Management's Discussion and Analysis

Business Review

Printer Business

For the six months ended 30 June 2024, the revenue of the Group derived from the printer business was approximately RMB71,741,000, which accounted for approximately 85% of the total revenue of the Group and represented a decrease of approximately 31% as compared with that of the corresponding period in 2023. The decrease in revenue was mainly attributable to the full implementation of digital e-invoicing in Mainland China in a continuous manner and the lack of sufficient market demand.

Other Products

For the six months ended 30 June 2024, the revenue of the Group derived from the other products business amounted to approximately RMB12,496,000, which accounted for approximately 15% of the total revenue of the Group and represented a decrease of approximately 9% as compared with that of the corresponding period in 2023. The decrease in revenue was mainly attributable to the delayed market launch of medical products in the first half of 2024.

Future Business Outlook

In the first half of 2024, the Company's reported a year-on-year decline in its business given the ongoing promotion of the use of electronic invoices in Mainland China, coupled with diminished retail and commercial activities in the market amidst lacklustre sentiments in the real estate and consumer spending sectors. In the second half of the year, the Company will focus on strengthening the application of dot-matrix printers in the manufacturing industry, e-commerce, logistics, combined document printing, financial vouchers and remote printing managed internally by the trade enterprises and to increase the market development of medical equipment products.

Management’s Discussion and Analysis (continued)

Printing Equipment and Printing Solutions

The Company’s “PC cloud printer” which came online in 2023 has upgraded the traditional Jolimark printer to a cloud printer through the computer and the cloud environment, a move which is set to enhance the market competitiveness of the Jolimark printers. The Company will shortly launch the “Smart Finance e-Office” series of professional printers for the financial management business, which is capable of identifying the contents of printing with the aid of smart functions and combining the binding mode to change paper of different specifications automatically in different paper feeders. It facilitates professional and standardised printing of account books and evidence in a convenient manner, while providing corporate management systems such as invoice data management, mobile reimbursement management and corporate document printing management to realise multiple functions in one machine and the dual roles of printing and management, thereby significantly enhancing the efficiency of corporate management.

Self-serviced Terminals

Offered in a range of formats, including desk, cabinet, operating platform, desktop and screenless terminals by leveraging the Company’s unique core technologies such as red and black dual-colour inkjet printing, cloud printing, 2,000-page paper feed and remote error alert, the Jolimark self-serviced terminal product line has already been successfully adopted in smart government services, medical care, state grid service hall, tax administration halls, welfare lottery centres and postal service.

Big Data and SAAS Cloud Application

By taking advantage of Jolimark’s expertise in cloud printing, the Company has developed a variety of SAAS cloud applications. Applications that are already in operation currently include the “E Invoicing (E開單)” app which is specifically tailored for small to medium wholesalers to enable them to print invoices remotely through mini-programs and to facilitate management of store commodities and customers. The “Hassle-free reimbursement” app for financial reimbursement is targeted at small and medium enterprises enabling them to process online reimbursement approvals, print reimbursement bills and invoices remotely and conduct verification and duplication checks on invoices. In addition, the “Jolimark Cloud Printing” platform provides shared paid printing and advertising functions, while “Digital Electronic Printing” (數電易) is catered to business operators that provide daily-living services, fulfilling business operators’ need to issue digitalised electronic invoices in a convenient and efficient manner and complemented by AI digitalised electronic mini-invoice device which facilitates automated issuance of digitalised electronic invoices and collection of operation data.

Medical Equipment Products

The medical-grade compressor-based nebulisers launched by the Company in 2021 have been widely praised in the market for its outstanding performance underpinned by minute granularity, low noise generation and multi-level volume adjustment.

The Company obtained the medical product registration permits for its 3L-equivalent (PMO30 and PMO50) and 7L-equivalent (PMO720 Series) portable oxygen concentrator in early 2022 and late 2023 and for its 5L-equivalent (PMO530 Series) portable oxygen concentrator in April 2024. The Company's minute-size and lightweight product equipped with a built-in battery not only enables patients to carry supplementary oxygen around to sustain and enhance their normal blood oxygen saturation level, but also frees them from the physical constraints of the traditional desk-top oxygen concentrator and allows them to remain socially engaged as usual and embrace outdoor activities at a normal rhythm.

The Company commenced research and development of the 5L vertical oxygen concentrator (HM500 Series) in May 2024. This product features the balanced four-cylinder compressor, an exclusive product of the Company which employs the state-of-the-art VPSA (vacuum pressure swing adsorption) oxygen concentration system and unique air drying and patented noise reduction technology to achieve minimum noise level (28db at the lowest) and optimal performance (molecular sieve life of over 20,000 hours). The product is scheduled for launch in the first half of 2025. In the meantime, our development of the ring oximeter has entered the stage of clinical test and the product is scheduled for launch by the end of 2024 to become the first-ever product linking oxygen concentrator, oximeter and information of the human body.

Financial Review

Results Summary

For the six months ended 30 June 2024, the Group's turnover amounted to approximately RMB84,237,000, representing a decrease of approximately 29% as compared to that of the corresponding period of last year. The loss attributable to shareholders of the Company amounted to approximately RMB43,406,000, as compared with a loss of approximately RMB34,232,000 in the first half of 2023. The basic loss per share as at 30 June 2024 was approximately RMB0.071 (the basic loss per share as at 30 June 2023: RMB0.056). The loss attributable to shareholders for the first half of 2024 was mainly due to the full implementation of digital e-invoicing in Mainland China in a continuous manner and the lack of sufficient market demand as well as the recognition of asset impairment.

Analysis of Sales and Gross Profit

Compared with the first half of 2023, due to the full implementation of digital e-invoicing in Mainland China in a continuous manner and insufficient market demand, the Group's total sales revenue in the first half of 2024 was RMB84,237,000, represented a decrease of approximately 29% as compared with that of the corresponding period in 2023.

The Group's consolidated gross loss was RMB3,973,000, and consolidated gross profit margin decreased to -5%, which was due to the provision of impairment of approximately RMB8,580,000 and approximately RMB17,692,000 for inventories and long-term assets respectively. If the provision for impairment of long-term assets is added back, the Group's consolidated gross profit would be RMB13,719,000 and the consolidated gross profit margin would be 16%.

Capital Expenditure

For the six months ended 30 June 2024, capital expenditure of the Group amounted to approximately RMB2,172,000, which was mainly used for the acquisitions of production equipment and customization of product molds.

Financial and Liquidity Position

As at 30 June 2024, the total assets of the Group amounted to approximately RMB206,709,000 (31 December 2023: RMB254,190,000), controlling shareholder's interests amounted to approximately RMB31,757,000 (31 December 2023: RMB77,852,000); non-controlling interests amounted to approximately RMB(1,246,000) (31 December 2023: RMB(1,077,000)); current liabilities amounted to approximately RMB155,590,000 (31 December 2023: RMB152,233,000), and the current ratio (the ratio of current assets to current liabilities) of the Group was approximately 0.78 (31 December 2023: 0.91). The decrease in current ratio was mainly attributable to a decrease in current assets of approximately RMB17,107,000 during the year.

As at 30 June 2024, the cash and cash equivalents and restricted cash of the Group amounted to approximately RMB27,539,000 (31 December 2023: RMB37,291,000) in aggregate. The outstanding bills receivables from customers amounted to approximately RMB5,052,000 (31 December 2023: approximately RMB5,750,000). The bank loans amounted to approximately RMB119,674,000 (31 December 2023: approximately RMB108,749,000). The gearing ratio of the Group was 57.9% as at 30 June 2024 (31 December 2023: 42.8%), being a ratio of sum of bank loans of RMB119,674,000 (31 December 2023: RMB108,749,000) to total assets.

Management's Discussion and Analysis (continued)

Financial Assets at Fair Value through Other Comprehensive Income

The amount represents the Group's medium to long term equity investments in private enterprises.

As at 30 June 2024, the fair value of the Company's investment was RMB15,477,000 (31 December 2023: RMB18,964,000). Of which, the Group's holding of 1.76% interest in 廣東航天信息愛信諾科技有限公司 (Guangdong Aerospace Information Aisino Technology Co., Ltd.) ("Guangdong Aisino"), a company that is engaged in electronic invoices and related software development business, accounted for RMB8,515,000 (31 December 2023: RMB10,654,000) representing approximately 55.02% (31 December 2023: 56.18%) of the Group's financial assets at fair value through other comprehensive income. The original investment cost of the Company in Guangdong Aisino in February 2018 was RMB528,000. Save for the investments in Guangdong Aisino, the Company also hold minority interests in four other companies, ranging from 0.35% to 10%.

The investment strategy of the Company is to invest in companies that are engaged in upstream or downstream industries and have synergy effects to the business of the Group.

Pledge of Assets

As at 30 June 2024, property, plant and equipment and right-of-use assets of RMB38,443,000 (31 December 2023: RMB42,089,000) were pledged as collateral for the Group's bank borrowings of RMB109,000,000 (31 December 2023: RMB97,000,000). As at 30 June 2024, the transferred or discounted receivables recognised in bills receivable amounted to RMB4,921,000 (31 December 2023: RMB5,742,000). The amounts repayable under these agreements are presented as secured borrowing of RMB4,913,000 (31 December 2023: RMB5,719,000).

Foreign Currency Risks

The Group mainly operates in the Chinese Mainland with most of the transactions denominated and settled in RMB. However, the Group is exposed to foreign exchange risks for assets and liabilities denominated in Hong Kong dollars, United States dollars, Taiwanese dollars and Euro arising from the import of certain raw materials and machinery, sales of goods to overseas customers and borrowings that are denominated in foreign currencies. As at 30 June 2024, the Group had more monetary financial liabilities than financial assets outside Chinese Mainland.

The Group manages and monitors its foreign exchange risks by performing regular review of the Group's net foreign exchange exposures and mitigates the impact of exchange rate fluctuations by reducing the financial liabilities if needed.

Acquisitions and Disposals of Subsidiaries, Associates and Joint Ventures

The Group did not have any material acquisitions or disposals of subsidiaries, associates and joint ventures during the Period.

Future Plans for Material Investments or Capital Assets

As at the date of this report, the Group does not have any plan for any material investments or capital assets.

Management's Discussion and Analysis (continued)

Contingent Liabilities

The Group had no material contingent liabilities as at 30 June 2024 (31 December 2023: nil).

Staff

As at 30 June 2024, the Group employed a total of 621 staff members (31 December 2023: 670 staff members). Apart from 6 employees employed in Hong Kong and overseas, all employees of the Group were based in Chinese Mainland. The Group applies its remuneration and bonus policies for employees with reference to business results and individual staff performance. In addition, fringe benefits, such as social security insurance, medical allowance and housing provident fund, were provided to ensure the Group remains as a competitive employer. In addition, the Group has maintained a share option scheme to reward and incentivize its employees.

Miscellaneous

The board of Directors (the "Board") is of the opinion that there have been no material changes to the information published in the Company's annual report for the year ended 31 December 2023, other than those disclosed in this report.

Events after the Period

There were no other significant events after the Period and up to the date of this report.

Interim Dividend

The Board of directors of the Company did not recommend the payment of an interim dividend for the six months ended 30 June 2024 (six months ended 30 June 2023: nil).

Report on Review of Interim Financial Information

羅兵咸永道

To the Board of Directors of Jolimark Holdings Limited

(incorporated in the Cayman Islands with limited liability)

Introduction

We have reviewed the interim financial information set out on pages 11 to 34, which comprises the interim condensed consolidated balance sheet of Jolimark Holdings Limited (the “Company”) and its subsidiaries (together, the “Group”) as at 30 June 2024 and the interim condensed consolidated income statement, the interim condensed consolidated statement of comprehensive income, the interim condensed consolidated statement of changes in equity and the interim condensed consolidated statement of cash flows for the six-month period then ended, and selected explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard 34 “Interim Financial Reporting” issued by the Hong Kong Institute of Certified Public Accountants. The directors of the Company are responsible for the preparation and presentation of this interim financial information in accordance with Hong Kong Accounting Standard 34 “Interim Financial Reporting” issued by the Hong Kong Institute of Certified Public Accountants. Our responsibility is to express a conclusion on this interim financial information based on our review and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Scope of Review

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity” issued by the Hong Kong Institute of Certified Public Accountants. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information of the Group is not prepared, in all material respects, in accordance with Hong Kong Accounting Standard 34 “Interim Financial Reporting”.

Report on Review of Interim Financial Information (continued)

Material Uncertainty Related to Going Concern

We draw attention to Note 2(b) to the interim financial information, which indicates that the Group incurred a net loss of approximately RMB 43,495,000 during the period ended 30 June 2024, and a net operating cash outflow of approximately RMB 18,686,000. As of that date, the Group's current liabilities exceeded its current assets by approximately RMB 33,707,000. The Group had total bank borrowings of approximately RMB 119,674,000, of which approximately RMB 101,467,000 were current bank borrowings repayable within the next twelve months from 30 June 2024, while it had cash and cash equivalents of approximately RMB 27,539,000 as at 30 June 2024. As stated in Note 2(b), these conditions, along with other matters as set out in Note 2(b) to the interim financial information, indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Our conclusion is not modified in respect of this matter.

Notes to the Condensed Consolidated Interim Financial Information

(All amounts in Renminbi Yuan thousands unless otherwise stated)

1. General information

Jolimark Holdings Limited (the “Company”) was incorporated in the Cayman Islands on 22 July 2004 as an exempted company with limited liability under the Companies Act (2003 Revision) of the Cayman Islands. The address of its registered offices is Windward 3, Regatta Office Park, PO Box 1350, Grand Cayman KY1-1108, Cayman Islands.

The Company is an investment holding company. The principal activities of the Company and its subsidiaries (the “Group”) are manufacture and sale of printers, other electronic products and other non-electronic products mainly in the mainland of People’s Republic of China (the “Chinese Mainland”).

The Company has been listed on the Main Board of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”) since 29 June 2005.

This condensed consolidated interim financial information has not been audited.

2. Basis of preparation

(a) Compliance with HKFRS and HKCO

This condensed consolidated interim financial information for the six months ended 30 June 2024 has been prepared in accordance with Hong Kong Accounting Standard 34 “Interim financial reporting” issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”).

The condensed consolidated interim financial information does not include all the notes of the type normally included in an annual financial statements. Accordingly, this report is to be read in conjunction with the annual financial statements for the year ended 31 December 2023, which have been prepared in accordance with Hong Kong Financial Reporting Standards (the “HKFRS”), and the disclosure requirements of the Hong Kong Companies Ordinance Cap.622 (“HKCO”).

(b) Going concern basis

For the six months ended 30 June 2024, the Group recorded a loss of approximately RMB43,495,000 and a net operating cash outflow of approximately RMB18,686,000. As at 30 June 2024, the Group’s current liabilities exceeded its current assets by approximately RMB33,707,000. The Group had total bank borrowings of approximately RMB119,674,000, of which approximately RMB101,467,000 were current bank borrowings repayable within the next twelve months from 30 June 2024, while it had cash and cash equivalents of approximately RMB27,539,000 as at 30 June 2024.

Given the countrywide application of the fully digitalized electronic invoice, domestic market demand of the dot-matrix printers decreased continuously, the sales of dot-matrix printers, which was the Group’s main products, decreased during the six months ended 30 June 2024, which led to a 31% decrease in revenue of Printers Segment (note 6) and resulted in net operating cash outflows.

The above conditions indicated the existence of a material uncertainty which may cast a significant doubt on the Group’s ability to continue as a going concern.

2. Basis of preparation (Continued)

(b) Going concern basis (Continued)

In view of such circumstances, the directors of the Company (the “Directors”) have given careful consideration to the future liquidity and operating performance of the Group and its available sources of financing to assess whether the Group will have sufficient financial resources to meet its financial obligations to continue as a going concern. Plans and measures have been taken to mitigate the liquidity pressure and to improve its financial position, including but not limited to the following:

- (i) The Group will closely monitor its compliance of covenants related to bank borrowings and will seek for extension and renewal of its existing bank borrowings upon maturity. In August 2024, the Group has successfully renewed a bank loan of RMB20,000,000. In addition, the Group will have certain bank borrowings amounted to RMB30,000,000 that will mature in January 2025 which the renewal conditions require repayment before the drawing of new facilities. The controlling shareholder of the Company has committed to provide a standby facility as a safeguard of a sufficient amount from now to 31 January 2025 to facilitate the renewal of these bank borrowings when needed. Management believes that the Group’s existing facilities will continually be available and the Group will be able to extend and renew its bank borrowings successfully, as most of these borrowings are secured by the Group’s property, plant and equipment and right-of-use assets.
- (ii) The Group anticipated that the domestic market demand for dot-matrix printers will be stabilized. The Group will continue to develop and enhance the functionalities of its dot-matrix printers and expand its sales channels. The Directors of the Group are confident that the sales of dot-matrix printers can contribute steady cash inflows to the Group.

Built on the strong foundation of its research and development as well as production capacity, the Group will continue to expand its product offerings in the emerging consumer printing equipment and medical equipment markets. The Directors of the Group are optimistic about the potential and growth of the sales in these two markets which will provide additional cash inflows to the Group in 2024 and 2025.

- (iii) The Group has taken certain strict cost and expenditures control measures in the second quarter of 2024, and will continue to implement such measures to reduce operating cash outflow.

The Directors have reviewed the Group’s cash flow projections prepared by management, which cover a period not less than twelve months from 30 June 2024. In light of the above and taking into account the anticipated net operating cash inflows as well as the above plans and measures, the Directors are of the view that the Group will have sufficient financial resources to satisfy its future working capital requirements as and when they fall due in the coming twelve months from 30 June 2024. Accordingly, the Directors consider that it is appropriate to prepare the consolidated financial statements on a going concern basis.

2. Basis of preparation (Continued)

(b) Going concern basis (Continued)

Notwithstanding the above, a material uncertainty exists as to whether the Group will be able to achieve its plans and measures as described above. Whether the Group will be able to continue as a going concern would depend upon the Group's ability to generate adequate cash flows through:

- (i) continued availability of the existing bank facilities of the Group, the standby facility as a safeguard of a sufficient amount from the controlling shareholder as and when required and successful and timely extension and renewal of its bank borrowings upon maturity;
- (ii) successful implementation of the plans and measures to improve the operation performance of the business of printers and medical equipment products to generate operating cash inflow; and
- (iii) successful implementation of the measures to strictly control cost and expenditures payments to reduce operating cash outflow.

Should the Group be unable to achieve the above plans and measures such that it would not be able to operate as a going concern, adjustments would have to be made to write down the carrying values of the Group's assets to their recoverable amounts, and to reclassify non-current assets and non-current liabilities as current assets and current liabilities, respectively. The effect of these adjustments has not been reflected in the condensed consolidated interim financial information.

3. Accounting policies

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, except for the adoption of new and amended standards as set out below.

3.1 New and amended standards adopted by the Group

The following new and amended standards are mandatory for adoption for the financial year beginning 1 January 2024 for the Group:

HKAS 1 (Amendment)	Classification of Liabilities as current or non-current
HKAS 1 (Amendment)	Non-current liabilities with covenants
HKFRS 16 (Amendment)	Lease liability in sale and leaseback
HKAS 7 and HKFRS 7 (Amendment)	Supplier Finance Arrangements

The Group has assessed the impact of the adoption of these new and amended standards that are effective for the first time for this financial year and has concluded that they do not have significant impact on the Group's accounting policies and do not require retrospective amendments and interpretation adjustments.

Notes to the Condensed Consolidated Interim Financial Information (continued)

(All amounts in Renminbi Yuan thousands unless otherwise stated)

3. Accounting policies (Continued)

3.2 New and amended standards, and interpretations to standards issued but are not effective for financial year beginning 1 January 2024 and have not been early adopted by the Group:

		Effective for annual periods beginning on or after
HKAS 21 (Amendment)	Lack of Exchangeability	1 January 2025
IFRS 9 and IFRS 7 (Amendment)	Classification and measurement of Financial Instruments	1 January 2026

The above new standards, amendments to existing standards and interpretations are effective for annual periods beginning after 1 January 2025 and 1 January 2026 and have not been applied in preparing this condensed consolidated interim financial information. None of these is expected to have a significant effect on the condensed consolidated interim financial information of the Group.

4. Critical accounting estimates and judgements

The preparation of interim financial information requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In preparing of this condensed consolidated interim financial information, significant judgments were made by management in applying the Group's accounting policies and the key sources of estimation uncertainty was the same as those applied to the preparation of the consolidated financial statements for the year ended 31 December 2023.

5. Financial risk management

5.1 Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk.

The interim condensed consolidated financial information does not include all financial risk management information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements for the year ended 31 December 2023.

There have been no significant changes in risk management policies during the six months ended 30 June 2024.

(a) Liquidity risk

The group meets its day-to-day working capital requirements through its bank facilities. The current economic conditions continue to create uncertainty particularly over (a) the level of demand for the group's products; and (b) the availability of bank finance for the foreseeable future. The group's forecasts and projections, taking account of reasonably possible changes in trading performance, show that the group should be able to operate within the level of its current facilities. After making enquiries, the directors have a reasonable expectation that the group could renew its banking facilities when they expire and therefore has adequate resources to continue in operational existence for the foreseeable future. The group therefore continues to adopt the going concern basis in preparing its interim condensed consolidated financial information.

5.2 Fair value estimation

The Group's financial assets include cash and cash equivalents, restricted cash, trade and other receivables and financial assets at fair value through other comprehensive income ("FVOCI"). The Group's financial liabilities include trade and other payables and borrowings. The fair value for financial assets and liabilities with maturities less than one year are assumed to approximate their carrying amounts due to their short term maturities.

The different levels of fair value hierarchy are defined as below:

Level 1 – The fair value of financial instruments traded in active markets (such as publicly traded derivatives, and trading and available-for-sale securities) is based on quoted market prices at the end of the reporting period. These instruments are included in level 1.

Level 2 – The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3 – If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities.

	30 June 2024	31 December 2023
Level 3		
Financial assets at FVOCI		
– unlisted equity securities (note 10)	15,477	18,964

The Group manages the valuation of level 3 instruments for financial reporting purpose on a case by case basis. At each reporting date, the Group would assess the fair value of the Group's level 3 instruments by using valuation techniques, including:

- the use of quoted market prices or dealer quotes for similar instruments
- the recent market transactions for the same or a similar asset
- for other financial instruments – discounted cash flow analysis or market approach.

Quantitative information about fair value measurement using significant unobservable inputs (Level 3) is as follow:

Description	Fair value at 30 June 2024	Valuation techniques	Unobservable inputs	Range of inputs at 30 June 2024	Relationship of unobservable inputs to fair value
Financial assets at FVOCI – unlisted equity securities	8,515*	Market approach	Price-to-sales Ratio ("P/S")	P/S: 3.06–14.70	The higher P/S, the higher fair value
	1,786	Market approach	Price-to-Book Ratio ("P/B")	P/B: 0.40–1.60	The higher P/B, the higher fair value
	–	Market approach	P/S	P/S: 8.71–23.37	The higher P/S, the higher fair value
	5,176	Market approach	Price Earnings Ratio ("P/E")	P/E: 28.32–49.87	The higher P/E, the higher fair value

6. Segment information

The directors and chief executive officer of the Group are the chief operating decision-makers (the “CODM”) of the Group. The CODM reviews the Group’s internal reporting in order to assess performance and allocate resources. Management has determined the operating segments based on these reports.

The CODM manages the Group’s business from the perspective of different product lines of the Group, i.e. printers and others. The CODM assesses the performances of the operating segments based on a measure of segment revenue and segment results.

The segment revenue and results and the reconciliation with loss for the six months ended 30 June 2024 are as follows:

	Printers	Other products	Total

8. Property, plant and equipment, right-of-use assets and intangible assets

(Continued)

(a) As at 30 June 2024, property, plant and equipment of RMB32,018,000 (31 December 2023: RMB35,523,000) and right-of-use assets of RMB6,425,000 (31 December 2023: RMB6,566,000) were pledged as collateral for the Group's bank borrowings (note 14).

(b) Impairment

(i) Assets level impairment

The accumulated impairment losses of RMB5,242,000 relates to the moulds that identified as obsolete and dormant assets due to the iteration of the relevant products. No additional loss was recognised in the income statement for the six months ended 30 June 2024.

(ii) Cash generated unit ("CGU") level impairment

Given the countrywide application of the fully digitalized electronic invoice, domestic market demand of the dot-matrix printers decreased continuously, the operating cash inflows from sales of dot-matrix printers, which was the Group's main products, were decreased during the six months ended 30 June 2024. As a result, the actual net operating cash flows or operating profit or loss flowing from the asset being used for the printer business were significantly worse than management's expectation. Both circumstances contribute to the indication of impairment of long-term assets. The management has conducted impairment tests on long-term assets accordingly.

The Group classifies the long-term assets comprising property, plant and equipment, intangible assets and right-of-use assets being used for the printer business as a CGU ("Printer CGU") to conduct impairment test of the long-term assets.

The long-term assets in the Printer CGU were written down from their carrying amount of RMB78,435,000 to its recoverable amount of RMB58,357,000, which was determined by the value-in-use of CGU and the pre-tax discount rate used in the value-in-use calculation is 14.19%.

For the six months ended 30 June 2024, additional impairment losses related to the Printer CGU are recognised in the income statement, amounted at RMB20,078,000, among which RMB19,431,000 and RMB647,000 were allocated to the property, plant and equipment and intangible assets, respectively.

For the six months ended 30 June 2024, the impairment losses of RMB17,692,000 and RMB2,386,000 are respectively recognised in cost of sales and administrative expenses in the income statement.

Hong Kong profits tax

The applicable Hong Kong profits tax rate is 16.5% for the six months ended 30 June 2024 (six months ended 30 June 2023: same).

Corporate income tax

During the six months ended 30 June 2024 and 2023, the Group's subsidiaries in the Chinese Mainland are subject to the China corporate income tax ("CIT") at a rate of 25% on estimated assessable profits, except that Kong Yue Electronics & Information Industry (Xinhui) Limited, the Group's major subsidiary in the Chinese Mainland, is qualified for high and new technology enterprise status and is therefore subject to a preferential income tax rate of 15%.

Dividend withholding tax

Dividends distributed out from the profits generated by the Chinese Mainland companies to their foreign investors should be subject to a withholding income tax of 10%, and a lower 5% withholding tax rate may be applied when the immediate holding companies of the Chinese Mainland subsidiaries are established in Hong Kong and meet the requirements to the tax treaty arrangements between the Chinese Mainland and Hong Kong.

During the six months ended 30 June 2024 and 2023, no provision for dividend withholding tax is necessary.

Overseas income tax

The Company is incorporated in the Cayman Islands as an exempted company with limited liability under the Companies Act (2003 Revision) of Cayman Islands and, accordingly, is exempted from Cayman Islands income tax. Subsidiaries of the Company in the British Virgin Islands (the "BVI") are incorporated under the International Business Companies Act of the BVI and, accordingly, are exempted from income tax in the BVI.
