NOTES TO THE UNAUDITED CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

1. BASIS OF PREPARATION

On 10 May 2022, the Court accepted the restructuring application filed against the main operating subsidiary of the Group, Inner Mongolia Zhunxing Heavy Haul Expressway Company Limited* (內蒙古准興重載高速公路有限責任公司) (“Zhunxing”), by China Development Bank. The restructuring proposal has been approved by the Court on 26 September 2023. The Group is currently implementing and finalizing the restructuring. As of the approval of the condensed consolidated financial statements of the Group for the six months ended 30 September 2024 (the “Interim Financial Statements”), the restructuring is still in progress. These events or conditions indicate that there is uncertainty in the continuing operation of the Group.

Additionally, the Group incurred a net loss of approximately HK\$106,915,000 for the six months ended 30 September 2024 and as of that date, the Group had net current liabilities and net liabilities of approximately HK\$18,772,250,000 and HK\$13,020,982,000, respectively. The Company was in default in the repayment of the borrowings of approximately HK\$9,421,468,000, promissory note of approximately HK\$127,329,000 and non-convertible bonds with aggregate carrying amount of approximately HK\$4,395,648,000. These debts, together with the outstanding default interests accrued thereon of approximately HK\$4,455,640,000, totaling approximately HK\$18,400,085,000 are classified under current liabilities at 30 September 2024.

All of the above conditions indicate the existence of multiple material uncertainties which may cast significant doubt on the Group’s ability to continue as a going concern.

In view of the circumstances and conditions mentioned above, the directors of the Company have given careful consideration to the future liquidity and performance of the Group and its available sources of finance in assessing whether the Group will have sufficient financial resources to continue as a going concern. Certain measures have been taken by the Group to mitigate the liquidity pressure and to improve its financial position, which include, but not limited to, the following:

- (i) The Group is actively negotiating with the PRC banks and other creditors for finalizing the debt restructuring;

1. BASIS OF PREPARATION *(Continued)*

- (ii) The Group is actively negotiating with the Group's other lenders, promissory note holder and non-convertible bond holders to seek for the renewal or extension of repayments of all borrowings, non-convertible bonds and promissory note, including principals and interests in default; and

- (iii) The Group is actively negotiating with external parties to obtain new sources of financing to finance the Group's working capital and improve the liquidity position.

Assuming the successful implementation of the above measures, the directors of the Company are of the opinion that the Group will have sufficient working capital to meet its financial obligations as and when they fall due in the next twelve months from the date of approval of the Interim Financial Statements. Accordingly, the Interim Financial Statements have been prepared on a going concern basis.

Notwithstanding the above, significant uncertainties exist as to whether management of the Company will be able to achieve its plans and measures as described above. Whether the Group will be able to continue as a going concern would depend upon the Group's ability to generate adequate financing and operating cash flows through the following:

- (i) Successfully negotiating with the PRC banks and other creditors for finalizing the debt restructuring;

- (ii) Successfully negotiating with the Group's other lenders, promissory note holder and non-convertible bond holders for the renewal or extension of repayment of outstanding borrowings, non-convertible bonds and promissory note, including those with overdue principals and interests; and

- (iii) Successfully raising new funds for financing the working capital of the Group within the next twelve months from the date of approval of Interim Financial Statements.

1. BASIS OF PREPARATION *(Continued)*

Should the Group be unable to continue in business as a going concern, adjustments would have to be made to restate the value of assets to their recoverable amounts, to reclassify non-current assets and non-current liabilities as current assets and current liabilities respectively, and to provide for any further liabilities that may arise. The effects of these potential adjustments have not been reflected in the Interim Financial Statements.

The Interim Financial Statements have been prepared in accordance with the applicable disclosure requirements of Appendix 16 of the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited (the “Stock Exchange”) and with Hong Kong Accounting Standard (the “HKAS”) 34 – Interim Financial Reporting issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”).

The preparation of the Interim Financial Statements in conformity with HKAS 34 requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a year to date basis. Actual results may differ from these estimates.

The Interim Financial Statements contain unaudited consolidated financial statements and selected explanatory notes. These notes include an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the annual financial statements of the Group for the year ended 31 March 2024 (the “Annual Financial Statements”). The Interim Financial Statements thereon do not include all of the information required for full set of consolidated financial statements prepared in accordance with Hong Kong Financial Reporting Standards (the “HKFRSs”) (which in collective term includes all applicable HKFRSs, HKASs and Interpretations) issued by the HKICPA.

1. BASIS OF PREPARATION *(Continued)*

The accounting policies adopted for preparation of the Interim Financial Statements are consistent with those applied in the preparation of the Annual Financial Statements, except for the adoption of the new and revised HKFRSs as disclosed in Note 2 to the Interim Financial Statements in this report. The Interim Financial Statements are unaudited, but have been reviewed by the audit committee of the Company.

The Interim Financial Statements should be read in conjunction with the Annual Financial Statements.

2. ADOPTION OF NEW AND REVISED STANDARDS

The Group has adopted all of the new and revised standards, amendments and interpretations which are relevant to its operations and effective for the first time in the current period. The adoption of the new and revised standards, amendments and interpretations has had no significant impact on the consolidated financial performance and position of the Group and did not require retrospective adjustments.

The Group has not early adopted the new standards and amendment to standards that have been issued but are not yet effective. The directors of the Company anticipate that the application of the new and revised standards will have no material impact on the consolidated financial performance and position of the Group.

3. REVENUES

Revenues are derived from the principal activities of the Group, net of any sales taxes. The amounts of each significant category of revenue recognised at point in time during the period are as follows:

	Six months ended	
	30 September	
	2024	2023

4. SEGMENT INFORMATION

The chief operating decision makers have been identified as executive directors of the Company. They review the Group's internal reporting in order to assess performance and allocate resources, and determine the operating segments.

The Group has three reportable segments. These segments are managed separately as each business offers different products or provides different services and requires different business strategies. The following summary describes the operations in each of the Group's reportable segments:

- Expressway operations – the operations, management, maintenance and auxiliary facility investment of the Zhunxing Expressway;
- CNG gas stations operations – operations of CNG gas stations; and
- Others operations – sales of timber logs from tree plantation and outside suppliers, sales of seedlings and refined plant oil, sales of agricultural products and electricity supply by solar power stations.

There was no inter-segment sale or transfer during the period (six months ended 30 September 2023: HK\$Nil). Central revenue and expenses are not allocated to the operating segments as they are not included in the measure of the segments' results that is used by the chief operating decision makers for assessment of segment performance. The measure used for reportable segment profit or loss is profit or loss before unallocated finance costs and taxation.

Segment assets exclude unallocated financial assets at fair value through profit or loss, cash and cash equivalents, and other unallocated head office and corporate assets as these assets are managed on a group basis.

Segment liabilities exclude promissory note, non-convertible bonds, interest payable on non-convertible bonds and other borrowings, unallocated other borrowings and other unallocated head office and corporate liabilities as these liabilities are managed on a group basis.

Zhunxing entered into a service concession arrangement with a PRC local government authority whereby Zhunxing is required to build the infrastructure of Zhunxing Expressway and is granted an exclusive operating right for collecting tolls from vehicles using the Zhunxing Expressway for a term of 30 years.

According to the relevant government authority's approval documents and the relevant regulations, Zhunxing is responsible for the construction of the toll road and the acquisition of the related facilities and equipment and it is also responsible for the operations, management, maintenance and overhaul of the toll road during the exclusive operating period. Zhunxing is entitled to operate the toll road for an exclusive operating period of 30 years by charging drivers, which amounts are contingent on the extent that the public uses the expressway. The relevant toll road assets are required to be returned to the local government authorities when the exclusive operating periods expires without any compensation to be made to Zhunxing. As such, the arrangement is accounted for as a concession intangible asset under Hong Kong (IFRIC) Interpretation 12 "Service Concession Arrangements".

The right to charge the users of the public service is recognised as an intangible asset. Zhunxing estimates the fair value of the intangible asset to be equal to the construction costs plus certain margin by management estimation with reference to the market information in similar industry and management's experience.

Amortisation of the concession intangible asset started upon commencement of the operation of the Zhunxing Expressway on 21 November 2013.

No interest was capitalised to concession intangible asset during the six months ended 30 September 2024 and 2023.

Trade receivables are non-interest bearing.

On 15 April 2021, the Supreme People's Court of Inner Mongolia Municipality ordered the Ministry of Transport of the PRC to withhold the Group's toll road income receivables as security for the overdue bank borrowings together with accrued interests, up to a maximum amount of RMB8,838,000,000.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

During the six months ended 30 September 2024, the Group was principally engaged in expressway operations, compressed natural gas (“CNG”) gas stations operations, growing and sales of agricultural products and timber operations.

Operation of Zhunxing Expressway

During the year ended 30 September 2024, the Group’s revenue was mainly contributed by toll income from the 265-kilometre heavy haul toll expressway in Inner Mongolia (“Zhunxing Expressway”) operated by Inner Mongolia Zhunxing Heavy Haul Expressway Company Limited* (內蒙古准興重載高速公路有限責任公司) (“Zhunxing”) which is indirectly held as to 86.87% by the Company. Zhunxing Expressway is strategically important to the energy resources logistics in the northern PRC as it connects the major coal production area with distribution centers in the region in a convenient and economical way.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW (Continued)

Operation of Zhunxing Expressway (Continued)

For the six months ended 30 September 2024, Zhunxing Expressway recorded an accumulated toll income of approximately HK\$300.00 million, representing an decrease of approximately 7.50% from approximately HK\$324.34 million for the last reporting period. The average daily toll revenue of Zhunxing Expressway during the period are as follows:

Factors	Average daily toll revenue					
	(RMB in million)			(HK\$ in million)		
	Six months ended	Six months ended	Year-on-year change rate	Six months ended	Six months ended	YOY
	30 September 2024	30 September 2023	("YOY")	30 September 2024	30 September 2023	
Zhunxing Expressway	1.51	1.62	-6.79%	1.64	1.77	-7.34%

Upon traffic opening and commencement of toll collection of Zhunxing Expressway on 21 November 2013, the Group actively introduced measures and promotions to build client base. Apart from the economic factors, other factors which restrained the growth of both traffic volume and toll income of Zhunxing Expressway during the period include but not limited to the following:

- (1) Due to the implementation of energy consumption control policies and air pollution control policies in the PRC, certain coal related enterprises were shut down, resulting in a decrease in both coal consumption and traffic volume of Zhunxing Expressway;
- (2) The "Railway to Railway" policy in the PRC has affected the transportation pattern of bulk cargo. The mode of transportation of coal has been shifted from road-oriented to railway-oriented. Railways save the transportation cost of coal and improve efficiency. As a result, the shift of the transportation pattern has a direct impact on traffic volume of Zhunxing Expressway;
- (3) The road network has become increasingly dense and certain original road users of Zhunxing Expressway has transferred to other new or renovated national expressways within the road network; and

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW *(Continued)*

Operation of Zhunxing Expressway *(Continued)*

- (4) Frequent extreme weather events (such as heavy rain, snowstorms, and windstorms) have had adverse impact on Zhunxing's operations, leading to transportation disruptions that restrict vehicle passage and reduce toll revenue. These weather conditions have also caused damage to the highway infrastructure (such as road collapses and water accumulation), which may encourage customers to use other new or renovated national expressway within the road network.

Zhunxing will carry on a number of measures to boost the growth in traffic volume and toll income of Zhunxing Expressway and attract more coal transport vehicles to utilize Zhunxing Expressway on a regular basis:

- (1) Fine-tune its business strategies to seek revenue growth in this competitive market environment:
 - i) Executing a road maintenance program that is comprehensively planned and deployed under Zhunxing's policy to "normalize, standardize, and ensure the road conditions of Zhunxing Expressway to preserve its best state". During the past years, Zhunxing Expressway maintained good standards on road appearance and road condition, and thus fully realized the maintenance management objectives of "smooth, safe, comfortable and splendid" for an expressway; and
 - ii) Reinforcing a safe and expedient driving environment by implementing 24-hour patrol system to improve the service level and emergency response capability of the maintenance, road administration and traffic police personnel, with an aim to swiftly resolve spontaneous traffic incidents and minimize the time to restore traffic fluency on Zhunxing Expressway;

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW *(Continued)*

Operation of Zhunxing Expressway *(Continued)*

- (2) Strengthen daily management of Zhunxing Expressway by incorporating daily inspection, comprehensive inspection and special inspection to achieve a full coverage of vehicle inspection at the entrance and exit of toll stations, curbing the phenomenon of evasion and leakage of toll;
- (3) Focus on marketing activities to grow customer base. Zhunxing will explore the cooperation opportunities with the neighboring logistic base and coal chemical enterprises and promote Zhunxing Expressway's advantageous position in bringing together a coal transport process that reinforces traffic fluency, cost-saving and high efficiency; and
- (4) Actively utilize the national toll collection policy and implement a differentiated toll strategy. Based on the "Comprehensive Implementation Plan for Differentiated Toll Collection" issued by the Ministry of Transport, the National Development and Reform Commission, and the Ministry of Finance, Zhunxing will formulate a differentiated toll plan for road sections to attract different types of vehicles to use the Zhunxing Expressway.

Forage and Agricultural Product Business

The Group has commenced its business in the growing and sales of forage and agricultural products in May 2017 upon Ar Horqin Banner Xinze Agricultural & Animal Husbandry Company Limited* (阿魯科爾沁旗鑫澤農牧業有限公司) ("Xinze") becoming a 60% owned subsidiary of the Group after the acquisition was completed on 10 May 2017.

The major factor attributes to the sales revenue of the forage is the level of local precipitation that affects the yield of the forage. Due to climate changes in recent years, especially affected by the multiple drastic changes in national temperature and the effect of cold currents since the second half of 2018, it is difficult to maintain the production and sales of forage at a sustainable level.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW *(Continued)*

Forage and Agricultural Product Business *(Continued)*

For the six months ended 30 September 2024, no sales income was recorded under the forage and agricultural product business (for the six months ended 30 September 2023: HK\$Nil) as the production of sorghum silage has ceased as a result of the significant drop in local precipitation since 2019.

In light of the local climate condition and Xinze's current operation, the management of Xinze considers that the forage production will require additional investment in extensive irrigation equipment and rebuild wells to recover and stabilize the productivity of the operation.

Forest Operation

With an aim to improve the cash flows of the Group, the Company will continue to look for opportunity to dispose its forestry related businesses in the PRC.

FINANCIAL REVIEW

Revenue

The Group's unaudited revenue for the six months ended 30 September 2024 was approximately HK\$300.00 million, representing a decrease of about 7.50% from approximately HK\$324.34 million for the last corresponding period.

Toll income from expressway operations of approximately HK\$300.00 million (for the six months ended 30 September 2023: approximately HK\$324.34 million) constituted the mainstream of the Group's revenue for the six months ended 30 September 2024. The decrease of about 7.50% in the toll revenue from the expressway operations during the period was mainly due to the factors as discussed in the "Business Review" section and the drop in Renminbi to Hong Kong Dollar exchange rate.

MANAGEMENT DISCUSSION AND ANALYSIS

FINANCIAL REVIEW *(Continued)*

Cost of sales

The Group's cost of sales for the six months ended 30 September 2024 was approximately HK\$198.65 million, representing an increase of about 8.94% from approximately HK\$182.35 million for the last corresponding period. The Group's cost of sales during the six months ended 30 September 2024 was mainly attributable to (i) the amortization of concession intangible asset arising from the expressway operation of approximately HK\$138.62 million (for the six months ended 30 September 2023: approximately HK\$139.63 million), (ii) road maintenance cost arising from the expressway operation of approximately HK\$29.49 million (for the six months ended 30 September 2023: approximately HK\$1.15 million), (iii) the staff cost of approximately HK\$13.51 million (for the six months ended 30 September 2023: approximately HK\$13.76 million) and (iv) the depreciation of property, plant and equipment of approximately HK\$3.37 million (for the six months ended 30 September 2023: HK\$17.19 million). The increase of about 8.94% in the cost of sales was mainly due to significant increase in road maintenance cost arising from the expressway operation for the six months ended 30 September 2024 compared to that of the six months ended 30 September 2023.

Gross profit

For the six months ended 30 September 2024, the Group's gross profit was approximately HK\$101.36 million (for the six months ended 30 September 2023: approximately HK\$141.99 million).

FINANCIAL REVIEW *(Continued)*

Gain on Debt Restructuring

Debt restructuring proposal of Zhunxing was approved and became effective during the six months ended 30 September 2023. Certain claims of the restructuring against, and liabilities of, Zhunxing were discharged and compromised in full. Accordingly, approximately HK\$992.70 million has been recognised as gain on debt restructuring during the six months ended 30 September 2023. The Group is currently implementing and finalizing the restructuring and no gain on debt restructuring was recognised during the six months ended 30 September 2024.

EBITDA

For the six months ended 30 September 2024, the Group recorded a reduced EBITDA (defined as earnings before interest, taxes, depreciation, amortization, gain on debt restructuring and non-cash changes in values of assets and liabilities) amounted to approximately HK\$221.34 million compared to the EBITDA of approximately HK\$280.70 million for the last corresponding period. The approximately 21.15% decrease in EBITDA was primarily driven by the reduced revenue from the expressway operations of the Group as discussed in the “Business Review” section and the approximately 8.94% and 86.72% increase in the Group’s cost of sales and selling and administrative expenses during the six months ended 30 September 2024 compared to those of the six months ended 30 September 2023, respectively. Detailed segment revenue and contribution to profit/loss before income tax of the Group is shown in Note 4 to the unaudited condensed interim consolidated financial statements of the Group for the six months ended 30 September 2024 (the “Interim Financial Statements”) in this report.

The Group's net loss for the six months ended 30 September 2024 was approximately HK\$106.92 million (six months ended 30 September 2023: net profit of approximately HK\$964.41 million). The Group's net loss (six months ended 30 September 2023: profit) for the six months ended 30 September 2024 was primarily contributed by the finance costs amounted to approximately HK\$181.75 million and the selling and administrative expenses amounted to approximately HK\$33.33 million (six months ended 30 September 2023: the gain on debt restructuring of approximately HK\$992.70 million). The change from net profit for the six months ended 30 September 2023 to net loss for the six months ended 30 September 2024 was mainly due to the recognition of gain on debt restructuring of approximately HK\$992.70 million for the six months ended 30 September 2023 and increase in finance costs for the six months ended 30 September 2024 compared with that of the six months ended 30 September 2023. The approximately 28.21% increase in finance costs of the Group was mainly due to the waiver of interest expense on certain bank and other borrowing resulting from the process of restructuring during the six months ended 30 September 2023. The Group's selling and administrative expenses for the six months ended 30 September 2024 were primarily attributed to staff costs and benefits of approximately HK\$10.02 million (for the six months ended 30 September 2023: approximately HK\$10.46 million) and legal and professional fees of approximately HK\$13.58 million (for the six months ended 30 September 2023: approximately HK\$0.02 million).

The loss (for the six months ended 30 September 2023: profit) attributable to owners of the Company for the six months ended 30 September 2024 was approximately HK\$109.83 million (for the six months ended 30 September 2023: approximately HK\$820.45 million). The basic loss per share attributable to owners of the Company for the six months ended 30 September 2024 was HK\$0.01 as compared with basic earnings per share of HK\$0.08 for the last corresponding period. No diluted loss/earnings per share was presented for the six months ended 30 September 2024 and 2023 as there were no dilutive potential ordinary shares of the Company outstanding during the periods.

MANAGEMENT DISCUSSION AND ANALYSIS

LIQUIDITY REVIEW

The Group's policy is to regularly monitor its liquidity requirements to ensure that it maintains sufficient reserves of cash to meet its liquidity requirements in the short and long term. The Group's assets portfolio is mainly financed by its borrowings and debt securities.

As at 30 September 2024, the Group was in a net liabilities position of approximately HK\$13,020.98 million as compared to a net liabilities position of approximately HK\$12,765.07 million as at 31 March 2024.

As at 30 September 2024, contractual maturities based on contractual undiscounted cash flows of approximately HK\$19,342.25 million, HK\$1.24 million, HK\$0.96 million and HK\$3.93 million (31 March 2024: approximately HK\$19,062.21 million, HK\$1.21 million, HK\$1.49 million and HK\$3.90 million) were required to be repaid within 1 year or on demand, after 1 year but within 2 years, after 2 years but within 5 years and after 5 years, respectively.

The gearing ratio of the Group, measured as total liabilities to total assets, was 305.88% as at 30 September 2024 (31 March 2024: 302.60%).

As at 30 September 2024, the Group had cash and bank balances of approximately HK\$10.77 million (31 March 2024: approximately HK\$13.37 million) and its available credit facilities were amounted to approximately HK\$9,392.47 million (31 March 2024: approximately HK\$9,253.32 million), which have been fully utilised (31 March 2024: fully utilized).

LIQUIDITY REVIEW *(Continued)*

Borrowings

The Group's outstanding borrowings amounted to approximately HK\$9,421.47 million (31 March 2024: approximately HK\$9,282.32 million), represented approximately 48.70% of the Group's total liabilities as at 30 September 2024 (31 March 2024: 48.69%). Approximately HK\$29.00 million (31 March 2024: approximately HK\$105.10 million) of the Group's outstanding borrowings were charged at fixed rates.

As the expressway operation is a capital intensive industry, the Group's outstanding borrowings amounted to RMB8,475.43 million (approximately HK\$9,392.47 million), were obtained and drawn down primarily for the construction of Zhunxing Expressway as at 30 September 2024. The syndicated loan facilities of RMB7,558.56 million (approximately HK\$8,376.40 million) (the "Syndicated Loans") granted by several PRC banks (the "Banks") in December 2012 were secured by Zhunxing's receivables of toll income. Furthermore, Zhunxing obtained and drawn down loan facilities amounted to RMB916.86 million (approximately HK\$1,016.07 million) from several authorised financial institutions in the PRC, which was secured by a combination of (i) Zhunxing's receivables of toll income, (ii) the Group's equity interests in Zhunxing and/or (iii) certain Zhunxing's investments.

As part of the restructuring process with the Banks (as set out in the "Material Events" section), the Syndicated Loans were regarded as default before the completion of the debt restructuring. Accordingly, the Group's outstanding borrowings were all classified as current liabilities as at 30 September 2024.

Significant investments, acquisitions and disposals

During the six months ended 30 September 2024, the Group did not have any material acquisitions or disposals of subsidiaries, associates or joint ventures.

LIQUIDITY REVIEW *(Continued)*

Capital Commitments

The Group's capital commitments outstanding as at 30 September 2024 increased by approximately 2.31% to approximately HK\$21.70 million (31 March 2024: approximately HK\$21.21 million), representing the capital expenditure arising from the acquisition of property, plant and equipment.

Going Concern

The Group incurred a net loss of approximately HK\$106.92 million for the six months ended 30 September 2024 and as of that date, the Group had net current liabilities of approximately HK\$18,772.25 million and net liabilities of approximately HK\$13,020.98 million.

As at 30 September 2024, the Company was in default in the repayment of borrowings of approximately HK\$9,421.47 million, promissory note of approximately HK\$127.33 million and the non-convertible bonds with aggregate carrying amounts of approximately HK\$4,395.65 million. These debts, together with the outstanding default interests accrued thereon of approximately HK\$4,455.64 million, totaling approximately HK\$18,400.09 million are classified as current liabilities as at 30 September 2024. These conditions indicate the existence of material uncertainties which may cast significant doubt on the Group's ability to continue as a going concern and therefore, the Group may not be able to realise its assets and discharge its liabilities in the normal course of business.

In view of the circumstances, the Board has undertaken and/or is in the progress of implementing various measures (the "Measures") to improve the Group's liquidity position as set out in Note 1 to the Interim Financial Statements in this report and the below section headed "Action Plan To Address The Audit Qualification". Up to the date of this report, the Measures have not been completed. Assuming the successful implementation of the Measures, the Board is of the opinion that the Group will have sufficient working capital to meet its financial obligation as and when they fall due in the foreseeable future. Accordingly, the Interim Financial Statements have been prepared on a going concern basis.

MATERIAL EVENTS

Update on Debt Restructuring

As at 30 September 2024, the Group has borrowings in the total amount of approximately HK\$9,421.47 million. Such borrowings mainly consisted of Syndicated Loans of approximately RMB7,558.56 million (equivalent to approximately HK\$8,376.40 million) granted by the Banks in December 2012. As announced by the Company on 5 September 2019, the Company was informed that the Banks intended to optimise their loan portfolios by restructuring the Syndicated Loans through legal process to other interested parties. However, the Banks must go through certain legal proceedings with the Group including filing of civil actions, court-directed mediations, entering into of settlement agreement(s) and execution(s) of settlement agreement(s) in respect of the Syndicated Loans.

By the end of December 2019, settlement agreements had been entered into between the Banks and the Group. After several communication with the Banks, the Group was given to understand that the restructuring of the Syndicated Loans would initiate in June 2020.

During the process of debt restructuring of Zhunxing, the Banks and another PRC bank lender (the "Lenders") had applied to freeze Zhunxing's receivables of toll income, details of which are set out in Note 13 to the Interim Financial Statements.

On 10 May 2022, the Intermediate People's Court of Ulanqab Inner Mongolia Autonomous Region (內蒙古自治區烏蘭察布市中級人民法院) (the "Court") decided that Zhunxing was an entity that was suitable for restructuring and thus accepted the winding up and restructuring application of Zhunxing by China Development Bank for the said bank to restructure Zhunxing. On 25 August 2022, the Court issued a written decision that Beijing Tian Tai Law Firm*北京天馳君泰律師事務所 had been appointed as the administrator (the "Administrator"). The Court had been approved Zhunxing to continue operating and manage business affairs on its own. Zhunxing and the Administrator had submitted a restructuring proposal to the Court and the creditors within 6 months after the date of the court order. The restructuring proposal was passed by the requisite majority of creditors of Zhunxing at the meeting of restructuring proposal. The restructuring proposal of Zhunxing had also been approved by the Court on 26 September 2023. Since then, the restructuring proposal became effective on 26 September 2023. The Administrator has received the preference indication forms from all restructuring proposal creditors and the admitted claims have been allocated in the following manner:

- (a) For the portion of the borrowings secured by collateral that is less than the assessed value of the collateral (the "Partial Secured Borrowings"), 15% of the Partial Secured Borrowings will be repaid in cash within 3 months from the date of acceptance of this repayment arrangement in writing. 85% of the remaining Partial Secured Borrowings will be repaid within 10 years from the date of court approval of the restructuring proposal. For the portion of the borrowings secured by collateral that exceeds the assessed value of the collateral (the "Remaining Secured Borrowings"), the Remaining Secured Borrowings up to RMB1,000,000 will be fully repaid in cash within 1 year from the date of court approval of the restructuring proposal. The portion exceeding RMB1,000,000 will be discharged by transferring a portion of the equity interest of Zhunxing held by the Group to the creditors. The amount of equity transferred to them is subject to the number of ordinary unsecured creditors choosing the equity option as set out in note (c)(ii) below.

Disposal Agreement B, C and D *(Continued)*

As at the date of this report, the three purchasers have not prepared the terms of the supplemental agreements and no revised timetable has been agreed. Each of the above disposal agreements is not inter-conditional and shall be completed separately. In light of the China's economy slowdown and the policy environment with risks and uncertainties, the progress on the proposed disposals of the 71% equity interests in Zhunxing has been in a standstill position. Given the Company's imminent funding needs, the Board is of the view that continuing to pursue the above proposed disposals of Zhunxing may not be in the interest of the Company and its shareholders as a whole, and is considering to terminate the above disposal agreements. The Company will actively seek other potential purchasers to dispose the 71% equity interests in Zhunxing and the proceeds will be used to repay partially the principal amounts of the Outstanding Bonds and other outstanding borrowings. Further announcement(s) will be made by the Company as and when appropriate.

Details on the arrangement of proposed disposals and buy-backs of the 71% equity interests in Zhunxing are set out in the announcements of the Company dated 9 January 2017, 30 March 2017, 30 June 2017, 29 September 2017, 18 December 2017, 16 April 2018 and 12 August 2019 and the circular of the Company dated 26 March 2018.

PROSPECTS

The general outlook for the business environment will remain challenging. In view of the slowdown of China's economy, and the implementation of energy control and air pollution control policies in the PRC, we remain cautious about the adverse impacts on the financial results of the Group.

Despite this, the PRC is vigorously promoting the construction of the highway network to stimulate economic development and regional integration. The construction of highways is seen as a crucial means to promote economic growth and improve logistics efficiency, enhancing the PRC transportation capacity and fostering economic expansion. Further, to encourage a steady and healthy development of the coal industry and bring about a turnaround for the transportation industry, the PRC implement measures to stabilize coal prices, adjust the pace of coal imports, and coordinate measures for coal transportation. It is expected that these positive factors will bring growth to the traffic volume and toll income of Zhunxing Expressway, the Group will continue to move forward steadily.

PROSPECTS *(Continued)*

Given the Company's imminent funding needs to meet its short-term financial obligations, the Company will prioritize on exploring all possible avenues, including but not limited to right issue, open offer, placing of new shares, issuance of new convertible bonds, disposing assets of the Group and identifying other purchasers to dispose the interest in Zhunxing, to generate capitals to repay the Outstanding Bonds and other outstanding borrowings. The Board will continue to seek opportunities to strengthen the Group's financial position and strive to maximize the benefits of the shareholders of the Company (the "Shareholders") as a whole.

The auditor of the Company (the "Auditor") did not express opinion on the consolidated financial statements of the Group for the year ended 31 March 2024 and the five preceding financial years due to the potential interaction of the multiple uncertainties relating to going concern and their possible cumulative effect on the consolidated financial statements.

Notwithstanding, the Board will strive to complete the above Measures before the financial year ending 31 March 2025.
