CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

2. BASIS OF PREPARATION

(a) Statement of compliance

The condensed consolidated interim financial information of the Group has not been audited. The unaudited condensed consolidated interim financial statements of the Group for the six-month period ended 30 June 2024 have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”) and in accordance with the applicable disclosure requirements of the GEM Listing Rules.

(b) Basis of measurement and going concern assumption

The unaudited condensed consolidated interim financial statements of the Group for the six-month period ended 30 June 2024 do not include all the information and disclosure required in the annual financial statements and should be read in conjunction with the audited annual financial statements included in the annual report of the Company dated 28 March 2024. The accounting policies adopted are consistent with those applied in the Group’s audited annual financial statements for the year ended 31 December 2023, which have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”), except the new and revised HKFRSs, which are effective for the financial year beginning from 1 January 2024. The adoption of these new and revised HKFRSs has not had material impact on the unaudited condensed consolidated interim financial statements of the Group for the six-month period ended 30 June 2024. The Group has not early applied the new and revised HKFRSs that have been issued by the HKICPA but are not yet effective.

As at 30 June 2024, the Group had net current liabilities and net liabilities of approximately HK\$43,438,000 and HK\$25,517,000 respectively. These conditions indicate the existence of a material uncertainty which may cast significant doubt on the Group’s ability to continue as a going concern and consequently, the Group may not be able to realise its assets and discharge its liabilities in the normal course of its business.

In order to ensure the Group's ability to operate as a going concern, the directors of the Company have implemented measures to deal with the conditions referred to above, as follows:

- (i) the management will continue to negotiate with banks for renewing banking facilities. Based on the latest communications with the banks, the directors of the Company are not aware of any intention of the banks to withdraw their bank facilities or require early repayment of the loans, and the directors believe that the existing bank facilities will be renewed when their current terms expire given the good track records and relationships the Group has with the banks;
- (ii) the management will consider other financing arrangements and fund-raising alternatives with a view to increasing the Group's capitalisation/equity and to support the continuing growth of the Company; and
- (iii) the directors of the Company will continue to implement stronger measures aiming at improving the working capital and cash flows of the Group, including closely monitoring incurrence of other operating expenses.

Having considered the above and after reviewing the cash flow forecast of the Group, the Directors are of the opinion that it is appropriate to prepare the consolidated financial statements of the Group for the six months ended 30 June 2024 on a going concern basis.

Provided that the above-mentioned plans and measures can be successfully achieved and improve the liquidity position of the Group, the Directors of the Company are satisfied that the Group will be able to meet its financial obligations as and when they fall due for the foreseeable future. Accordingly, the interim financial statements have been prepared on a going concern basis. Should the Group be unable to operate as a going concern, adjustments would have to be made to write down the value of assets to their recoverable amounts, to provide for any further liabilities which might arise and to reclassify non-current assets and liabilities as current assets and liabilities. The effect of these adjustments have not been reflected in the interim financial statements.

3. OPERATING SEGMENT

Information reported internally to the chief operating decision makers for the purpose of resource allocation and assessment of segment performance focuses on types of goods or services delivered or provided. The Group is principally engaged in food and beverage and entertainment. A single management team reports to the chief operating decision makers who comprehensively manages such entire business segment. Accordingly, the Group does not have separately reportable segments.

In the changing patterns of spending by consumers, including northbound travel trends and consumers making budget conscious choices, has made the business environment of the food and beverage industry in Hong Kong challenging.

Revenue

Total revenue of the Group decreased by 10.6% from approximately HK\$47.3 million in the first half of 2023 to approximately HK\$42.3 million in the same period of 2024 the main reason for the decline in revenue is that customers' spending patterns are gradually shifting towards consumption in mainland China.

OUTLOOK

As more time is required for a complete economic recovery, the Group will adopt a prudent approach on the business development of the restaurant industry.

Looking forward to the second half of 2024, inflationary pressures, the risk of financing costs will be a key concern for the Group as its business operation is inevitably relying on capital leverage. The change of dining habits of customers after COVID-19 would also be a critical factor affecting the Group's operation.

The Group completed share consolidation and rights issue in 2023 to enhanced its working capital and improve its financial position. The board believes that the rest of 2024 would recover further and the Group will plan to continue optimizing its existing operations to enhance operational efficiency. At the same time, the Group's management is exploring investment opportunities in the restaurant and/or new business sectors.

Overall, the Company will continue to review its existing business on a regular basis and is committed to improving the business operations and financial position of the Group, while trying to identify potential business and investment opportunities to expand its source of income. Despite the uncertain and challenging business environments in Hong Kong, we will try our best to leverage our brand and network in order to improve our financial positions for our shareholders.
