Regarding the property management services, the Group employs the lump-sum basis and commission basis as the two revenue models under which property management fees are charged. On a lump-sum basis, the Group records all the fees as revenue and all the expenses incurred in connection with providing the property management services as cost of services. On a commission basis, the Group essentially acts as the agent of the property owners and therefore records only a pre-determined percentage of the property management fees or cost of services as set out in the property management service contracts as revenue. By adopting these two revenue models, the Group is able to cover the expenses incurred in connection with providing property management services.

SCOPE OF REVIEW

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410 “Review of Interim Financial Information Performed by the Independent Auditor of the Entity” issued by the Hong Kong Institute of Certified Public Accountants. A review of these condensed consolidated interim financial statements consists of making inquiry, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the condensed consolidated interim financial statements are not prepared, in all material respects, in accordance with HKAS 34.
