MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW AND OUTLOOK

During the six months ended 31 December 2024 (the “**Reporting Period**”), the Group actively pursued various business opportunities, submitting 17 tenders for construction projects valued at approximately HK\$751.8 million. In light of the challenging economic environment, the Group adopted a prudent and selective strategy, focusing on tenders with reasonable profit margins to mitigate operational risks and reduce overall exposure. Despite these efforts, the combined effects of increased competition and a downturn in the Hong Kong property market resulted in a lower success rate for securing tenders. Nevertheless, during the Reporting Period, the Group continued to focus on a project with a contract value of approximately HK\$97 million, which had been launched in the last financial year, and its progress remained on track and smooth. At the same time, we continued to oversee the progress of five projects that had been substantially completed in previous years, ensuring their smooth finalization and fulfillment of contractual obligations. Financially, the Group maintained a robust position, evidenced by a notably low gearing ratio that reflects our disciplined approach to financial management.

The Directors recognize that the Group’s future prospects depend substantially on market conditions, particularly the competitive landscape in the construction sector and the performance of Hong Kong’s property market. High interest rates have resulted in declining local property values, prompting the Directors to exercise caution by avoiding tenders with thin profit margins. However, we remain optimistic about the gradual recovery of the property market, supported by the anticipated implementation of economic policies by the Hong Kong Government and potential rate cuts by the US Federal Reserve. These developments, along with the government’s commitment to land development and public housing initiatives, are expected to create opportunities for the Group to leverage its competitive strengths and achieve sustainable growth.

In addition, the Group has continued to explore diversification opportunities within the construction industry to improve overall profitability for shareholders. Although our efforts to expand into the Chinese market faced obstacles due to unfavorable conditions, we remain attentive to changes in the market and its potential for future growth.

Looking ahead, the Group will maintain a measured approach in assessing new projects, carefully balancing risks and returns. In the face of intense competition within the construction industry, we will continue to identify promising business and investment opportunities, including potential acquisitions or strategic partnerships across various sectors. These initiatives aim to enhance profitability, strengthen the Group’s market presence, and ensure long-term sustainability.
