The Subscriptions were and will be funded by the Group's surplus cash reserve derived from its business operations.

As of the date of this announcement, the aggregated principal amount of Subscriptions (including Subscriptions subscribed on July 10, 2024) of the Wealth Management Products that remained outstanding was RMB54.0 million.

BASIS OF DETERMINATION FOR THE CONSIDERATION

The Directors confirmed that the considerations of the Subscriptions were determined on the basis of commercial terms negotiated at arm's length between the Group and Galaxy Jinhui, having considered the then available surplus cash of the Company for treasury management purpose.

REASONS FOR AND BENEFITS OF SUBSCRIPTION OF THE WEALTH MANAGEMENT PRODUCTS

Each of the Wealth Management Products is characterized by its nature of satisfactory liquidity, and the Subscriptions were used by the Company for treasury management purpose in order to maximize its return on the surplus cash derived from its business operations. The Group expects that the Wealth Management Products will earn a better yield than the prevailing fixed-term deposit interest rates generally offered by commercial banks in the PRC and in Hong Kong while at the same time offer flexibility to the Group in terms of treasury management. As such, the Directors (including independent non-executive Directors) are of the view that the terms of each of the relevant Wealth Management Products are fair and reasonable, and are on normal commercial terms and each Subscription is in the interests of the Company and the Shareholders as a whole. The Group implemented adequate and appropriate internal control procedures to ensure the Subscriptions would not affect the working capital or the operations of the Group, and that such investments would be conducted on the principle of protecting the interests of the Group and the Shareholders as a whole.
