction price allocated to these unsatisfied contracts is not disclosed.

5. SEGMENT INFORMATION

Information reported to the directors of the Company, being the chief operating decision maker ("CODM"), for the purposes of resource allocation and assessment of segment performance focuses on types of goods or services delivered or provided. The directors of the Company have chosen to organise the Group around differences in products and services. No operating segments identified by the CODM have been aggregated in arriving at the reportable segments of the Group.

Specifically, the Group's reportable segments are as follows:

- i. Mining segment – Holding mining and exploration rights of coal mines in Russia; and
- ii. Trading segment – Sales of diesel, gasoline and other products in Korea

In determining the Group's geographical segments, revenues are attributed to the segments based on the location of the customers, and assets are attributed to the segments based on the location of the assets.

Mining rights

In prior years, the Company, Grandvest International Limited (“**Grandvest**”), a wholly-owned subsidiary of the Company, Cordia Global Limited (“**Cordia**”) and the sole beneficial owner of Cordia entered into an acquisition agreement (the “**Acquisition Agreement**”) to acquire a 90% equity interest in Langfeld Enterprises Limited (“**Langfeld**”) and its subsidiaries (the “**Langfeld Group**”) (collectively referred as the “**Acquisition**”). The mining right was acquired as part of the acquisition of the Langfeld Group completed in prior years and was initially recognised at its fair value of the consideration paid for the acquisition. At the end of each reporting period, the mining right is measured using the cost model subject to impairment.

As the intangible assets (in relation to the mining rights of Lot 1 and Lot 1 Extension of the Group’s Russian coal mines) were fully amortized under the cost model as at 31 March 2024, the directors of the Company considered impairment loss or reversal of impairment loss was not applicable as at 31 March 2024.

Details of the Group’s mining rights are as follow:

Exploration and evaluation assets are considerations paid for the acquisition of the exploration and mining rights located adjacent to the Lapichevskaya Mine.

The Group has adopted HKFRS 6 “Exploration for and Evaluation of Mineral Resources” which requires the Group to assess if there is any indicator for impairment at each reporting date.

In performing the impairment test for current year, the directors of the Company have engaged Ravia to determine the recoverable amount of the exploration and evaluation asset which is the higher of the asset’s fair value less costs to sell and its value in use. Given the current development status of the exploration and evaluation asset, the directors of the Company have determined the fair value less costs of disposal to be its recoverable amount. The recoverable amount is derived by using a DCF analysis. The DCF analysis has incorporated assumptions that a typical market participant would use in estimating the exploration and evaluation asset’s fair value.

16. EXPLORATION AND EVALUATION ASSETS *(Continued)*

The key assumptions used in the DCF analysis in current year include:

- (i) Cash flow projection is determined for a period of 12 years up to 2035 (2023: a period of 12 years up to 2034) with the first year of production taken to be from year 2026 (2023: first year of production from year 2025) based on the directors' current best estimated production plan.
- (ii) Cost of production (including royalties) on average is taken as 16.75% (2023: 17.47%) of revenue.
- (iii) The post-tax discount rate applied to the cash flow projection is 37.00% (2023: 38.16%).
- (iv) The directors of the Company have assumed the yearly coal sales prices have no change in 2024 and 2025 and to increase 1.95% each year from 2026 to 2040 (2023: have no change in 2023, to decrease 14.97% in 2024 and 6.45% in 2025, to increase 0.30% in 2026 and 3.00% each year from 2027 to 2040), which is in line with the comparable market information.
- (v) Coal sales prices used in the DCF in the current and prior years are determined with reference to the coal price under current market information at the respective valuation dates, which show an increase of approximately 10% to 17% (depends on different type of coals) when compared to that of last year.
- (vi) The exchange rate for US\$ to RUB with reference to the approximate spot rate as of 31 March 2024 is taken to be US\$1.00 to RUB96.54 (2023: US\$1.00 to RUB77.50).
- (vii) The yearly inflation rate on operating costs is 5.30% and 4.37% for 2024 and 2025 respectively, and 4.00% from 2026 to 2040 (2023: 5.80%, 5.00% and 4.50% for 2023, 2024 and 2025, respectively, and 3.00% from 2026 to 2040).

Apart from the changes in parameters for the major assumptions in the DCF analysis for items (i) to (vii) mentioned above, other major assumptions used in the DCF analysis in current year, such as estimated production volumes, the structure of operation costs and relevant taxation rate, remained within more or less the same range when compared with that of last year.

The directors of the Company are of the opinion that based on the valuation, the exploration and evaluation asset was evaluated upward. It thus would result in a impairment loss of approximately HK\$142,912,000 (2023: reversal of impairment loss of approximately HK\$717,456,000) compared with its carrying value as at 31 March 2024. The reversal of impairment loss is mainly attributable to the net effects of change of expected first year of coal production to 2025, increase of the relevant coal prices, the appreciation of RUB to United States Dollars (“USD”) and the decrease in post-tax discount rate, the change in expected future inflation rate of costs and the corresponding change in expected future growth rate of coal sales prices in the coming few years during the current year as compared to previous year.

The first and second stages of payments in aggregate amount of US\$4,095,300 (equivalent to approximately HK\$31,943,000) were made before 31 March 2010. The remaining consideration payable on the Additional Acquisition will be settled in two stages upon the fulfilment of the certain conditions as follows: (i) an amount of US\$4,095,300 (equivalent to approximately HK\$31,943,000) when the Group obtain the New Exploration and Mining Licence (the “**3rd Adjusted Consideration**”) and (ii) an amount of US\$1,300,000 (equivalent to approximately HK\$10,140,000) which is only payable as and when the Group obtains the confirmation from the relevant tax authority in Russia of the taxation liabilities of Lapi (the “**4th Adjusted Consideration**”).

27. CONVERTIBLE NOTES PAYABLES

Convertible notes

In prior years, the Third Convertible Note with a principal amount of US\$443,070,000 (equivalent to approximately HK\$3,455,946,000) was issued to Cordia in accordance with the terms of the Acquisition Agreement.

On 22 May 2015, Cordia partially converted the Third Convertible Note amounting to US\$30,800,000 (equivalent to approximately HK\$240,000,000). A total of 5,005,000 Conversion shares were issued and allotted to Cordia on 26 May 2015.

On 17 June 2015, the outstanding Third Convertible Note was transferred to a new independent third party, Daily Loyal Limited, at the request of Cordia.

In April 2016, HASS Natural Resources Limited (“**HASS**”) (now known as Newborn Global Energy Limited) and Herman Tso withdrew the First HASS Report and the Supplemental HASS Report (collectively the “**HASS Reports**”). The HASS Reports were previously adopted by the Company to determine the quantum of purchase consideration of the Lapi mine and hence the amount of convertible notes to be issued.

In order to re-assess and support the issuance of the Third Convertible Note, the Company then engaged another experienced and qualified New Technical Expert to perform another technical report (the “**New Technical Report**”) on the basis of the JORC Code prevailing at the time when the Third Convertible Note was issued on 3 April 2013.

The New Technical Expert reported a slightly different estimate of the probable coal reserves in the open pit mining area in Lot 2 of the Mine and, as a result, prior year adjustments on the Third Convertible Note were made to restate the balance in the respective years concerned, being approximately HK\$2,127,088,000 (as restated 31 March 2013), HK\$2,398,314,000 (as restated 31 March 2014) and HK\$2,702,681,000 (as restated 31 March 2015). The Company had also re-performed the yearly valuation to determine the recoverable amounts of the exploration and evaluation assets for the years ended 31 March 2013, 2014, 2015 and 2016. Based on the re-performed results, impairment tests for the years ended 31 March 2013, 2014 and 2015 were re-assessed and adjustments were made to reflect the effect/cumulative effect of the re-performed impairment amounts for each of the said years.

On 22 August 2016, in response to the New Technical Report dated 11 August 2016, Cordia, Choi Sungmin, Grandvest, Daily Loyal Limited and the Company entered into an additional agreement in relation to the Third Convertible Note, pursuant to which the principal amount of the whole Third Convertible Note (before any conversion or transfer thereof) would be adjusted from US\$443,070,000 (equivalent to approximately HK\$3,455,946,000) to US\$431,190,000 (equivalent to approximately HK\$3,363,282,000) and accordingly, the principal amount of US\$412,270,000 (equivalent to approximately HK\$3,215,706,000) of the Third Convertible Note held by Daily Loyal Limited would also be reduced by US\$11,880,000 (equivalent to approximately HK\$92,664,000) to US\$400,390,000 (equivalent to approximately HK\$3,123,042,000). On 13 April 2017, the Company announced that Daily Loyal and the Company entered into an amended agreement (the “**Amendment Agreement**”), which provided, among other things, to (i) extend the maturity dates of the Outstanding Third Convertible Note for at least another two years before the Outstanding Third Convertible Note becomes a current liability of the Company; (ii) convert the Outstanding Third Convertible Note except for the principal amount of US\$60,000,000 (equivalent to approximately HK\$468,000,000) at the conversion price of HK\$48 per Share within three business days upon signing of the Amendment Agreement; and (iii) agree on no demand of the remaining outstanding principal amount of the Outstanding Third Convertible Note on the maturity dates.

However, Daily Loyal (as the plaintiff) subsequently alleged that its sole director (Mr. Chan Chun Wah) signed the Amendment Agreement in August 2016 (leaving the document undated, the “**Undated Amendment Agreement**”) based on an understanding that such document only served as a memorandum for discussion purpose and was not intended to be binding, and that the Company and Mr. Hong Sang Joon (a former director of the Company) should not fill in the date of the document. Besides, Daily Loyal was of the view that the validity of the Undated Amendment Agreement was contrary to the Additional Agreement entered into by it with Cordia Global Limited (“**Cordia**”), Choi Sungmin, Grandvest International Limited (a subsidiary of the Company) and the Company on 22 August 2016.

Daily Loyal also alleged that (i) the placing and issue of new Shares by the Company as announced by the Company on 24 October 2016; (ii) the placing and issue of new shares by the Company as announced by the Company on 24 January 2017; and (iii) the issue of new shares upon loan capitalizations as announced by the Company on 20 February 2017 were conducted without the prior consent or authorization of Daily Loyal and were in breach of a convertible note agreement (the “**Convertible Note Agreement**”) dated 3 April 2013 between the Company and Cordia in relation to the Third Convertible Note. Details are disclosed in Note 32 in relation to legal action HCA 1071 of 2017.

On 19 October 2018, the Company announced that it has received transfer documents together with note certificates in respect of an aggregate US\$309,270,000 in principal amount of the Original Notes, with instructions to transfer (i) US\$226,170,000 in aggregate principal amount of the Original Notes from Daily Loyal Limited to China Panda, and (ii) US\$83,100,000 in aggregate principal amount of the Original Notes from Daily Loyal Limited to Gold Ocean (collectively, the “**Transferred Notes**”).

The Company has accordingly registered the transfer of the Transferred Notes in the Register of Noteholders of the Company. Subsequently, the Company also received transfer documents together with note certificates in respect of an aggregate principal amount of US\$20,000,000 with instructions to transfer such US\$20,000,000 in notes from China Panda to Gold Ocean. In consequence of such amendment, the Amended Note Instrument amends, superseded and replaced the Original Note Instrument in its entirety, and the convertible notes reconstituted under Amended Note Instrument (the “**Amended Notes**”) replace the Original Notes in their entirety.

The principal changes made by the Amended Note Instrument to the Original Note Instrument are as follows:

1. The principal amount of the notes has been updated to a reduced principal amount of US\$400,390,000 to reflect conversions of and adjustments to the Original Notes since their original issuance.
2. The maturity date of the Original Notes was five years after the date of issue of the Original Notes, or 3 April 2018. The Amended Note Instrument extended the maturity date of the Notes to the date falling one year after the date of the Amended Note Instrument without interest, or 19 October 2019.
3. The Original Note Instrument gave holders of the Original Notes the right to require conversion of the Original Notes. The Amended Note Instrument granted holders of the Amended Notes, as well as the Company, to require conversion of the Amended Notes.
4. The Original Notes were secured by certain share charges as provided in condition 6 thereunder. Pursuant to the Amended Note Instrument, the parties agreed to release and discharge such share charges immediately after execution of the Amended Note Instrument.
5. Condition 14 of the Original Note Instrument provided that the terms and conditions of the Original Note Instrument may be amended by agreement in writing between the Company and the noteholders holding in aggregate not less than 75% in outstanding principal amount of the Original Notes. The Amended Note Instrument provided that the terms and conditions of the Amended Note Instrument may be amended by agreement in writing between the Company and noteholders holding in aggregate not less than 65% in outstanding principal amount of the Amended Notes.
6. Certain provisions under the Original Note Agreement requiring the approval of the noteholders thereunder (including the appointment of a Calculation Agent as defined thereunder, and other provisions for the protection of noteholders), were amended to require the approval of noteholders holding in aggregate not less than 65% in outstanding principal amount of the Amended Notes.

Immediately following the Amended Note Instrument becoming effective, the Company exercised its right to require conversion of US\$340,390,000 in principal amount of the notes, by delivering conversion notices to all the noteholders.

On 22 October 2018, the Company announced that it had exercised its rights under the Amended Note Instrument to require conversion of US\$340,390,000 (equivalent to approximately HK\$2,655,042,000) in the principal amount of the Amended Notes at a conversion price of HK\$48 per Conversion Share, by delivering conversion notices to all noteholders.

The Conversion Shares ranked pari passu with all the existing Shares at the date of allotment and issue and among themselves in all respects.

The outstanding principal amount of the Amended Notes after the conversion was US\$60,000,000 (equivalent to approximately HK\$468,000,000).

On 20 May 2019, the Company announced in relation to, amongst other things, the amendments of the terms and conditions of the convertible notes (the “**Amendments**”), the partial conversion of the convertible notes (the “**Conversion**”), the issuance of conversion shares pursuant to the Conversion (the “**Conversion Shares**”) and the cancellation agreement entered into by the Company on 16 May 2019 reversing the Amendments and the Conversion (“**Cancellation Agreement**”).

Pursuant to the Cancellation Agreement, the Amendments and all transactions carried out pursuant thereto, including the Conversion, would be reversed and cancelled ab initio. As a result, the issued share capital of the Company would with immediate effect revert to the original status before the shares conversion.

All the other terms and conditions of the Original Notes remain unchanged and the independent third-party investors can convert the convertible notes into ordinary shares of the Company at a conversion price of HK\$480 per share, being adjusted with the effect from the Company’s share consolidation effective on 24 April 2020.

The provision for close down, restoration and environmental costs related to the Russian mine.

Under the existing Russian law, management believed that there were no probable liabilities in respect of environmental liabilities that would have a material adverse effect on the financial position or results of operations of the Group. The Russian government, however, moved and may move further towards the adoption of more stringent environmental standards. Environmental liabilities were subject to considerable uncertainties which affected the Group's ability to estimate the ultimate cost of remediation efforts. These uncertainties include: (i) the exact nature and extent of the contamination at various sites including, but not limited to, coal mines and land development areas, whether operating, closed or sold, (ii) the extent of required clean-up efforts, (iii) varying costs of alternative remediation strategies, (iv) changes in environmental remediation requirements, and (v) the identification of new remediation sites.

The provision for close down, restoration and environmental cleanup costs is determined by management based on their past experience and best estimate of future expenditure by discounting the expected expenditure to their net present value. However, in so far as the effect of the land and the environment from the mining activities becomes apparent in future years, the estimate of the associated costs may be subject to revision in the future. The amounts provided in relation to close down, restoration and environmental clean-up costs are reviewed at least annually based upon the facts and circumstances available at the time and the provisions were updated accordingly.

HCA 1071 of 2017

As announced by the Company on 12 May 2017, the Company received on 26 April 2017 a writ of summons issued by Daily Loyal Limited (“**Daily Loyal**”) (as the plaintiff) in the High Court of Hong Kong under action number HCA 1071 of 2017 to certain parties, including the Company. The plaintiff was seeking various declaratory reliefs against the defendants in respect of, inter alia, the Third Convertible Note issued by the Company.

As announced by the Company on 13 April 2017, Daily Loyal and the Company entered into the undated Amendment Agreement, among other things, to (i) extend the maturity dates of the Outstanding Third Convertible Note for at least another two years before the Outstanding Third Convertible Note becomes a current liability of the Company; (ii) convert the Outstanding Third Convertible Note except for the principal amount of US\$60,000,000 (equivalent to approximately HK\$468,000,000) at the conversion price of HK\$48 per share (now it would become HK\$480 per share after the share consolidation becoming effective on 24 April 2020) within three business days upon signing of the Amendment Agreement; and (iii) agree on no demand of the remaining outstanding principal amount of the Outstanding Third Convertible Note on the maturity dates.

However, Daily Loyal (as the plaintiff) subsequently alleged that its sole director (Mr. Chan Chun Wah) signed the Amendment Agreement in August 2016 (leaving the document undated, the “**Undated Amendment Agreement**”) based on an understanding that such document only served as a memorandum for discussion purpose only and was not intended to be binding, and that the Company would not fill in the date of the document. Besides, Daily Loyal was of the view that the validity of the Undated Amendment Agreement was contrary to the Additional Agreement entered into by it with Cordia Global Limited (“**Cordia**”), Choi Sungmin, Grandvest International Limited (a subsidiary of the Company) and the Company on 22 August 2016.

Daily Loyal also alleged that (i) the placing and issue of new shares by the Company as announced by the Company on 24 October 2016; (ii) the placing and issue of new shares by the Company as announced by the Company on 24 January 2017; and (iii) the issue of new shares upon loan capitalizations as announced by the Company on 20 February 2017 were conducted without the prior consent or authorization of Daily Loyal and were in breach of a convertible note agreement (the “**Convertible Note Agreement**”) dated 3 April 2013 between the Company and Cordia in relation to the Third Convertible Note.

(i) **The Company/its Subsidiary as the Defendant** *(Continued)*

HCA 1071 of 2017 (Continued)

Daily Loyal (as the plaintiff) was seeking, among other things, (i) damages for breach of the Convertible Note Agreement and/or the Additional Agreement; (ii) a declaration that the Undated Amendment Agreement and the dated Amendment Agreement were null and void *ab initio*; and (iii) alternatively, a declaration that the dated Amendment Agreement and/or the Undated Amendment Agreement had been rescinded.

As announced by the Company on 16 June 2017, the Company received a letter from Daily Loyal's legal advisers on 9 June 2017. In that letter, Daily Loyal alleged that it had sold the Outstanding Third Convertible Note as to an aggregate principal amount of US\$103,000,000 (equivalent to approximately HK\$803,400,000) and therefore it currently held the Outstanding Third Convertible Note as to a principal amount of US\$297,390,000 (equivalent to approximately HK\$2,319,642,000) (the "**Alleged Current Outstanding Amount**"). Further, Daily Loyal also demanded the Company to (i) repay the Alleged Current Outstanding Amount within 14 days from 9 June 2017; (ii) pay any interest accrued in full; and (iii) indemnify Daily Loyal for all costs and expenses incurred, among other things, for collection of the Alleged Current Outstanding Amount and the enforcement of the Convertible Note Agreement. The primary ground relied upon by Daily Loyal was that the Company did not obtain its prior consent or authorization in the previous placing and issue of new shares upon loan capitalizations, that was one of Daily Loyal's allegations set out in the announcement of 12 May 2017.

The Company filed the defence and counterclaim on 18 July 2017. The plaintiff filed the reply and defence to counterclaim on 9 November 2017.

As announced by the Company on 12 March 2018, the Company received a demand letter from Daily Loyal's legal advisers on 6 March 2018 where Daily Loyal demanded the Company to repay US\$297,390,000 (equivalent to approximately HK\$2,319,642,000) (which was alleged by Daily Loyal to be the current outstanding principal amount of the portion of the Third Convertible Note held by Daily Loyal) together with any interest accrued in full and in cash on or before 3 April 2018. Up to the date of this announcement, Daily Loyal has not taken any steps further after 3 April 2018 in respect of its alleged demand for repayment.

Daily Loyal on 6 March 2019 filed its amended statement of claim, the Company in response filed its amended defence and counterclaim on 22 March 2019, and Daily Loyal then filed its amended reply and defence to counterclaim on 22 May 2019. Parties to this legal action had exchanged the signed witness statements on 5 June 2019 and this legal action is ready to be set down for trial.

As directed by the Court, substantive hearing of the Consolidation Applications originally set down for 28 February 2020 was adjourned to 21 May 2020 due to general adjournment of court proceedings under the COVID-19 situation. On 8 November 2021, the Court ordered that this HCA 1071/2017 be consolidated with HCA 2501/2017 and HCA 2520/2018.

Consolidated pleadings were filed and served in early 2022 and consolidated witness statements were exchanged in late March 2022. This legal case is pending a case management hearing.

Due the length of the trial and the congested court diary, it is expected that this legal case is unlikely to progress to trial until 2024 at the earliest.

Lucrezia first filed its counterclaim in the action against certain other parties on 28 March 2018 and it was not immediately clear why it had waited more than 3 years before joining the Company as a co-defendant to the counterclaim.

The Company is in the process of taking legal advice on such counterclaim made by Lucrezia.

The plaintiffs were seeking various court orders and declarations in respect of certain portions of the Third Convertible Note issued by the Company in April 2013, including the court order for the Company to issue certificates for those portions of the Third Convertible Note to the plaintiffs. The Company was sued as a nominal defendant only.

The Company filed the defence on 11 January 2018. Daily Loyal (as the defendant) filed the defence and counterclaim on 9 February 2018. The plaintiffs filed the reply and defence to counterclaim of Daily Loyal on 12 June 2018.

Daily Loyal made its counterclaim in February 2018 to certain parties, including the Company, but such counterclaim was not served to the Company within the statutory stipulated time period. Only in February 2019, Daily Loyal attempted to serve its counterclaim to the Company, which is more than 14 months out of time and was thus in contravention of the Rules of the High Court. The Company applied to the Court for dismissal of Daily Loyal’s counterclaim for abuse of process, and the Court declined to grant Daily Loyal an extension of time for its counterclaim pending the outcome of the Company’s dismissal application.

HCA 706 of 2010 (Civil Proceedings Taken by the Company Against Three Former Directors of the Company) and HCMP 762 of 2017 (Related Intended Appeal Action by Cheung Keng Ching and Chou Mei) (Continued)

On 15 April 2010, the Company commenced civil proceedings (HCA 706 of 2010) against these three former executive directors of the Company to claim damages in the total sum of approximately HK\$18,980,000. Mediation was conducted with a view to settling the matter as required under the Civil Justice Reform. Although it was the opinion from the Senior Counsel that an amicable settlement would be preferred for the purposes of saving time and costs, no settlement arrangement has been reached. The Company proceeded further with the action against these three former directors of the Company. All the pleadings were filed, and discovery was completed with the witness statements of the parties duly exchanged. A trial judge was assigned for the case on 25 March 2014. As a result of the solicitors ceasing to act for the Company from 9 February 2015, the hearing on the case management conference originally fixed on 11 February 2015 was adjourned pending an application by the Company to act in person or the Company's engagement of new solicitors.

On 27 April 2015, the Company finalised the engagement of new solicitors to act for the Company so as to further proceed with the case.

Upon the hearing on 30 July 2015, the Company would file a summons for application to amend the Indorsement of Claim and Statement of Claim. Hearing on the application of the Company to obtain leave to amend the Indorsement of Claim and Statement of Claim was held on 26 January 2017 with reserved judgment, and the related judgment was handed down on 10 February 2017, pursuant to which leave be granted to the Company to amend the Indorsement of Claim and Statement of Claim. Accordingly, the Amended Indorsement of Claim and Amended Statement of Claim had been filed.

The application of Cheung Keng Ching (as the first defendant) and Chou Mei (as the second defendant) for leave to appeal against the Ruling dated 10 February 2017 (regarding leave be granted to the Company to amend the Indorsement of Claim and Statement of Claim) was dismissed by the Court on 17 March 2017.

On 31 March 2017, the Company was informed by the legal adviser of Cheung Keng Ching (as the first defendant) and Chou Mei (as the second defendant) on an intended appeal action under HCMP 762 of 2017 for leave to appeal against the Ruling dated 10 February 2017 and also the Ruling dated 17 March 2017. At a court hearing in the Court of Appeal held on 14 June 2017, the application for leave to appeal under HCMP 762 of 2017 was dismissed by the Court with costs payable by Cheung Keng Ching and Chou Mei to the Company.

On 10 October 2017, upon the application by the Company, the Court ordered that, inter alia, the case management conference hearing on HCA 706 of 2010 be fixed and heard on 24 April 2018.

The trial hearing eventually commenced on 11 July 2022 (delayed for 6 days as a result of the first defendant, Cheung Keng Ching, had been contracting COVID-19) and was concluded on 19 July 2022. The Judge reserved judgment. The judgment was originally expected to be handed down by early January 2023. Subsequently, the Judge indicated that he would issue the judgement by mid-July 2023.

HCA 1016 of 2016

As announced by the Company on 18 April 2016, the Company (as the plaintiff) has commenced a legal action against HASS Natural Resources Limited (“HASS”) (now known as “Newborn Global Energy Limited”) as the 1st defendant and Herman Tso (also known as Tso Chi Ming) as the 2nd defendant in the High Court of Hong Kong under action number HCA 1016 of 2016 on 18 April 2016. The Company was seeking various reliefs including, inter alia, a declaration that HASS and Herman Tso are not entitled to withdraw the HASS Reports or to assert the HASS Reports being void, an order that they retract their letters dated 1 April 2016 and 11 April 2016, respectively, for withdrawing the HASS Reports, and an order for payment of the original principal amount of the Third Convertible Note of US\$443,070,000 (equivalent to approximately HK\$3,455,946,000) as damages. Herman Tso in his defence statement made counterclaims of US\$443,070,000 (equivalent to approximately HK\$3,455,946,000) as damages.

The action has been dormant since March 2017 and by now it has largely been superseded by events. The Company is in the process of discontinuing the proceedings.

32. LITIGATIONS *(Continued)*

(ii) **The Company as the Plaintiff** *(Continued)*

HCA 51 of 2017

As announced by the Company on 7 February 2017, the Company (as the plaintiff) commenced a legal action against Newborn Global Energy Limited (“**Newborn Global**”) (formerly known as “HASS Natural Resources Limited”) as the 1st defendant and Tso Chi Ming (also known as Herman Tso) (“**Herman Tso**”) as the 2nd defendant in the Court of First Instance of the High Court of Hong Kong under action number HCA 51 of 2017 on 10 January 2017. Herman Tso was one of the directors of Newborn Global at all material times.

In such action, the Company pointed out, among other things, that Herman Tso misrepresented to the Company that he was a “Competent Person” as defined in Chapter 18 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited when the Company entered into an agreement with HASS Natural Resources Limited (“**HASS**”) in 2013 to engage HASS to provide a technical report on the Company’s Russian mines (i.e. the HASS Report). The Company was therefore seeking the repayment of the sums made to HASS under such agreement and damages for misrepresentation from both HASS and Herman Tso.

The action has been dormant since June 2017. The Company is in the process of discontinuing the proceedings.

33. EVENTS AFTER THE REPORTING PERIOD

- (b) On 21 June 2024, the Company entered into a loan facilities agreement with an independent party, pursuant to which in case the Company has made efforts in seeking other debts financing and/or equity financing but is not able to do so at reasonable costs, the independent party could provide financial support to the Company up to approximately US\$32,623,000 (equivalent to approximately HK\$254,459,000).

EXTRACT OF THE INDEPENDENT AUDITOR’S REPORT

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing (“**HKSAs**”) issued by the HKICPA. Our responsibilities under those standards are further described in the “*Auditors’ Responsibilities for the Audit of the Consolidated Financial Statements*” section of our report. We are independent of the Group in accordance with the HKICPA’s Code of Ethics for Professional Accountants (the “**Code**”) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

Development of Russia – Ukraine War

We draw attention to the development of geopolitical tensions related to situation in Ukraine and sanctions imposed by certain countries that have affected and could significantly affect in the future the Russian economy, as well as the activity of the Group. Our opinion is not modified in respect of this matter.

Material Uncertainty Related to the Going Concern

As at 31 March 2024, the Group had net current liabilities and net liabilities of approximately HK\$3,705,062,000 and HK\$1,750,802,000 respectively. These conditions, along with other matters as set forth in note 2 to the consolidated financial statements, indicate the existence of a material uncertainty which may cast significant doubt on the Group’s ability to continue as a going concern. The Group is in the progress of implementing various measures to improve its liquidity. On the basis that all these measures could be successfully implemented, the directors of the Company are of the view that the Group will have sufficient working capital to meet its financial obligations as and when they fall due and, accordingly, the consolidated financial statements have been prepared on a going concern basis. Our opinion is not modified in respect of this matter.

Also, we draw attention to note 32 to the consolidated financial statements which describes the uncertainty related to the outcome of the lawsuits filed against the Group. Our opinion is not modified in respect of this matter.

MANAGEMENT DISCUSSION AND ANALYSIS

FINANCIAL REVIEW

Turnover

For the year ended 31 March 2024, the Group recorded a total turnover of approximately HK\$664.70 million (2023: approximately HK\$1,149.68 million), representing a decrease of approximately 42.18% as compared to last corresponding year.

The decrease in turnover was mainly due to the decline in demand of diesel and gasoline because of the overall increase in sales prices of diesel and gasoline driven by the geographical tensions between the Russia and Ukraine and the general inflation during the year. In addition, coupled with the adverse impact of general depreciation of Korean Won during the year which led to reduction in the absolute amount of yearly turnover when converted into the reporting currency of Hong Kong Dollar for consolidated accounts reporting, the Group's turnover eventually experienced a decline for the year under review due to the above-mentioned factors.

The Group's total turnover composed of sales of diesel of approximately HK\$510.96 million (2023: approximately HK\$836.33 million), sales of gasoline of approximately HK\$123.34 million (2023: approximately HK\$199.37 million) and sales of other related petroleum products and services of approximately HK\$30.40 million (2023: approximately HK\$113.98 million). In terms of product mix, sales of diesel, sales of gasoline and sales of other related petroleum products and services accounted for approximately 76.87% (2023: 72.75%), 18.56% (2023: 17.34%) and 4.57% (2023: 9.91%), respectively, of total turnover of the Group. The decrease in sales of diesel was the main cause for the decrease in total turnover for the year under review.

Other Income

Other income during the year under review mainly represented interest income of approximately HK\$0.10 million (2023: approximately HK\$0.17 million).

Other Gains and Losses

Other gains and losses during the year mainly represented the reversal of impairment loss on exploration and evaluation assets (in relation to mining rights of Lot 2 of the Group's Russian coal mines) amounted to approximately HK\$142.91 million (2023: approximately HK\$717.46 million) mainly due to the increase in coal sales prices of certain types of coals. The balance was partially offset by the fair value losses of the Group's investment property located in South Korea of approximately HK\$13.19 million (2023: Nil).

Selling and Distribution Costs

The selling and distribution costs for the year under review amounted to approximately HK\$3.77 million (2023: approximately HK\$4.04 million). The decrease in selling and distribution costs was mainly due to the decrease in freight and transportation expenses, sales taxes and duty as a result of the decrease in turnover during the year.

Administrative Expenses

During the year under review, total administrative expenses amounted to approximately HK\$14.99 million (2023: approximately HK\$14.72 million). No material fluctuation was noted between the two years.

Other Expenses

In the prior year, other expenses represented the amortization of intangible assets (in relation to mining rights of Lot 1 and Lot 1 Extension of the Group's Russian coal mines) of approximately HK\$175.92 million, which was the residual balancing amount of the final year of amortization to fully amortize the carrying values of intangible assets as at 31 March 2023. No such amortization was noted during the current year.

Finance Costs

During the year under review, total finance costs amounted to approximately HK\$10.12 million (2023: approximately 10.07 million). No material fluctuation was noted between the two years.

Profit Before Income Tax

For the year ended 31 March 2024, the profit before income tax of the Group was approximately HK\$108.66 million (2022: approximately HK\$528.93 million). The decrease in profit before income tax is primarily attributable to the decrease in reversal of impairment loss on exploration and evaluation assets (in relation to mining rights of Lot 2 of the Group's Russian coal mines) of HK\$142.91 million (2023: approximately HK\$717.46 million), which was partially offset by the decrease in the amortization of other intangible assets (in relation to mining rights of Lot 1 and Lot 1 Extension of the Group's Russian coal mines) as no such amortization was recorded for the year current year (2023: approximately HK\$175.92 million) as the intangible assets (in relation to mining rights of Lot 1 and Lot 1 Extension of the Group's Russian coal mines) were fully amortized under the cost model as at 31 March 2023.

The Company would like to highlight that the reversal of impairment loss of approximately HK\$142.91 million (2023: approximately HK\$717.46 million) on exploration and evaluation assets (in relation to mining rights of Lot 2 of the Group's Russian coal mines) was just non-cash item arising from year end valuation exercise for accounting purposes, which would not affect the cashflow position of the Group.

OPERATION REVIEW

Trading

For the year under review, trading business of diesel, gasoline and the related petroleum products and services in Korea was the prime contributor to the Group's turnover.

Petroleum and liquefied natural gas are the major industries in the energy market and play an influential role in the global economy as the world's primary fuel sources. During the year, the global market has still been paying a high price for Russia's unprovoked war against Ukraine. Global prices for middle distillates such as gasoline and diesel were affected as the economy slowed down, more refineries came on stream, and exports from Russia had been re-routed and replaced by fuel from the Middle East. As the diesel and gasoline trading businesses were highly dependent on the global market demand, the diesel and gasoline sales in general kept rather not very stable.

Despite such unprecedented global issues, the Group continued to stabilize its trading businesses by (i) achieving competitive price for individual petrol stations by time management of purchases and sales; (ii) maintaining a stable supply of diesel and gasoline; (iii) minimizing the lead time and cost through direct delivery from oil refinery to petrol stations; (iv) engaging with social media users as "untact marketing" in search of prospective customers; (v) focusing on aggressive sales to the petrol stations; and (iv) keeping inventory in preparation for the end of the fuel tax cut.

Coal Mining

Lot 1 and Lot 1 Extension underground mining plan was heading towards the first year of coal production in around 2030. In order to minimize the negative impact of mine development on the environment, the Group had been working in consultation with experts. To prove it, the Group was currently conducting an analysis of technical documents that indicated that the Group is complying with environmental standards. The Group was also studying new approaches to mine ventilation, the filling mined-out space, the creating of underground repair shops and storage points for fuels and lubricants. Analysis of the carrying and throughput capacities of transport infrastructure (in particular coal) both in the western and eastern directions had been performed, due to the changed situation in the world. The Group was evaluating the possibility of complete import substitution of equipment provided for in the project.

In respect of open-pit mining in certain area of Lot 2, as the Group cared for the public, the Group consulted with experts on all fronts to find out how best to minimize the impacts on the environment. To prove this, similarly the Group was analyzing technical documents that mine development would not adversely affect the environment and was studying new approaches to mine ventilation, the filling mined-out space, the creating of underground repair shops and storage points for fuels and lubricants. Similarly, analysis was conducted on the carrying and throughput capacities of transport infrastructure (in particular coal) both in the western and eastern directions as the changed situation in the world, and exploring the possibility of complete import substitution of equipment provided for in the project.

In respect of underground mining of Lot 2, similarly, the Group listened to the opinions and concerns of the local community about the possibility of environmental contamination. To prove this, similarly the Group was conducting an analysis of technical documents proving compliance with environmental standards and was studying new approaches to mine ventilation, the filling of mined-out space, the creating of underground repair shops and storage points for fuels and lubricants. Similarly, analysis of the carrying and throughput capacities of transport infrastructure (in particular coal) both in the western and eastern directions was conducted as the changed situation in the world, and possibility of complete import substitution of equipment provided for in the project was evaluated.

Geographical

In the year under review, Korea was the Group's sole market segment which accounted for 100.00% (2023: 100.00%) of the total revenue.

PROSPECTS

Looking forward, the year ahead will remain challenging for the Group. Despite economic resilience earlier this year, it would be too pre-matured to conclude the start of a long term uninterrupted global economy recovery. In the post-pandemic era, economic activities growth is still overshadowed by the high interest rate. The recent military confrontation between Israel and Hamas, the persistent Russia-Ukraine military conflict and the ongoing Sino-USA trade conflict and the possible "decoupling risks" will continue to weigh on the global economic outlooks and pose downside risks. Hence, all these will make the global economic trends rather volatile and uncertain, which would make the Group's diesel and gasoline trading business rather challenging and would also have impacts on the coal prices as well as the demand of the respective coal products.

The Company, apart from focusing on its core businesses of trading and coal mining, may also consider diversification into other business areas when opportunities arise.

Trading

The Group will further strengthen the trading business in Korea by (i) continuously providing competitive prices for individual petrol stations; (ii) ensuring the stable supply at petrol stations; (iii) improving the quality of petroleum products; (iv) offering exceptional customer services; (v) standing out from market competition; (vi) reducing cost of goods sold; (vii) operating more petrol stations; (viii) going to the customers by advertising; (ix) continuing the engagement with prospective customers in online social media; and (x) finding a possible lot area for storage of diesel.

In parallel, the Group will also strive to meet the needs of different customers looking for diversified products, and it will not hesitate to further diversify its trading business into other products when opportunities arise.

Coal Mining

In respect of Lot 1 and Lot 1 Extension underground mining, the Group will continue to consult with government officials and experts in the fields of law, environment and economy, despite the war between Russia and Ukraine may make the current situation in Russia rather unstable both internally and externally. The Group also plans to hold more public hearings this year and looks forward to communicating well with the community and gaining support from the community.

Because open pit mining in certain area of Lot 2 requires more effort to maintain the environment than that of underground mining, the Group will focus more on developing development plans that comply with environmental standards and will continue to cooperate with local governments and local communities for a smooth start of the business. In addition, the Group will research the possibility, based on an existing project, of introducing automation tools designed to increase production efficiency and minimize labor costs for ordinary operations.

In respect of underground mining of Lot 2, the Group will actively consider the opinions and concerns of local residents about the mining industry, prepare evidence for compliance with environmental standards, and work continuously with local governments and local communities. Similarly, the Group will research the possibility, based on an existing project, of introducing automation tools designed to increase production efficiency and minimize labor costs for ordinary operations.

PLACING OF SHARES, LOAN CAPITALIZATIONS AND THE THIRD CONVERTIBLE NOTE

To further improve the financial position, the Company will strive to grasp opportunities in possible capitalizations of certain loans and the Third Convertible Note as well as potential equity funding such as issuance of new shares under specific mandate and/or general mandate. In addition, the Company will try its best to maintain proper communications with the holders of the Third Convertible Note to resolve the alleged disputes in an amicable manner, and may explore the possibility of possible conversion of a significant portion of convertible note and/or the possible extension of the maturity date.

LIQUIDITY AND FINANCIAL RESOURCES

As at 31 March 2024, the Group had net current liabilities of HK\$3,705.06 million (2023: HK\$3,704.43 million). The Group's current ratio, being a ratio of current assets to current liabilities, was 0.39% (2023: 0.64%) and the Group's gearing ratio, being a ratio of total interest-bearing borrowings to total assets, was 8.46% (2023: 8.83%).

The Group generally finances its operations with internally generated cash flows, loans from a substantial Shareholder and its associates, and independent third parties, and through the capital market available to listed companies in Hong Kong.

During the year under review, the Group recorded a net cash outflow of HK\$9.19 million (2023: net cash inflow of HK\$2.82 million), while the total cash and cash equivalents decreased to approximately HK\$0.23 million (2023: approximately HK\$5.35 million) as at the end of reporting year.

As at 31 March 2024, the interest-bearing borrowings of the Group amounted to HK\$62.10 million (2023: HK\$61.43 million), the majority of which was repayable within a period of more than one year but not exceeding two years (2023: majority repayable within a period of more than one year but not exceeding two years). As at 31 March 2024, amounts due to Shareholders amounted to HK\$172.66 million (2023: HK\$166.10 million), the majority of which was repayable within a period of more than one year but not exceeding two years (2023: majority repayable within a period of more than one year but not exceeding two years).

The Directors will endeavour to further enhance the Group's financial strengths so as to tackle the net current liabilities position of the Group as at 31 March 2024. Cost control measures have already been in place to monitor the day-to-day operational and administrative expenses. The Directors will continue to closely review the Group's financial resources in a cautious manner and explore opportunities in potential financial institutions financing and equity funding. The Company will take proactive actions to improve the liquidity and financial position of the Group by way of equity fund raising exercises including placement of new shares as well as other pre-emptive offers. The Company will closely monitor the market situation and take prompt actions when such opportunities arise. During the year, the Company has raised several loans of approximately HK\$4.99 million in total (2023: HK\$39.41 million) for the Group's daily operation, and preparation works in relation to the Russian coal mines. In addition to the above measure to improve the liquidity of the Group, the Company also explores ways to improve its overall financial position. In particular, the Company will communicate with specific holders of the Third Convertible Note, with an aim to deal with such major liability of the Group, including but not limited to the possible conversion of a significant portion of the outstanding Third Convertible Note. The Company believes that such conversion, if happened, will be beneficial to the Company, its Shareholders and other stakeholders of the Company (including the holders of the Third Convertible Note) as a whole as the overall gearing of the Group will be improved and the equity base of the Company will be strengthened. The Company may then be able to improve its overall financial position.

EXPOSURE TO FLUCTUATION IN EXCHANGE RATES AND RELATED HEDGES

The Group’s turnover, expenses, assets and liabilities are denominated in HK\$, USD, RUB and KRW. The exchange rates of USD against HK\$ remained relatively stable during the year under review. Certain expenses of the Group are dominated in RUB and KRW which fluctuated in a relatively greater spread during the year. Therefore, the Shareholders should be aware that the exchange rate volatility of RUB and KRW against HK\$ may have favourable or adverse effects on the operating results of the Group.

Taking into consideration of the amount of revenue and expenses involved, the Group at present has no intention to hedge its exposure from foreign currency exchange rate risk involving RUB and KRW. However, the Group will constantly review exchange rate volatility and will consider using financial instruments for hedging when necessary.

Due to the sanctions on Russia by United States of America, European Union and major Western Governments, renewal of D&O Insurance was declined by the international insurance companies because of the Group’s involvement of a Russian subsidiary (Lapi) and Russian assets (coal mining rights in Russia). There was no D&O Insurance coverage for the Directors during the period from 22 December 2022 to 22 August 2023.
